THURSDAY, July 12—P. M.

Gold is higher, and closes at 152¼, after selling at 147¾ and 152¾ during the day.

The improvement in Government stocks continues, and at the Board, as well as at bankers' counters, the demand is large. The 5-20s of 1862 sold at 107; those of 1864 rose ¼, and the issue of 1865, ¼; 10-40s rose ¼, and 7.30s, ¼. There is a good inquiry for Government stocks from parties holding one-year certificates, and for a long time Federal stocks have not been so much in favor. Railroad mortgages are steady and not offered in large amounts. Bank stocks are steady. Canton Co. fell 4 per cent; Western Union Telegraph, 1¼; Mariposa Preferred rose ¼. The Erie speculation is not so active, and the price is lower. The "bulls" yesterday made a mistake in refusing to sell a large amount of stock at a fair price. It enabled many old friends of the road to sell out to the bears at a high price, and so largely increased the stock upon the street. Chicago and North-Western shares continue firm, and in demand at an improvement. Reading was also higher. The balance of the list did not maintain the extreme rates of yesterday. After the call Canton rose 1 per cent; the rest of the list was steady, except Erie, which was lower.

At the Second Board the market was dull on Erie at 74¼, and firm on the balance of the list. Reading and the North-Western shares were most active. The balance of the list was steady at quotations, and closed firm at quotations on the street. The closing prices were: Ohio Certificates, 27¼@27¾; Canton, 51¼@53; Cumberland Coal, 46@46¾; Quicksilver, 51¼@52; New-York Central, 99¼@99¾; Erie, 74¼@74¾; Hudson River, 113@114¼; Reading, 107¼@107¾; Michigan Southern, 81¼@81¾; Cleveland and Pittsburgh, 84¼@84¾; Rock Island, 96@96¾; North-Western, 34@34¼; North-Western Preferred, 62¾@63¾; Fort Wayne, 97¼@98¾.

Money is quoted irregularly. Most houses pay 5@6 per cent, but there are exceptional loans at 4 upon mixed collaterals. In commercial paper no change. Prime is scarce, and can be had at low rates. Long engagements are not in favor.

Exchange is higher since the Persia's arrival, and regular drawers fully control the market. The rates are: London, prime bankers', 60 days, 109¼@109¾; London, prime bankers', sight; 110¼@110¾; London, prime commercial, 107@108¼; Paris, bankers', long, 5.11¼@5.10; Paris, bankers', short, 5.07¾@5.06¾; Antwerp, 5.12¼@5.11¼; Swiss, 5.13¼@5.11¼; Hamburg, 37¼; Amsterdam, 42; Frankfort, 43; Bremen, 79@79¼; Berlin, 74.

The steamship Persia brings London advices to July 1. On the 30th of June, Five-Twenties were quoted at 65¼@65¾; Illinois Central, 74@74¼; Erie, 38¼@38¾; Consols, 86¼@86¾.

The Bank of England, contrary to general expectation, determined at the weekly Board of Directors not to reduce the rate of interest.

The action of Congress in relation to telegraphic matters has deferred the price of existing companies, in view of competition. Some idea of the extent of the telegraph business can be had from the following estimate of receipts and expenses:

The receipts in gross for 1865 were as follows:

Western Union	$2,314,211 41
American	1,437,627 21
Total receipts	$3,751,838 62

The net receipts have been from 1860 to 1865, both inclusive, as follows:

Western Union	$2,659,499 04
American	1,595,838 78
Total receipts	$4,155,337 82
Average per annum	$694,222 97

The property of the Western Union is now represented as follows:

Western Union Bonds	$3,000,000
Western Union Stock	28,450,000
American Telegraph Stock	12,000,000
Total	$42,450,000
Less good assets	1,450,000
Actual costs	$41,000,000

The average gross and net receipts for six years ending 1865, were as follows:

Gross	$1,902,849	Net	$694,222
Or 7 per cent on above			$10,000,000

During these six years the stock of the two companies has been enlarged, but original holders have been well satisfied with the profits. Upon the business of 1865, the capital of $41,000,000 shows an apparent profit from $3,751,838 gross of $1,012,986 net—equal to 2½ per cent. If Congress passes the National bill, the public at no remote day will have cheaper telegraphing through competition of rival lines. The pioneers in telegraphing have been largely rewarded for their enterprises, but are approaching the time when they must meet such active competition as success never fails to stimulate.

In order to avoid the crowd on Monday, the First National Bank and the National Currency Bank will pay the small holders of July 7.30 coupons on Saturday.

The traffic of the Atlantic and Great Western Railway for the month of May was:

1866.....$451,677 | 1865.....$399,364 | Increase.....$52,113

The earnings of the Pittsburgh, Fort Wayne and Chicago Railroad for the month of June were:

1866...$614,573 28 | 1865...$546,052 12 | Decrease...$2,421 84

In reference to the market for American securities Messrs. Satterthwaite & Co. thus report:

The London market for American securities has, since our last, been subject to some considerable fluctuations. Toward the close of last week, on the anticipation that advices from New-York would report a further decline in gold, prices were well maintained, and United States 5-20 bonds were freely taken up at 66; but, on the arrival of the Nova Scotian yesterday, with the unexpected intelligence of an advance of 15 per cent in the premium on gold, quotations gave way quite 3 per cent, but from this point have rallied to 66¼@66¾, the settlement of the account developing a short supply of stock. Illinois and Erie shares have been affected from the same cause as 5-20s, but have also rallied from the extremely low prices which they at one time touched, and close 73¼@74¼, and 38@38¾ respectively, but not so firm at these quotations as they appeared at one time to day.

The Chicago Tribune of Tuesday says:

There was a good supply of currency at the various banking houses to-day, and the money market was easier; but it is still confortably close to borrowers, and none but first-class operators can extend their discount lines. The rate is steady at 10 per cent per annum, but inferior paper is discounted on the street at 1@1½ per cent per annum. The market for Eastern exchange is decidedly firmer, and there were no sellers among bankers to-day at less than 50c. off. Counter rates were steady at one-eighth discount selling and par buying.

The following are the receipts of produce at New-York for the six months ending June 30:

Neill Bros. & Co.'s Cotton Circular, per the Java, says:

"The weather has continued favorable, with scarcely an exception, in all parts of the cotton growing country, and the contrast presented by our correspondence this week, with the disheartening reports received a few weeks ago, is extremely satisfactory. Many persons who then advised, now do not honestly believed in a total destruction of their crops, now write quite cheerfully of their prospects, so great a change does the more favorable weather produce, not only on the prospects, but also on the spirits of the planters. It seems now to be admitted that the injury, although great, was, as we wrote at the time, capable of being to a considerable extent, repaired by favorable weather."

N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING July 14, 1866.

[Expressly for THE N. Y. TRIBUNE by our own Reporter.]

The following are the current rates of articles in good condition, as sold by commission houses at wholesale. Shippers receive 5 to 10 ₱ cent less, deducted for commissions, beside freight and other charges. Parties receiving produce to sell, often with the request that immediate returns be made, cannot always obtain the prices which transient buyers have to pay. Our figures are intended more for the farmer than the merchant, and we prefer not to disappoint by giving the outside prices of very choice articles.

BEANS AND PEAS.

Medium beans are not selling as well, with more on the market. Some are held at $2, while others are offered much below that price. It is difficult to force sales. We quote:	
Beans, pea, prime, ₱ bush	$2 10@$2 25
Beans, medium prime, ₱ bush	1 80@ 1 90
Beans, kidney ₱ bush, prime	2 50@ 2 60

BUTTER.

There are no changes or new features in the butter market. There is a disposition to hold the stock back, both in this State and at the West. Though the trade here is limited and calls for light receipts, as there is scarcely any outlet, still our advice is to let it come forward a little faster—as fast as the market will bear without breaking—else the heavy accumulations will be rushed in together in September and October, and entirely break down the market. Trade is now mostly in Western Reserve, which sells at 32@34c., with some fine held at 35c. Late accounts from California are unfavorable for shippers, and very little butter is going south—none at all to Europe. Fresh State butter, which comes through in ice or refrigerator-cars, brings about 40c.—some 41c. We quote:

State, prime, ₱ lb	39@41

CHEESE.

There is an improvement in factory cheese, caused by an increased shipping demand and a more healthy state in the exchange market. Fine factories are now bringing 20c., and some fancy, Cheddar shape were sold to-day at 20½@20¾c. Nothing really good goes below 19½c. A lot of 750 selected farm dairy cheese was sold to a shipper at 18c., while the home trade is paying 18½@19c. for a little choice. Common cheese are growing worse in quality and price almost daily. One lot of poor, thoroughly skimmed, flat Ohio was sold at 8c., while many lots, if sold at all, will go even below this figure. Orange County factory skimmed is selling at 9@10c. There is no demand for new pineapple. We quote:

English Dairy, skimmed, ₱ lb	10@14
English Dairy, fine, ₱ lb	17@18

EGGS.

Eggs are scarce and much higher. They are mostly sold with some off at 28@29c.—some Western at the mark at 25@26c. We quote:

FRUITS AND BERRIES.

New Apples are improving in quality and sell readily, some as high as $8 per bbl. A few Lawton Blackberries were received from Hammonton on the 10th—the first of the season—and brought 40c. ₱ qt. Some fine mottled Bigarean cherries are coming from Rochester; a few brought 30c. ₱ lb; common currants are selling slowly. Raspberries continue high. Whortleberries are scarce and high—some fine berries brought 20 to-day. Peaches begin to arrive from Norfolk in good order, and bring $10@$15 per crate of two bushels. Charleston and Savannah Peaches are now coming in better order. A small lot of fine Delaware Apricots was sold at 50c. ₱ pint. Some Norfolk Pears are in market, but do not sell.

VEGETABLES.

Potatoes are lower, both old and new—the former nominal. Cabbages are high between early and late. Squashes and Cucumbers can scarcely be sold. Green Corn is in market from New-Jersey. ROMAN LOAN.

AMERICAN ISSUE—FOUR MILLION DOLLARS.

To insure the Treasury of the States of the Holy See complete independence during the negotiations pending between the Governments of France and Italy for the liquidation of the Papal State debt, His Holiness, Pope Pius IX., by Pontifical Act of the 11th of April, 1866, decreed the emission by subscription of the loan now offered to the public.

Although former loans have commanded nearly par, His Holiness, in view of the present condition of monetary matters, not wishing to impose a sacrifice upon those willing to assist him in surmounting his present temporary embarrassments, as well as to present inducements to capital, has decided to issue this loan at sixty-six (66) dollars gold for the one hundred dollar bond.

The Bonds, payable to bearer, are of 500 francs, or $100 (gold), each bearing 5 per cent interest per annum in gold, the coupons payable semi-annually, on the 1st of April and the 1st of October, in Paris, or in New-York, Philadelphia and New-Orleans, at the current rate of exchange. The issue being at $66 (gold), will give more than 7½ per cent interest on the investment.

From 1870, $10,000 will be annually appropriated, for the purchase of the Bonds. The amount of interest of those canceled will be applied to the further reduction of the debt.

It is believed that this loan will commend itself to capitalists generally, and undoubtedly will to all good Catholics having at heart a desire to prove that his Holiness never addresses himself to them in vain.

No investment can present greater security than one guaranteed, as this is, by the pledged faith of a State which has always punctually fulfilled every engagement of its Pontifical Head.
