NEW-JERSEY NEWS.

A Verdict of Manslaughter Against the New-Jersey Railroad Company.

THE PRESIDENT AND GENERAL SUPERINTENDENT TO BE ARRESTED.

At 11¼ o'clock on Wednesday night a man named Wm. Dugan, 66 years of age, while crossing the New-Jersey Railroad at Prospect-st., Jersey city, was struck by an outgoing train, and almost instantly killed. He resides at No. 137 Steuben-st., and was on his way home at the time of the occurrence.

A locomotive had been drilling and had backed down below Prospect-st., when the Newark train came out, and it is supposed that Mr. Dugan was thus confounded. He was nearly across the track when struck by the cow-catcher, which threw him a short distance, and striking upon his head, caused a fracture of the skull, resulting in death almost immediately after being picked up.

Coroner Kirsten impanneled a jury of intelligent and respectable citizens, and an inquest was concluded last evening. The only important point elicited, aside from the facts above stated, was that no watchmen are employed at the various crossings in the city, between the hours of 10 p. m. and 6 a. m. The jury rendered the following verdict:

We, the Coroner's jury, convened by law to inquire into the cause of death of William Dugan, find that he came to his death by being struck by a locomotive in charge of Edward Page, engineer, and Thomas C. Cox, conductor, at 11¼ o'clock p. m., on the night of the 11th of July, 1866.

And further, we find by report of the Coroner, that other fatalities of a similar character have lately occurred, and censures of either Directors parties for negligence have been passed on account thereof; and we find the Company for not having watchmen at this and the majority of the crossings in Jersey City from 10 p. m. to 6 a. m.; loss of life still occurring from such negligence, we feel constrained on this occasion to render a verdict of Manslaughter against the New-Jersey Railroad and Transportation Company, while we exonerate the engineer and conductor from all blame.

John Boulton, Foreman; Alexander Moran, T. O. Cutter, Wm. Hewerth, John Mason, Abm. C. Cannon, Wm. Gillen, James Brown-lee, John McCann, George Thorp.

In accordance with the above verdict, Coroner Kirsten will this morning issue warrants for the arrest of the President and General Superintendent of the New Jersey Railroad.

The Chicago Tribune of Wednesday says:

There is nothing new to note in financial and commercial circles. There was a fair demand for currency at the leading banks to-day; but there was no great pressure felt, and the market, though not easy, was by no means stringent. Good paper was generally accepted at the banks at 10 per cent per annum, but second-rate paper was discounted on the street at 10¼ per cent per month. The deposit accounts of our wholesale merchants are at present unusually light, and this renders the market closer than it would otherwise be. The market for Eastern exchange is quite firm, and rates have a steady upward tendency. Counter rates were steady at ¼ discount, buying, and par, selling; but round lots were in good demand among bankers at 1-20@1-10 discount, and some sales were made late in the day as high as par. Balances in New-York have been reduced quite materially by the receipts of currency; hence the activity in the demand by bankers.

The Boston Commercial of Thursday says:

The general condition of the money market is unchanged. The supply is fully adequate to meet the increased demand, and the rates show little variation. Call loans rule at 5@6 per cent on approved collaterals, but higher rates are paid on pledges of fluctuating values. There is more paper offered for discount, and strictly first-class paper of short date is passed at 6 per cent, with proportionately higher rates for the lower grades.

The Lamar Fire Insurance Company has declared a semi-annual dividend of 5 per cent. The Manhattan Insurance Company has declared a half-yearly dividend of 5 per cent. The Mercantile Mutual Insurance Company has declared a semi-annual dividend of 5 per cent. The Rutgers Fire Insurance Company has declared a semi-annual dividend of 5 per cent.

The New-Orleans Picayune says:

The receipts of the Jackson and Great Northern Railroad for the month of June, 1866, were $146,712. This is certainly a most gratifying return, and fully vindicates the energy and efficiency of the present administration.

The Cincinnati Commercial of Wednesday says:

Exchange is still troublesome to manage. Dealers get in more than they require in the regular course of their business, and are more generally ordering currency from the East to equalize matters. There is a full demand for money—that is, about as full as bankers care to have—and rates of interest remain firm at the old figures.

OR LIVING EXPENSES IN NEW-YORK.

FRIDAY, July 13—P. M.

The meat and fish dealers have to look well to the articles in their line, else they are soon tainted. It has been particularly severe on fresh meat to-day. Meat cannot now be taken from the ice, and be carried far and come out sweet the next morning, unless put upon ice as soon as carried home. The same with fish. People cannot be too careful of these, and also stale vegetables and fruits during the hot weather. The reported cases of cholera can generally be traced to some indiscretion in eating or drinking. The only changes of importance this week are a slight decline in some kinds of fish, and in most vegetables, with an advance in *good* eggs and poultry. Some new birds are in market this week. Fine cherries are scarce and high. A few strawberries still linger, sent from Northern New-York, and retail at 25@30c. ₱ quart. Whortleberries are not yet plenty, and it is too early for many of the large blackberries. Southern peaches are still scarce and high, though a few begin to arrive from Norfolk. Raspberries are scarce and nearly over. Green corn is in market from New-Jersey. Old potatoes are about over, and new ones much lower. Smoked hams are advancing:
