A NATURAL REMEDY

Suited to our Constitutions, and competent to the cure of every curable disease will be found in

WRIGHT'S INDIAN VEGETABLE PILLS.

Of the North American College of Health.

THESE Extraordinary pills are composed of plants which grow spontaneously on our soil; and are therefore better adapted to our constitutions, than Medicine imported from Foreign drugs, however well they may be compounded: and as Wright's Indian Vegetable pills are founded upon the principle that the human body is in truth

Subject to but one Disease,

viz. corrupt humors, and that said medicines cause the disease on natural principles—by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted, a perseverance in their use according to directions, is absolutely certain to drive away disease of every name from the body.

When we wish to restore a Swamp or Morass to fertility we drain it of the superabundant waters. In like manner if we wish to restore the body to health, we must cleanse it of impurity.

Wright's Indian Vegetable Pills

Will be found one of the best. If not the very best Medicine in the world for carrying out the

Grand Purifying principle,

because they expel from the body all morbid humors, the cause of disease, in an easy and natural manner, and while they every day give ease and pleasure, disease of every name rapidly driven from the body.

The above named pills, have been three years before the American public, and we can now say without fear of contradiction, that of all the various Medicines which have here before been popular, not one has given such universal satisfaction, or obtained such a permanent hold upon the affections of the people. Not only do all who use it invariably experience relief, and recommend it in the strongest terms, but it has effected some of the most astonishing cures ever performed by medicine.

From the Boston Daily Times.

WRIGHT'S INDIAN VEGETABLE PILLS.

Of all the public advertised medicines of the day, we know of none that we can more safely recommend for the sick than this. Indeed, we think the pills that are sold at the depot of the North American College of Health, no. 193 Tremont street, Boston. Several instances we know of where they are used in families with the highest satisfaction; and no longer ago than yesterday we heard an eminent physician recommend them in high terms. There used to be a great repugnance to the use of QUACK medicines as they are all indiscriminately termed, but it was mainly owing to the regular M. D.'s constantly denouncing them. They are however becoming more liberal in this respect, and the consequence that good Vegetable medicines are now more extensively used than formerly.

Extract of a letter from Washington City.

Mr. Wm. Warner—Dear Sir—You will have the kindness to forward me as soon as possible, two or three gross of the Indian Vegetable pills. The sales have for the last two months increased rapidly; those who buy, generally remarking "that they are the best pills they have ever used," and my opinion that they will in a short time supercede all others in this city.

ROBERT FARNHAM,
Washington city, D. C.

From the Penna. Saturday Evening Post.

WRIGHT'S INDIAN VEGETABLE PILLS.

Wright's Indian Vegetable Pills are attaining great celebrity in New England as well as other parts of the United States. The attempt of persons to defraud the public by the sale of spurious articles, meets with general reprobation. Mr. Wright is an indefatigable business man, and shows an array of cures by the medicine which warrant confidence in the virtue of his Indian Vegetable Pills.

This medicine is discovered to be a certain and effectual remedy for the intestine diseases, produced by the drinking of the water of the rivers in the southern and south western states which renders it of inestimable value to those who reside or travel in those sections of the country.
