FRIDAY, July 20—P. M.

Gold closes at 149¾ after selling at 150¾ and 149¼.

The stock market has been without special activity and prices as a whole are lower upon the share list. Government securities are barely sustained and transactions are upon a reduced scale. The 5-20s of 1865 are down to 105 and 7.30s are quoted 103⅞@103¾. After the call the market was lower upon the share list with a moderate business. Hudson River is very strong and sold at 116¼. At Second Board the market improved and all shares were in better demand. North-Western shares improved 1 per cent and closed strong. Reading, Hudson River, Rock Island, and Fort Wayne were in demand at improving prices. The closing prices were: Ohio Certificates, 28¼@28¾; Canton, 51½@51¾; Cumberland Coal, 46¼@46¾; Quicksilver, 49@50¼; Mariposa, preferred, 21@23; New-York Central, 104¾@105; Erie, 65¼@65¾; Hudson River, 115¼@117; Reading, 110@110¼; Michigan Southern, 82¾@82¾; Illinois Central Scrip, 119@119¼, ex dividend; Cleveland and Pittsburgh, 84¼@85; Cleveland and Toledo, 110¾@110¾; Rock Island, 97¼@97¾; North-Western, 35¼@35¾; North-Western Preferred, 64¼@64¾; Fort Wayne, 99¼@100.

Money is abundant at 5@6 per cent on call and brokers' accounts are made up with much ease. At the discount houses there is little doing, and rates are wholly unchanged. Best names pass at 5 per cent, and good at 5½@6 per cent.

The following are the quotations of exchange: London, prime bankers', 60 days, 109@109¼; London, prime bankers', sight, 110¼@110¾; Paris, bankers', long, 5.12½@5.11½; Paris, bankers', short, 5.10@5.07½; Antwerp, 5.15@5.12½; Swiss, 5.15@5.12½; Hamburg, 37½; Amsterdam, 40; Frankfort, 43; Bremen, 79½; Berlin, 74¼@75.

The business of the Sub-Treasury was: Receipts, $2,945,063 38—for customs, $389,000; Payments, $996,062 04; Balance, $91,083,159 19; Gold notes, $367,000.

The action of the Senate in regard to the National debt excites little remark. It is of no great importance, and only puts at rest the project of funding the National debt into a five per cent stock, free of income tax. The section which obliges National Banks, after January 1st, 1867, to hold "plain legal-tender notes" as a reserve, instead of compound-interest notes and temporary loans to the treasury, as at present, foreshadows a dearer and more active money market, but it has no immediate effect. The section authorizing the sale of surplus gold is another process by which legal-tenders are to be reduced, but there is no danger of any large contraction of currency from this cause very soon.

Parties holding 7.30 notes can exchange them with Mr. Van Dyke at the Sub-Treasury for 5-20 bonds. In adjusting the interest, the Department pays 7.30; but when a party takes a bond, and is required to pay arrears of interest, only 6 per cent in currency is charged, thus making a small difference in favor of the public.

The following are the earnings of the principal railroads for the month of June, compared with 1865:

The Cincinnati Gazette of Wednesday says:

There was no material change in the money market to-day. The demand was moderate, and discounts worked comparatively close. With anything like an active demand the market would be stringent. The supply of currency, notwithstanding receipts from the East, does not increase, and the most that can be said of the balances is that they are not getting lower. Rates of interest range from 8@12 per cent for good paper; 9@10 the prevailing figures between bankers and their customers. There is a very full supply of exchange, and the market rules heavy at 1-10 discount, buying, and par, selling.

The Chicago Tribune of Wednesday says:

The money market to-day was without material change. There was a brisk demand for currency at the various banks, and good paper was discounted at ten per cent per annum; but second-rate names were generally rejected, and in this sense the market may be reported stringent. Owing to the heavy losses by produce operators for a week or two past, produce paper is looked upon with distrust, and bankers are unwilling to make advances unless with shipping bills. On the street inferior paper is discounted at 1 to 1½ per cent per month. Eastern exchange is in very light supply, as compared with the demand, and the market is firm at 1-10 discount to par buying and 1-10 premium selling. Round lots were sold among bankers at a premium of 25c. per thousand, and at the close there were buyers at a premium of 50c. per thousand.

Family Markets.

OF LIVING EXPENSES IN NEW-YORK.

FRIDAY, July 20—P. M.

A change to cooler weather makes marketing a more agreeable operation, and less scrutiny is needed to inspect the meat, fish and vegetables. Abundance of these were spoiled during the heated term, while others were sold very cheap, dealers knowing they could not be kept many hours. Carcasses of mutton were sold at 5@6c. ⅌ lb, and hundreds were seized by the police as unfit to eat. Excepting a little advance in smoked fish and some of the berries, there are few changes to report until the vegetables are reached. Most of these are higher, caused in part by the severe drouth, with too great heat to collect and bring them in, and partly on account of the long season. Cabbages, potatoes, turnips and peas are advancing, while green corn, which is not yet the sweet variety, is lower. Among fruits, currants went up rapidly with the great demand during the hot days. Dry weather also checked the yield. Cherries are nearly out of market, and raspberries are deteriorating in quality with few of them. The Lawton and Dorchester blackberries are not yet plenty, while whortleberries are scarce and high, cut off by dry weather. Apples are in the supply, but still green. Peaches are a luxury indulged in by few. Ice went off faster than anything else during the heated term, and not a few hard words were applied to the wagon drivers for their tardy appearance.
