SATURDAY, July 21—P. M.

Gold opened at 149, sold up to 149¾, and closed at 150¾. The exports of the day have been $35,000. The Asphiwall steamer brings $2,063,000.

The stock market has been quite sluggish and lower prices have been made upon the general list. The decline has been small, and nothing beyond the usual reaction from a brisk speculation is shown. Gold-bearing Government Stocks are ¼ lower, but at the quotations there is an active demand at the counters of bankers. The 7.30s are steady and the investment demand good. State stocks steady with small transactions. Reading was active and firm. Chicago and North-Western stock continues in demand, and buyers are readily found for anything offered at quotations. Illinois Central is strong. After the call the market was steady but the amount of business was small, and the attendance of operators very limited, as usual on Saturdays. The last street prices were as follows: Canton, 52; Cumberland, 36; Quicksilver, 49¾; Mariposa, 10¾; New-York Central, 104¾; Erie, 65¾; Hudson River, 116; Reading, 110; Michigan Central, 106¾; Michigan Southern, 82; Cleveland and Pittsburgh, 84¼; Chicago and North-Western, 35¾; Preferred, 64¼@65.

Money was offered in abundance to stock houses at 5 per cent. Loans were made in exceptional cases at 4 per cent, but 5@6 per cent is the usual rate. Prime Commercial bills are 6 per cent, with sales of short dated at 5¼.

The redemption of one-year certificates at the Sub-Treasury is small, and this class of obligations is now nearly retired. The next step will be the payment of the temporary loan, toward which the Government has a balance in this city of full $30,000,000 upon which it should give interest. As the Treasury, from internal revenue, will now be in possession of a large surplus over its daily expenses, there seems no good reason why substantial payment should not at once be made upon the temporary loans, and the rate be reduced to four per cent upon this class of indebtedness.

The exchange of 7.30s for 5-20s proceeds slowly, and this plan of funding does not promise great success. As 5-20s now sell, the party holding 7.30s loses ⅛@1-10 per cent by exchanging, if he desires to sell the gold bonds. The short time the 7.30s have to run before they can be exchanged for money gives them great value with parties desiring short investment, and they will not be funded unless better terms than are now given are made. If a moderate commission was allowed a general agent, a large amount of currency debt could be exchanged for gold-bearing stock with advantage to the Government.

The new directors of the Mariposa Mining Co. are making a general and thorough examination of its affairs and management, and at no remote day its stockholders will get what has long been desired, an accurate statement of its condition and future prospects.

The transactions at the Clearing-House to-day and for the week were as follows:

Exchanges	$74,652,768 00
Balances	3,353,002 08

Foreign exchange closes as follows: Bills at 60 days on London, 107@108 for commercial; 108¼@109¼ for bankers; do. at short sight, 110¼@110¾; Paris at 60 days, 5.17½@5.11¼; do. at short sight, 5.10½@5.08¾; Antwerp, 5.17½@5.11¼; Swiss, 5.12½@5.11¼; Hamburg, 36¼@37¼; Amsterdam, 40¼@41¼; Frankfort, 43¼; Bremen, 77¼@79; Prussian thalers, 73¼@75.

The business of the Sub-Treasury was: Receipts, $1,825,625 25—for Customs, $681,000; Payments, $1,335,846 62; Balance, $91,572,928 82; Gold notes, $349,000.

The total imports at New-York for the week compare as follows:

Week ending	July 20.	July 13.	July 6.	June 29.

We are requested to state for the information of parties dealing in these securities, that Fire and Marine Insurance stocks and scrip, also Express stocks, are regularly called at the morning session of the New-York Petroleum and Mining Stock Board. Attention is requested to proposals for $100,000 "New Aqueduct Stock," bids for which will be opened at the Controller's Office, Tuesday, July 24, 1866, at 2 o'clock p. m. This stock will bear interest at 6 per cent per annum, payable quarterly, and the principal will be redeemed on the 1st day of August, 1884, from the sinking fund.

The San Francisco Mercantile Gazette of the 29th of June, received by the Arizona, says:

The money market has been steadily active throughout the week, but without any approximation to pressure. The line of mercantile paper under discount with the banks has increased within the past month, and the offerings are still considerable. This takes precedence over all other securities, even the best dividend-paying stocks, and until the wants of the merchants are fully supplied, its effect upon the mining share market will be depressing. The rates of interest have not deviated, and capital is abundant at 1@1½ per cent per month. The Sub-Treasurer in this city has received authority to increase the "bullion fund" of the Branch Mint from $500,000 to $750,000. This is a fund provided by the Government to enable the Superintendent of the Mint to pay to depositors the amount of their deposits before they can be worked into coin. Payments have, heretofore, been made within an average of six days, but this increase of the bullion fund will enable the depositor to get his money as soon as the assay is made and the intrinsic value of his deposit can be made—ordinarily within three days.

Receipts of treasure aggregate $3,800,000 for the month of June. During the ensuing Summer months the yield of the quartz and other mining enterprises of the State are likely to show a larger yield than for several years past.

The exports of treasure from June 1 to date have been as follows:

Since June 1, '66.	$4,356,105 93	Same time '65	21,050,613 23
Prev. this year	16,605,856 99		
Since Jan. 1, '66	$20,961,962 92	Dec. this year	$8,650 31

In England the number of new joint stock companies introduced and established during the half year ending June 30 amounts to only 32, with a total authorized capital of £8,000,000, only £6,500,000 being offered at present; deposits, £1,500,000. Probably only a very small proportion of this capital was actually subscribed by the public. In the corresponding half year of 1865, the number of new companies was 160; capital authorized, £56,000,000; showing that the panic has completely put a stop to all new schemes.

By the City of Paris we have commercial advices to the 12th instant. Cotton closed firmer. Breadstuffs were dull and American securities quiet.

N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING July 21, 1866.

(Expressly for THE N. Y. TRIBUNE by our own Reporter.)

The following are the current rates of articles in good condition, as sold by commission houses at wholesale. Shippers receive 5 to 10 ₱ cent less, deducted for commissions, beside freight and other charges. Parties receiving produce to sell, often with the request that immediate returns be made, cannot always obtain the prices which transient buyers have to pay. Our figures are intended more for the farmer than the merchant, and we prefer not to disappoint by giving the outside prices of very choice articles.

BEANS AND PEAS.

Beans are selling very slowly, and at lower rates when sales are forced; one lot of 400 bushels fair mediums was sold, in bags, at $1 40. We quote:

Beans, pea, prime, ₱ bush	$2 10@$2 25
Beans, medium prime, ₱ bush	1 50@ 1 75
Beans, kidney ₱ bush., prime	2 45@ 2 55
Beans, marrow, prime	2 50@ 2 60
Beans, marrow, hand-picked or screened	2 60@ 2 75
Beans, inferior	1 00@ 1 25
Peas, Canadian, ₱ bush	1 20@ 1 30

BUTTER.

The past has been a remarkably quiet week in the butter line. Receipts have been light but the demand is still lighter and stock is slowly accumulating. There is no call for the California market, and no other outlet. Prices are about as last week, or a shade below. Good Western Reserve is selling at 31@33c. The hot weather made it difficult to transport butter in good order, or to operate in it when received. We quote:

State, prime, ₱ lb	38@40
State medium, ₱ lb	34@38
Orange Co. and Up-River pails, ₱ lb	40@45
Western Reserve, Fine	32@34
Middle and Southern Ohio	27@30
White and Mixed, store packed	24@28
Chicago, Wisconsin, &c., ₱ lb	27@30
Pennsylvania tubs and pails	30@35
State tubs, Welsh	38@40

CHEESE.

Shippers are paying ½c. ₱ lb less for cheese than last week, rarely exceeding 18½@19c. Their views are generally about 18c. for good Factory. A little Fancy is bringing 19c., and some is held still higher. The opinion is that cheese must decline here, as it has already done in Europe. There is a fair shipping demand at these reduced quotations. Many small cheese, injured by the extreme heat, are sold at low prices, shippers taking advantage of the known heavy stock of such and the difficulty of disposing of it at home. Fresh dairy cheese to bring over 17c., save in a jobbing way. One lot of 500 boxes a good line, was sold to a shipper at 16½c. The tendency of everything is downward. We quote:

English Dairy, skimmed, ₱ lb	10 @14
English Dairy, fine, ₱ lb	17 @18
Factory, fair to good State, ₱ lb	17 @18
Factory, prime, ₱ lb	18½@19

Ordinary to good State, ₱ lb	10 @15
White, skimmed, ₱ lb	10 @10
Vermont Dairy, ₱ lb	16 @17½
Pineapple, new, ₱ lb	20 @25

EGGS.

There is scarcely any change in the egg market. Receipts are just equal to the demand, which is fair. Some good lots of Western were sold at the mark for 20c., but they are generally sold at those figures to count out. Single barrels of New-Jersey and Long Island eggs are bringing 23c., while some ordinary marks of Ohio were sold at 22@24c. at the mark. The prevailing price of *good eggs* is 20c. We quote:

New-Jersey and Pennsylvania fresh, ₱ doz.	— @30
State, good marks	29 @30
Western, and Canada ₱ doz., good order	28 @29
Egg Oats, ₱ bush, good	45 @50

FRUITS AND BERRIES.

Lawton blackberries are now coming in plentifully, but prices are wide. Some very fine berries were sold early this morning at 20c. for thirds, or 60c. per quart—generally at 45@50c.—while those which came in late, after the market was over, had to be sold at 30@35c., and in the afternoon they were offering at 25c. Saturday is a poor day for an over-stock of berries. Whortleberries promise a light crop between the late frosts and dry weather. Apples are more plenty and lower. Windfalls from New-Jersey bringing $3@$4 ₱ bbl. and sell very slowly. Small and early pears are selling about as apples, with a few Madeleines at $2@$2 50 per peach basket. Cherries are nearly over, and currants much higher, being cut off by drouth. Peaches continue scarce, arriving only from Charleston, Savannah and Norfolk, with a single crate from Delaware, which was sold at $10. A crate of fine Nectarines from Georgia brought $25. We quote:

VEGETABLES.

Farmers have either brought in most of their early potatoes or the weather was too hot to dig them. They are not as plenty and are bringing more money. Old sorts are out of market. Cabbages are high, owing to dry weather. A few New-Jersey tomatoes are in market, selling at $3 50@$4 ₱ crate. We quote:

SEVEN PER CENT FIRST MORTGAGE BONDS of the NORTH MISSOURI RAILROAD COMPANY.—We offer for sale the Seven Per Cent First Mortgage Bonds of the North Missouri Rail road Company, having 30 years to run. Coupons payable in New-York on January 1 and July 1 in each year.

Before accepting the agency for the sales of these bonds, we made careful inquiry into the condition and prospects of the road, which was examined by Mr. Wm. Milnor Roberts and others, on our behalf, and their highly satisfactory report enables us to recommend the bonds as first-class securities, and a safe and judicious investment.

The proceeds of these bonds ($6,000,000 in all) will be used in extending a road already completed 170 miles into North Missouri, to the Iowa State line, where it is to connect with the railroads of Iowa; and also westward to the junction with the Pacific Railroad (at Leavenworth) and other railroads leading up the Missouri River, so that this Mortgage of $6,000,000 will cover a complete and well-stocked road of 309 miles in length, costing at least $16,000,000, with a net annual revenue after the first year of over $1,500,000, or a sum nearly four times beyond the amount needed to pay the interest on these bonds, the income of the road of course increasing every year.

The Railroad connects the great City of St. Louis, with its 200,000 inhabitants, not only with the richest portions of Missouri, but with the States of Kansas and Iowa and the great Pacific Railroad.

To the first applicants we are prepared to sell $600,000 at the low rate of 90 cents, desiring to obtain a better price for the remainder. This will yield about 9 per cent income and adds 20 per cent to principal at maturity.

Any further inquiries will be answered at our office.
