BIG POLITICAL EVENTS DWARF DAY'S TRADING

Reading Shows Slight Heaviness; Reserves Show First Gain in Seven Weeks; Bond Dealings Nominal.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

New York, June 10.—The two-hour session of the stock market today was superficial and perfunctory at best, all eyes being directed toward Chicago. Trading was exceedingly narrow, with a mixture of advances and declines, specialties helping largely to hold up the recent level of averages.

Rails were an unimportant factor with slight heaviness in Reading, Chesapeake & Ohio, Southern Pacific and Southern Railway preferred, which was neutralized by further advances in Colorado Southern and St. Louis Southwestern preferred issues.

The usual leaders displayed little animation.

Total sales of stock amounted to 193,000 shares.

The statement of the local clearing house banks was the most interesting exhibit submitted for a long time with an actual loan contraction of $61,597,000 and a decrease of over $73,000,000 in demand deposits while reserve showed its first gain in seven weeks, increasing $16,442,960 and bringing the excess item up to $72,273,300.

Dealings in bonds today were nominal and confined to better known issues. Total sales, par value, $1,100,000.

United States coupon 4's advanced ½; registered 4's ¾, and Panama 3's 1¼ per cent on call during the week.

CHICAGO BOARD OF TRADE.

Chicago, June 10.—Wheat prices underwent a sharp decline today mainly as a result of the failure of European markets to respond to yesterday's advance on this side of the Atlantic. The close here was heavy, 2⅝ to 3⅛c net lower, with July at $1.04⅝ and September at $1.06⅛. Corn finished ⅝ to ⅞ to 1c down, oats off ¼ to ½c, and provisions varying from 17c decline to a rise of 2½c.

From the outset until the final gong the wheat market was on the down grade. Absence of export demand operated further to cause depression. The consequent smashing of values reached its most intense phase in the last ten minutes of the session. Liquidation by holders had by that time become general and with no support forthcoming the breaks in price brought into play many automatic stop loss orders to sell.

Better weather conditions and the break in the wheat market carried down corn. It was said, too, that the urgency of cash demand in oats in the southwest had subsided to a noticeable extent. Provisions averaged lower in the absence of any aggressive demand. Yesterday's buyers led the selling.

Closing prices:

Wheat—July, $1.04⅝; Sept., $1.06⅛.

Corn—July, 71c; Sept., 70c.

Oats—July, 39½c; Sept., 38⅝c.

Pork—July, $21.65; Sept., $21.25.

Lard—July, $12.42; Sept., $12.52.

Ribs—July, $12.47; Sept., $12.55.

WEEKLY FINANCIAL REVIEW.

New York, June 10.—Wall street concluded its desultory operations of the week with the results of the political conventions in doubt when today's two-hour session ended. For reasons not altogether clear to dispassionate observers, belief in an agreement between the two parties seemed to prevail.

United States Steel recovered much of its former prominence but coppers made only languid response to the declaration of numerous increased or "extra" dividends, probably because such action had been taken as a matter of course.

NEW YORK METAL MARKET.

New York, June 10.—Copper market continued quiet. The more important producers are reported to be maintaining quotations at about 29 to 29¼c for October and later deliveries of electrolytic.

Iron—Unchanged.

NEW YORK MONEY MARKET.

New York, June 10.—Mercantile paper, 3½@3¾ per cent.

Bar silver—61¼c.

Mexican dollars—48¾c.

Time loans—Strong. Sixty and 90 days, 3¾@3⅞ per cent.

OVERLAND ISSUES NEW BOOKLET ON THE KNIGHT MOTOR

Do you know that the shape of the explosion chamber has a great deal to do with the power of a motor?

Do you know the advantages of positive valve action?

Do you know the advantage of having valve openings protected from the heat of explosion?

Do you know that quietness of operation is the truest indication of absence of wear?

These and a multitude of other questions pertaining to automobile engines—especially sleeve valve motors—are answered concisely and clearly in a nw booklet just published by The Willys-Overland Company—said to be the most complete and comprehensive report ever written on the subject. It has been published for the sole purpose of familiarizing people with the advantages of the Knight type of motor.

The booklet is written in plain, everyday English. Any layman can grasp the full meaning of its text. At the same time it contains enough valuable information on the operation and construction of the Knight engine to hold the attention of a mechanical engineer.

Over 200,000 copies of the booklet have been printed and are being distributed. Overland and Willys-Knight dealers, schools, colleges and lecturers are among those who have been supplied with this treatise on the Knight engine. In addition, thousands of copies have been mailed to car owners and individuals who have written to the Overland factory for specific information on the subject.

For years this type of motor has been used practically in all of the well-known cars made abroad. Its virtues and advantages have been thoroughly understood throughout Europe. Since a year ago when the Willys-Overland Company announced its intention of building the lowest priced car in the world equipped with a Knight motor through American quality methods the demands for this car has rapidly increased. It is this interest of the American public in Knight-motored cars that prompted the Overland Company to take up this educational work.

Bowel Complaints in India.

In a lecture at one of the Des Moines, Iowa, churches a missionary from India told of going into the interior of India, where he was taken sick, that he had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him and believed that it saved his life. This remedy is used successfully in India both as a preventive and cure for cholera. You may know from this that it can be depended upon for the milder forms of bowel complaint that occur in this country. Obtainable everywhere.

"6 A. M.---and the World at My Door"

THE morning paper is as much a part of our living program as food or sleep or recreation. While breakfast is serving we take the latest look over Europe's battlefields, size up the stock market, learn what the city and nation have been doing overnight, and get our bearings for the day.

Even more of a necessity is it to my wife, for she plans all her buying by it. As we heartily believe in teamwork, she talks her purchases over with me to teach our dollars better sense.

By the same token I advertise my own goods in it—mostly to women—and am getting big returns from the investment. I figure that where nearly all the homes in Albuquerque around six in the morning welcome the world's news-bearer as warmly as we do, is where it's good business to have MY MERCHANDISE discussed and appreciated.

AN ALBUQUERQUE MERCHANT.
