HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have headaches every week or every month, and still others have headaches occasionally, but not at regular intervals. The best Doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is again necessary. If you suffer from headaches, no matter what their nature, take anti-kamnia tablets, and the results will be satisfactory in the highest degree. You can obtain them at all druggists in any quantity, 10c worth, 25c worth or more. Ask for A-K Tablets.

SICK-HEADACHES

Sick-headache, the most miserable of all sicknesses, loses its terrors when A-K Tablets are taken. When you feel an attack coming on take two tablets, and in many cases, the attack will be warded off. During an attack take one A-K Tablet every two hours. The rest and comfort which follow, can be obtained in no other way.

Genuine A-K Tablets bear the AK monogram. At all druggists.

ESCAPE INJURY WHEN DYNAMITE WRECKS HOME

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Trinidad, Colo., July 31.—Dynamite placed on the roof of the one-story dwelling of Steve Antunoche, a coal miner at Hastings at 10 o'clock last night wrecked the house and did small damage to other houses in the close vicinity. Antunoche and his wife were asleep in one room and their ten-year-old daughter in another and escaped without injury. All were violently shaken up. No motive for the dynamiting has been assigned. Officers of the county are investigating but have made no arrests.

This is the second dynamiting outrage of recent occurrence. The house of Superintendent Charles O'Neil at Starkville was wrecked by dynamite placed on the window sill on the night of July 29.

$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Ashamed of her bad complexion

If you, too, are embarrassed by a pimply, blotchy, unsightly complexion, try Resinol Soap and Resinol Ointment regularly for a week and see if they do not begin to make a blessed difference in your skin. They also help make red, rough hands and arms soft and white.

Resinol Soap

and Ointment are sold by all druggists. For trial free, write to Dept. 20E, Resinol, Baltimore.

HOW TO BE SLIM

If you are too fat and want to reduce your weight 15 or 20 pounds, don't starve and weaken your system, or think you must always be laughed at on account of your fat, but go to Butt's, Inc., or any good druggist, and get a box of Oil of Korein capsules, take one after each meal and one before retiring at night.

Weigh yourself once a week and note what a pleasant and reliable method this is for removing superfluous fat from any part of the body.

It costs little, is absolutely harmless and a week's trial should convince anyone that it is unnecessary to be burdened with even a single pound of unsightly fat.

IRISH MAY COME TO AMERICA TO COLLECT FUNDS

Home Secretary Says There Is No Desire to Hinder the Work of Those Who Want to Assist Sufferers.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

London, July 31 (12:43 p. m.).—In reply to a question in the house of commons today by Alfred Byrne, nationalist member for the harbor division of Dublin, as to whether any difficulty would be placed in the way of Irish members desiring to go to America, to collect funds for the relief of dependents of persons shot in North King street, Dublin, in the fighting during the rebellion, Herbert L. Samuel, the home secretary, said he was not aware that any application had been made for a passport for such a purpose.

The home secretary said there was no desire to place any difficulty in the way of the collection of a fund for persons who suffered through the Dublin rebellion and any application for a passport would be considered on its merits.

Engaged in Hostile Business.

Answering a further question by Mr. Byrne, as to why Thomas Hughes Kelly of New York, treasurer of the Irish relief fund, and his assistant, Joseph Smith, were not allowed to land from the steamer Philadelphia, the home secretary said:

"There is no objection to persons from America assisting in the administration of relief funds for Ireland and two individuals were admitted for this purpose. In the case of one of the men mentioned in the question, whose ostensible object was as stated, permission was refused on the ground that he was engaged in business hostile to this country. The other man was so closely associated with him that he also was refused permission to land."

MAKE 6,500 MILE AUTO TRIP ON DEMING AIR

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Deming, N. M., July 31.—D. O. Snodgrass and family have just returned from a 6,500-mile trip in nine states and are positive that the Mimbres valley has advantages over any section of the country they have visited. They hand it to California for good roads. They brought back Deming air in one or two of the tires and their entire trip was made without accident of any sort, although they passed through snow banks fourteen feet high and came near freezing to death in Wyoming in the middle of July.

Deming is quite elated today upon the receipt of a telegram from Louisville, Ky., announcing that Dr. M. J. Moran has been elected vice president of the National Dental association. Dr. Moran has served on the New Mexico dental board for many years and is thoroughly familiar with organization work.

The Deming board of education is being deluged with applications from young ladies all over the country because three of those who were with us last year were married within the past few days and another will soon tender her resignation for this purpose.

Captain H. C. Pilsbury arrived from Washington, D. C., this morning to join Captain Weed in the medical department of Camp Deming.

STEAMER KONINGIN STRIKES MINE; SINKS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

London, July 31 (4:05 p. m.).—The Dutch mail steamer Koningin Wilhelmina has struck a mine near the North Hinder lightship, says a dispatch from The Hague to Reuters Telegram company.

The passengers left the vessel in the life boats and made for the lightship.

The Dutch mail steamer Koningin Wilhelmina was a steel paddle boat and plied between Flushing and Sheerness. The vessel was of 4,861 tons gross, 320 feet long, 39 feet beam and 16 feet deep. She was built at Glasgow in 1895.

Cure for Cholera Morbus.

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Sidney Simmons, Fair Haven, N. Y. "Since then other members of my family have used this valuable medicine for colic and bowel troubles with good satisfaction and I gladly endorse it as a remedy of exceptional merit." Obtainable everywhere.

AUSTRIANS ARE NOT DISTURBED BY ROAR OF WAR

Life Goes on Much the Same as in Time of Peace and Little Attention Is Paid to Progress of Campaigns.

(Associated Press Correspondence.)

Berne, Switzerland, July 15.—Americans who have recently traveled through Austria-Hungary say they have been much impressed with the difference in the attitude of the people in the two countries towards the war. In Austria life goes on very much as usual, and the general public apparently pay little attention to the progress of the campaigns. In Hungary, on the other hand, everybody seems keenly interested, far more people are seen reading the newspapers, and the war bulletins are eagerly scanned and discussed.

Except in the country between Innsbruck and the Swiss frontier, north of the Italian war zone, railway traveling is not difficult in Austria. But there all the express trains have been taken off and passengers are closely scrutinized. Persons leaving Austria, neither as well as neutrals, are held up on the Swiss frontier for a period varying from a week to twenty days, and compelled to pay their own hotel expenses. The object of this measure presumably is that they are specially directed not to give any information regarding affairs in the monarchy, and are warned that if they are found to have done so they will be severely punished when they come back.

Ground Cultivated.

With the help of women and children the work on the land seems to be carried on pretty well, and every bit of ground is carefully cultivated. But the industrial situation is less favorable. Except in those factories engaged in making munitions trade seems bad.

Foreigners are amazed to see how few newspapers the Viennese read; and they buy still less, preferring to read them in the cafes. Papers are not allowed to be sold in the streets, but only by tobacconists and newsagents and it is said that fewer papers are sold in Vienna, proportionately to the population, than in any other capital in Europe.

The Viennese are as friendly as ever to foreigners. The police do not trouble them and it is not even necessary to produce a passport for a short visit. Many French citizens have remained in Vienna and can talk in their own language on the streets unmolested. The Viennese show no great hatred for any of their enemies except the Italians, against whom they are fearfully bitter.

Evidence at Hungary.

In Budapest the war seems much more in evidence. There are more military trains carrying troops against the Russians and large numbers of German soldiers are going down to the orient. Then there are great consignments of grain and petroleum and other products passing through Hungary from Rumania to Germany.

This last is a very significant indication of the new political and economic developments going on between the central powers and the Balkans. The war has brought these two countries much closer together, having shown Germany and Austria how absolutely essential it is to maintain open communication through the Balkans with Turkey and the near east. Important conferences have been held lately in Budapest, Vienna, Munich and other German cities, with regard to improving and developing the Danube navigation and constructing canal communications between that river and the principal towns in Germany.

But while participating in these meetings both Austria and Hungary are secretly greatly concerned at Germany's intense interest on the subject, dreading to see her commercial activities in the Balkans strengthened by such improved communications. In business competition the Austrians and Hungarians are no match for the Germans, who have in recent years greatly extended their trade with the Balkan countries which was formerly largely in the hands of the merchants of Vienna and Budapest.

FRANZ JOSEPH IS ILL AND CONFINED TO BED

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

London, July 31 (12:30 p. m.).—Emperor Franz Joseph of Austria caught a severe chill while inspecting his troops, says a Vienna dispatch forwarded to London by the correspondent at The Hague of the Exchange Telegraph company.

His majesty is described as being very ill and confined to his bed.

CHARLES HUGHES IS NOTIFIED OF HIS NOMINATION

(Continued From Page One.)

American lives by the sinking of the Lusitania.

Labor.

"We stand for the conservation of the just interests of labor. We do not desire production, or trade, or efficiency in either, for its own sake, but for the betterment of the lives of human beings. We shall not have any lasting industrial prosperity, unless we buttress our industrial endeavors by adequate means of protection of health; for the elimination of unnecessary perils to life and limb; for the safeguarding of our future through proper laws for protection of women and children in industry; for increasing opportunities for education and training. We should be solicitous to inquire chiefly into every grievance, remembering that there are few disputes which cannot easily be adjusted if there be an impartial examination of the facts. We make common cause in this country not for a few, but for all, and our watchword must be co-operation, not exploitation. No plans will be adequate save as they are instinctive with genuine democratic sympathy. * * * * *

"I stand for adequate federal workmen's compensation laws, dealing not only with the employes of government, but with those employes who are engaged in interstate commerce, and are subject to the hazard of injury, so that those activities which are within the sphere of the constitutional authority of congress may be dealt with under a suitable law.

Conservation.

"We propose to promote in every practical means our agricultural interests and we include in this program an effective system of rural credits. We favor the wise conservation of our national resources. We desire not only that they shall be safeguarded, but that they shall be adequately developed and used for the utmost public advantage.

National Trusteeship, the Philippines.

"We turn to other considerations of important policy. One of these is our attitude toward the Philippines. That, I may say, is not a question of self-interest. We have assumed international obligations which we should not permit ourselves to evade. A breach of trust is not an admissible American policy, although our opponents have seemed to consider it such. We should administer government in the Philippines with a full recognition of our international duty, without partisanship, with the aim of maintaining the highest standards of expert administration and in the interest of the Filipinos. This is a matter of national honor.

Woman Suffrage.

"I endorse the declaration in the platform in favor of woman suffrage. I do not consider it necessary to review the arguments usually advanced on the one side or the other, as my own conversions proceed from a somewhat different point of view. Some time ago a consideration of the economic conditions and tendencies of the position of women in gainful occupations of the nature and course of the demand, led me to the conclusion that the granting of suffrage to women is inevitable.

Civil Service Laws.

"Confronting every effort to improve conditions is the menace of incompetent administration. It is an extraordinary notion that democracy can be faithfully served by incompetency. Democracy needs exact knowledge, special skill and thorough training in its servants. I have already spoken of the disregard of proper standards in numerous instances, in appointments to the diplomatic service. Unfortunately there has been a similar disregard of executive responsibility in appointments to important administrative positions in our domestic service. Even with respect to technical bureaus the demands of scientific service have been compelled to yield to the demands of politics.

"We have erected against importunities of spoilsmen the barriers of the civil service laws, but under the present administration, enactments providing for the creation of large numbers of places have been deliberately removed from the merit system. The principles of our civil service laws have been shamelessly violated. We stand for fidelity to these principles and their constant application; and, further, it is our purpose that administrative chiefs shall be men of special competency for their important work. * * * * *

"We live in a fateful hour. In a true sense the content for the preservation of the nation is never ended. We must still be imbued with the spirit of heroic sacrifice which gave us our country and brought us safely through the days of the civil war. We renew our pledge to the ancient ideals of individual liberty, of opportunity denied to none because of race or creed, of unswerving loyalty. We have a vision of America prepared and secure, strong and just, equal to her tasks, an exemplar of the capacity and efficiency of a free people. I endorse the platform adopted by the convention and accept its nomination."

WANTED—Clean cotton rags at the Journal office.

HUGHES GETS AN INVITATION WITH A STRING TO IT

He May Address the Suffragettes on Aug. 12 Provided He Has in the Meantime Made Certain Declarations.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Colorado Springs, Colo., July 31.—Announcement that Charles E. Hughes has been invited to address the woman's party, at their national conference here August 12, "provided he has previously made a declaration in favor of the Susan B. Anthony national suffrage amendment," was contained in a statement issued by Miss Anne Martin of Nevada, national chairman. The statement added:

"We could not in self-respect extend nor could we accept an invitation to speak at this conference of the national woman's party unless he is in accord with its object, the submission by congress of the national suffrage amendment."

Continuing, the statement said:

Several Courses of Action.

"If President Wilson should allow congress to adjourn without securing action on this measure as he is now securing action on the child labor bill, we must of course, hold the president and the democratic party responsible for obstructing justice to American women, but holding the democrats responsible does not mean that our support will be thrown to Governor Hughes in the coming election. That will depend on the position he takes on national woman suffrage.

"If neither the democratic nor republican candidate does all in his power to help the cause of women, we have several courses of action open. We can throw our support to one of the three minority parties which are all pledged to national woman suffrage, or we can place a ticket of our own in the field in the suffrage states, drawn from the many strong women who are active members of the woman's party."

Hold Balance of Power.

After expressing the hope that Mr. Hughes' position will make it possible for him to speak at the conference the statement continues:

"It should be remembered, however, that the primary object of this conference is not to hold mass meetings but to bring together the state congressional districts, county and local committees of the women's party in the suffrage states, where 1,000,000 women votes may be swung for the best interests of national woman suffrage.

"These states have ninety-one electoral votes, thus controlling one-fifth of the electoral college and east sufficient of the votes necessary to elect a president.

"Women votes can control who the next president will be. The use they will make of their power depends on what President Wilson and Governor Hughes do in regard to national woman suffrage between now and the meeting of our conference on August 12."

200 LOSE LIVES IN CANADIAN BUSH FIRES

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Englehart, Ont., July 31.—Definite figures regarding the loss of life in Northern Ontario through the widespread of half a dozen towns in such fires were still lacking today. Figures on hand indicate that at least 200 persons are dead.

It is learned that there has been loss of life also at Porcupine Junction, where only the railroad station escaped the flames.

Outlying places are expected to swell the death list materially when rescue parties return.

Nushka, Mathewson and Ramore were entirely burned over and Cochrane nearly so.

At Timmins the fire was checked in the nick of time after seventeen houses had been burned. Part of Iroquois Falls was saved. Last reports say the worst is over.

Great Britain Makes Offer.

Washington, July 31.—Ambassador Sharp at Paris cabled the state department today that France acquiesced in the recent note of Great Britain offering to permit the shipment into portions of Poland occupied by Teutonic forces on condition that the occupying armies would not seize or remove native food products.

Explosion Kills Five.

St. Helens, Ore., July 31.—Five men employed in road construction work near here were killed today by an explosion of dynamite. It was reported that the accident resulted from the premature explosion of a blast. Two of the dead were Guy Lewis and his son.

DEMOCRATS WILL MAKE A BID FOR WOMEN'S VOTES

Elaborate Plans Are Being Made to Obtain the Support of the Suffragettes in the National Election.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, July 31.—Vance C. McCormick, democratic national committee chairman, conferred with President Wilson today on a final selection for the democratic campaign committee and on details of the special work to be done in various states. Mr. McCormick also talked with several senators, representatives and cabinet members.

The campaign committee will not be announced for several days.

Will Organize Women's Bureau.

Elaborate plans for appealing to the women voters of the west in behalf of the democratic ticket are being made, according to Mr. McCormick. Within a few days, he said, a women's bureau will be organized in the New York headquarters. President Wilson reiterated today his determination to remain in Washington until congress adjourned. From conversations with senate and house members, Mr. McCormick estimated it might be possible for congress to adjourn in time to hold notification ceremonies Saturday, August 26.

Mr. McCormick also announced that Daniel C. Roper, who resigned last week as first assistant postmaster general, will be chairman of the New York headquarters.

MONEY IS APPORTIONED TO SCHOOL DISTRICTS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Santa Fe, Aug. 1.—Fifteen thousand dollars was today apportioned to the Santa Fe county school districts by County Treasurer Celso Lopez, placing all districts in fine shape for the opening of school, thanks to the beneficent workings of the county unit law.

The city of Santa Fe received the lion's share, $7,039, this being in addition to the proceeds of the special levy for the addition to the Sena high school and the city school tax levy.

The other forty-two districts, numbered from one to forty-two, were allotted the following sums: $197.25, $197.55, No. 3, nothing; $69.67, $197.55, $251.07, $860.85, $322.81, $233.13, $233.13, $245.90, $179.24, $57.39, $165, $224.17, $107.55, $286.95, $573.90, $71.75, $143.50, $134.50, $182.94, $132.71, $236.73, $64.56, $233.13, $358.68, $225.98, $222.34, $82.50, $197.55, $143.48, $114.78, $297.70, $114.78, $147.05, $125.56, $125.56, $125.56, $57.39, $129.07, $150.35. As during last year, there will be moonlight schools, domestic science and manual art training in every district.

CALOMEL MAKES YOU SICK, UGH!

"Dodson's Liver Tone" Better Than Calomel and Can Not Salivate.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

Liver Trouble.

"I am bothered with liver trouble about twice a year," writes Joe Dingman, Webster City, Iowa. "I have pains in my side and back and an awful soreness in my stomach. I heard of Chamberlain's Tablets and tried them. By the time I had used half a bottle of them I was feeling fine and had no signs of pain." Obtainable everywhere.

Satisfy is an old word in the dictionary, but an entirely *new* thing in cigarette enjoyment. Look it up in Chesterfields.

Chesterfield CIGARETTES

They SATISFY! —and yet they're MILD
