The Republican.

ABOUT HOME.

To Correspondents.—One of the communications we publish to day was unaccompanied by the name of the writer. This, inmost cases, would be a sufficient cause for the rejection of an article. It is a right we claim to know the name of the author of all communications sent us for publication.

—We thank the authoress of the beautiful song on our first page, for the contribution, and hope our columns will frequently be enriched by productions from the same pen.

—"Plough Boy's" song of the "Ball and Chain," is too unfinished a production for the columns of a newspaper. We would not, however, discourage the young gentleman. The rejection of his maiden effort is really no disparagement. Let him continue to court the muses, patiently and assiduously, if he hopes to succeed.

—"One with eyes Open," came to hand too late for last week's paper, and as the state election is over its publication now, would do no good. We hope, however, to hear from the writer frequently hereafter.

The meeting of the Fremont Club Saturday evening was largely attended. All present seemed to be highly interested. A number of splendid speeches were made, and the Fremont Jessie Glee Club contributed greatly to the interest of the occasion.

☞The County bridge over Yellow River, at this place, is so far completed that it can be crossed by pedestrians.

☞No paper will be sent out of the county unless the subscription is paid in advance.

Wood.—Those who wish to pay their subscriptions to the Republican, in wood, will please deliver it soon, as we are in want of the article.

☞Almost every kind of country produce, needed in a family, will be taken in payment of suscriptions to this paper.

☞Subscribers to the "Banner" who do not want the *Republican* continued to them will please inform us immediately.

☞Don't forget the county fair to-morrow.

☞We were startled the other day, says the Madison Courier, by a very small boy, who yelled about our knees, "Hurra for Fremont and Dayton and Buchanan and Satan!" That boy ought to be sent to Sunday School.

Peru Republican.—We have received the first No. of a paper with the above title edited and published by E. P. Loveland, Esq., at Peru, Ind. The Republican supersedes the Weekly News. As its name indicates it is a Republican sheet. May it meet with the most unbounded success.

Reported Arrest of Stringfellow.—The rumor that Stringfellow was to be arrested by order of Gen. Geary, which was telegraphed throughout the country, turns out have been unfounded. It was a story gotten up to soothe the angry feelings of the North, by a show of fair play. Let us hear no more of the arrest of Stringfellow until assured that he is in jail.

Rich.—The Washington *Union* has at length heard the news from Maine, and is satisfied that Hamlin is elected. The Administration organ, however explains it on the ground that *the people did not know whom they were voting for and thought Hamlin was a Democrat!* The probabilities seem to be that they will make the same mistake again and vote for Fremont!

Platform of the National Republican Party.

PASSED AT PHILADELPHIA, JUNE 16, 1856.

This Convention of Delegates, assembled in pursuance of a call addressed to the people of the U. S. without regard to past political differences or divisions, who are opposed to the repeal of the Missouri compromise; to the policy of the present administration; to the extension of Slavery into free Territory, in favor of the admission of Kansas as a Free State; restoring the action of the Federal Government to the principles of Washington and Jefferson, and for the purpose of presenting candidates for the offices of President and Vice President, do,

"1. *Resolved*, That the maintenance of the principles promulgated in the Declaration of Independence and embodied in the Federal Constitution are essential to the preservation of our Republican institutions, and that the Federal Constitution, the rights of the States, and the union of the States, shall be preserved

"2. *Resolved*, That with our Republican fathers we hold it to be a self-evident truth that all men are endowed with inalienable rights to life, liberty, and the pursuit of happiness, and that the primary object and ulterior design of our Federal Government were to secure those rights to all persons within its exclusive jurisdiction; that as our Republican fathers, when they had abolished Slavery in all our National Territory ordained that no person should be deprived of life, liberty, or property, without due process of law, it becomes our duty to maintain this provision of the Constitution against all attempts to violate it for the purpose of establishing Slavery in the United States by positive legislation, prohibiting its existence or extension therein. That we deny the authority of Congress, of a Territorial Legislature, or any individual or association of Individuals, to give legal assistance to Slavery in any Territory of the United States, while the present Constitution shall be maintained.

"3. *Resolved*, That the Constitution confers upon Congress sovereign power over the Territories of the U. S. for their government, and that in the exercise of this power it is both the right and the duty of Congress to prohibit in the Territories those twin relics of barbarism—Polygamy and Slavery.

"4 *Resolved*, That while the Constitution of the United States was ordained and established by the people in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, and secure the blessings of liberty,' and contains ample provisions for the protection of life liberty, and property of every citizen, the dearest constitutional rights of the people of Kansas have been fraudulently and violently taken from them;

Their Territory has been invaded by an armed force;

Spurious and pretended Legislative, Judicial, and Executive officers have been set over them, by whose usurped authority, sustained by the military power of the Government, tyrannical and unconstitutional laws have been enacted and enforced;

The rights of the people to keep and bear arms have been infringed;

Test oaths of an extraordinary and entangling nature have been imposed as a condition of exercising the right of suffrage and holding office; The right of an accused person to a speedy and public trial by an impartial jury has been denied.

The right of the people to be secure in their persons, house, papers and effects against unpersonable searches & seizures has been violated;

They have been deprived of life, liberty and property without due process of law;

That the freedom of speech and the press has been abridged;

Murders, robberies, and arsons have been insigated and encouraged, and the offenders have been allowed to go unpunished;

That all these things have been done with the knowledge sanction, and procurement of the present Administration, and that for this high crime against the Constitution, the Union, and humanity, we arraign that Administration, the President his advisers, agents, supporters, apologists and accessories either before or after the facts—before the country and before the world; and that it is our fixed purpose to bring the actual perpetrators of these atrocious outrages, and their accomplices, to sure and condign punishment hereafter.

"5. *Resolved*, That Kansas should be immediately admitted as a State of the Union, with her present Free Constitution, as at once the most effectual way of securing to her citizens the enjoyment of the right and privileges to which they are entitled and of ending the civil strife now raging in her Territory.

6. "*Resolved*. That the highwayman's plea that "might makes right," embodied in the Ostend Circular, was in every respect unworthy of American diplomacy, and would bring shame and dishonor upon any Government of people that gave it their sanction.

7. "*Resolved*. That a Railroad to the Pacific Ocean by the most central and practical route is imperatively demanded by the interests of the whole country, and that the Federal Government ought to render immediate and efficient aid in its construction, and as an auxiliary thereto the immediate construction of an emigrant route on the line of the railroad.

8. "*Resolved*, That appropriations by Congress for the improvement of rivers and harbors, of a national character, required for the accommodation and security of our existing commerce, are authorized by the Constitution, and justified by the obligation of Government to protect the lives and property of its citizens.

9. "*Resolved* That we invite the affiliation and co-operation of the men of all parties, however differing from us in other respects in support of the principles herein declared, and believing that the spirit of our institutions as well as the Constitution of our country guarantees liberty of conscience and equality of rights among citizens, we oppose all legislation impairing their security."

SPECIAL NOTICES.

"GO FOR A LODGE IN SOME VAST WILDERNESS."—Sir, it is undoubtedly the exclamation which thousands, who are borne down by the arduous duties which must be performed even under the rays of a burning mid-summer sun, are sure to make; but these duties are performed frequently at the serious risk of health if not life itself, unless the proper precautions are taken to prevent the bad effects so easily generated by imprudent exposure. Carter's Spanish Mixture, the unrivalled Purifier of the Blood, possesses in a remarkable degree the cooling and purifying influence over the system so necessary in such cases. *Its* singular power over the Blood, its gentle tonic action on the Liver, its strengthening, vivifying and invigorating qualities, its known tendency to prevent disease by expelling all humors from the Blood, and ridding the system of poisonous infection, has gained for it a place among the highest discoveries of medical science. It is a positive cure for Scrofula, Fever and Ague, Liver Disease, the effects of Mercury, and all such diseases, as thousands who have used it have grateful cause to know. The trial of a bottle will satisfy any who may be unacquainted with its effects.

A SERIOUS TALK.—We wish to impress it on the people of this rapidly growing country, many of whom are bearing about their bodies the seeds of disease which may in time develope itself in the form of Scrofula, Rheumatism, Syphills, Mercurial affections, or other kindred diseases, which when they get fast hold of the system soon leaves the constitution but a shattered wreck, that among all the medicines yet known, Carter's Spanish Mixture is the only positive and unfailing Purifier of the Blood—containing neither mercury, Arsenic, Opium, or any other dangerous drug or noxious herb, so generally used in such cases. *It* still possesses a power over the blood, rendering it pure and healthy which before its discovery was of all others the thing to be desired. *It* cures Scrofula, Rheumatism, Syphills, Fever and Ague, and all that class of diseases, by expelling from the Blood all impurities which clog and disturb the correct action of the system. More than a thousand such cases have been permanently and radically cured by its use, and we take pleasure in extending its field of usefulness by advising our friends to try it.

Liver Complaint and Dyspepsia.

THOMAS LATCHFORD says:

Covington, Ohio, Dec. 27, 1853.

"My wife has been afflicted with the Liver Complaint and Dyspepsia for a number of years, during which time I have spent a great deal for doctoring, but she received very little benefit therefrom, and finally the doctors said she could not be cured. Last spring she concluded to try *Hoofland's German Bitters;* she took two bottles, and ever since taking them she has been able to attend to her business. I have sold quite a number of bottles through her recommendation, and as far as I can learn, it has given satisfaction to all."

See advertisement.

Hoofland's German Bitters.

Certificate of Ralph Lute, Esq., Editor "Spirit of Times," Ironton, Ohio.

Ironton, October 30, 1854.

Dr. C. M. Jackson—Dear Sir—The Bitters are in great demand here. In addition to the quantity sold by *Moxley & Barber*, your agents, the two other stores sell more of them than any other medicine. I find they are much used by convalescent fever patients to rebuild their broken constitutions. I have used during the last summer, in my own family, four bottles. They were recommended to me first by a neighbor, at a time when my system was much debilitated from the effects of a severe Bilious Fever. They gave me an appetite, and restored a tone and vigor to my whole system. In one of the September numbers of my paper I related my experience of the good effects of the Bitters, since which time they have had a large sale, and have now become the *standard medicine* in this vicinity.

In conclusion, I would say that I feel great pleasure in giving you this testimony of the value and success of your preparation.

Respectfully, yours, RALPH LUTE.

Dalley's Magical Pain Extractor.

The great and principal characteristics of Dalley's Magical Pain Extractor consist:

1st. Of its never-failing and unique property, as soon as applied to any external injury, to check inflamation instantly and rapidly to reduce it. This feature constitutes its great power to alleviate the pain of burns and scalds, and of other painful diseases in so incredibly short a space of time, and as will appear from the few testimonials hereunto annexed. Every intelligent mind is fully aware that, in all cases of external injury, the pain is produced by inflamation of the injured part and therefore if you remove the cause, the effect must cease.

2d. Its purificative properties neutralize the poison that may lurk in the system, and will, when applied to the sores, draw readily all impure matter to the surface, and eject it—hence the great discharge it produces from sores occasioned by burns—and when applied to old and inveterate sores, Salt Rheum, or other cutaneous diseases.

Each box of genuine Dalley's Pain Extractor has upon it a Steel-Plate Engraved Label with the signature of O. K. Chickering & Co., Proprietors, and Henry Dalley manufacturer. All others are counterfeit. Price 25 cents per box.

For sale by all Druggists and Dealers in Medicines throughout the United States and Canada.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combinations of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. The Pills invariably open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place whether from exposure, cold, or any other cause, the general health immediately begins to decline and the want of such a remedy has been the cause of so many consumptions among young females. To ladies whose health will not permit an increase of their family, these pills will prove a valuable acquisition as they will prevent pregnancy. Headache, pain in the side palpitation of the heart, loathing of food, and disturbed sleep, do most always arise from the irruption of nature; and whenever that is the case the pills will invariably remedy all these evils. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites."

These pills should never be taken during pregnancy, as they would be sure to cause a miscarriage.

These Pills are put up in square, flat boxes. Persons residing where there is no agency established, by inclosing one dollar in a letter, to O. K. Tripp, Tremont House, one door from Jefferson Avenue, Detroit, Michigan, can have them sent to their respective addresses by return mail

R. M. BROWN

Fever and Ague ANNIHILATOR,

PREPARED BY DR. J. HEDGES, Stanhope, New Jersey.

THIS preparation is a certain, safe and speedy remedy for Fever and Ague, Chills and Fever, Dumb Ague, or any form of intermittent and Remittent Fevers. It has been but two years since this Medicine was introduced to the notice of the public—during that period it has found its way to the homes of thousands of families afflicted with this distressed and debilitating disease, and in no instance has it failed to effect a perfect and permanent cure, where the directions have been strictly followed. The proprietor has also used it in his private practice for several years, and observing the flattering success which attended his treatment from the use of this remedy, he has been induced to give it a more extended circulation. It needs no encomium—no long array of testimony—to herald its efficacy; its merit lies in itself, and to the invalid it will prove of more value than an octavo volume of certificates.
