CONVENTION OF SOLDIERS AND SAILORS.

WHO SERVED IN THE WAR, AND WHO ARE OPPOSED TO THE PRESIDENTIAL POLICY AS ENFORCED THROUGH HIS PHILADELPHIA CONVENTION.

COMRADES: We invite you to assemble in mass convention on the 20th day of September inst., at the hour of 12 o'clock, in the City of Syracuse.

We desire to concentrate our efforts to continue in power that Union party which, under the leadership of the late lamented President, promulgated the Emancipation Proclamation; which supported the gallant and lamented Wadsworth for Governor while we were absent in the field; which demands from the South entire submission and loyalty to the Union, the amended Constitution and the laws enacted by Congress, which are apt and appropriate to render effectual the defense of the freedmen in the equal protection of their persons, property and rights; the party which, in the hour of peril, was the party of the war, and which we are not willing to see absorbed in the anti-war party under the pressure of Presidential policy and dictation.

FIFTH-AVE. OPERA HOUSE.

Messrs. C. J. Hogan and R. Hughes have been added to the minstrel company performing at this house, under the management of Mr. Budworth. A prominent feature in the entertainment nightly given is Mr. J. H. Budworth's "Imitation of Popular Actors." The programme, each evening, is varied, and is full of pleasing pieces. Mr. Budworth's Minstrels are now the best in the city, so far as we know; and his hall of entertainment is very conveniently situated.

THEATER TICKET-OFFICE.

The establishment of a general agency for the sale of theater tickets is a fact worthy of especial notice. It is proposed, by means of this agency, to abate the nuisance of speculators, who now buy up the seats and infest the theater-doors, annoying all comers with rudeness and noise. Purchasers can obtain tickets at this agency without the inconvenience and loss of time ordinarily occasioned by personal application at the various box-offices. Tickets will be sold for theaters in Brooklyn as well as New-York. The office is at Nos. 112 and 114 Broadway.

THEATRICAL NOTES.

A dramatic versin of "Lady Audley's Secret," called "The Mysteries of Audley Court," by John Brougham, has been produced at Astley's Theater in London.

The Theater in Holborn is to be opened with a new piece by Mr. Boucicault. Miss Herbert will begin her season at St. James's with another new drama from the same source. A third, as we have said, will be produced at the Lyceum Theater on its reopening; in this the author and his wife will appear.

Mr. Frederick Robinson recently appeared at Toronto as Claude Melnotte and as Hamlet. In reference to the latter personation a local paper says: "It was artistic, natural and life-like in every particular. His conception of it is entirely original. His elocution is faultless and his acting finished. There is no staginess in his movements; no hackneyed manner of rendering the finer passages. He has evidently made Hamlet a study. It was a noble representation, and all we might say in praise of it would convey no proper idea of what it really was."

Another new magician is to appear in this city. Prof. Liebholz, a Russian, who is said to be a marvel in the practice of his art.

THE PUBLIC HEALTH.

THE HEALTH OF THE CITY.

Cholera still lingers fatally in some of the overcrowded tenant-houses of the city. On the 10th instant there were 12 deaths from this cause, in different filthy localities, and yesterday 11 new cases were reported to the Sanitary Superintendent. These may all be attributed to a want of proper sanitary care of those families among which the poison manifests itself. Prostrated by breathing the exhalations of their own persons, sleeping in small, dark rooms, with closed windows, shut out utterly from sun-light and air, they fall an easy prey to the scourge which seldom fails to find several victims in the same domicil, and sometimes sweeps into the grave, one by one, all the members of a household within a few hours.

LETTER FROM THE REGISTRAR OF RECORDS.

In transmitting these statistics to the Board of Health, Dr. Elisha Harris, Registrar of Records, writes as follows:

In the week ending Sept. 8 the total number of deaths in New-York was 656, including 105 that occurred in public institutions. The total in Brooklyn was 225, exclusive of the 25 deaths that occurred in the institutions and villages outside the limits of that city. Chronic bowel disorders of infants and the phthisis of adults gave a large increase of mortality in those classes, and added all the increase we see in the total of New York. Phthisis caused nearly 11 per cent; diarrheal diseases, including cholera, caused nearly 33 per cent; cholera alone but 7½ per cent of the total mortality in this city, including all county institutions. There were but 33 fatal cases of cholera in our city dwellings, and but 7 in the cholera
