FRIDAY, Sept. 14—P. M.

Gold closes at 145, after selling at 144¾@145¾.

Government stocks were stronger, and old 5-20s quoted 111¾, new at 108¾, and 7.30s at 105¾@106. In State bonds a moderate business at former rates. Railway mortgages were steady, and offered in small amounts. The miscellaneous shares were barely steady. Quicksilver broke down at 51¾. Mariposa was strong at 30¾@30¾. Erie was active, opening at 72, and closing at 72¾. New-York Central was steady and in special demand. The Western list was neglected and not firm. After the call Governments were firmer, and 106@106¼ the price of 7.30s. At the Second Board the market was steady, and after the Board a fraction higher, and closed firm at quotations. New-York Central, 106¼@107; Erie, 72¼@72¾; Hudson River, 122; Reading, 115@115¼; Michigan Southern, 83¾@83¾; Illinois Central, 122; Cleveland and Pittsburgh, 86@86¼; Rock Island, 108¾@109; North-Western, 35@35¼; do. Call loans are 5 per cent, and lower rates are exceptional. In commercial bills no change. Prime short dated pass at 5 per cent, and good at 5¼@6. Ordinary names of longer date sell at 7 per cent.

Exchange is unsettled; Prime 60-day Sterling is quoted 107@107¼. The following are the current rates: London, prime bankers', 60 days, 106¾@107¼; London, prime bankers, sight, 107¾@108¼; London, prime commercial, 105¼@106; Paris, bankers', long, 5.28¾@5.25; Paris, bankers', short, 5.26¼@5.22½; Antwerp, 5.31¼@5.27½; Swiss, 5.31¼@5.27½; Hamburg, 35¼@35¾; Amsterdam, 40¼; Frankfort, 40@40¼; Bremen, 77¼@77½; Berlin, 70¼@71.

In Freights the engagements to Liverpool are 21,000 bush. Corn, at 4¾d.; 230 bales Cotton, at 3-16d.; 500 bbls. Rosin, at 1s. 6d.; 25 hhds. A vessel with 2,900 bbls. Petroleum, at 5s. 6d., if to Marseilles, or 6s. 6d. if to Venice or Trieste. A vessel to a Continental port with Petroleum, at 5s. 9d. A ship with 2,500 bbls. Petroleum, at 5s. 3d. if to Hamburg, 5s. 9d. if U. K. or Continent, or 6s. 3d. if to Cork direct.

The payment of the Clearing-House certificates will be another step toward a contraction of the currency and a return to specie. With these out of the way there is nothing but the compound notes, which will be readily met by the current income of the Department. The receipts are so large that after paying the call loans the balance at the Treasury will accumulate to a degree which will affect the amount of currency in circulation. The Department is still converting the 7.30s into 5-20s through favored channels. As it is more to the interest of the country to have the 7.30s all promptly turned into long gold stock, than to have commissions paid to favored houses, the Secretary should lose no time in getting authority to offer a sufficient commission *to any one* who will surrender the 7.30s for 5-20s. The short currence debt is now the main obstacle to the resumption of specie payments, which will be an easy matter as soon as the short debt is renewed.

The excitement in Erie did not end with the closing of the transfer books, but was greatly stimulated by a statement in *The Times*, that

"The Stock register as it closes to-day will afford no conclusive right to vote at the election, should the Stock itself part ownership in the mean time, and the new or *bona fide* owner, or his proxy or attorney, present the certificate to the Inspectors of Election by way of challenge. The new owner may not be able to vote, but he can kill the vote or proxy of the previous owner."

This reads so smoothly that many people bought the stock upon the theory that it will be valuable to vote upon. This idea will vanish upon reading the following extract from the "Revised Statutes," Part I., Title 4, Chapter XVIII., Sec. 6:

"And in all cases where the right of voting upon any share or shares of the stock of any incorporated company of this State shall be questioned, it shall be the duty of the inspectors of the elections to require the transfer books of said company as evidence of stock held in said company; and all such shares as may appear standing thereon in the name of any person or persons, shall be voted on by such person or persons, directly by themselves, or by proxy, subject to the provisions of the act of incorporation."

This section puts at rest the hope of killing stock by presenting the certificates as indicated by *The Times*.

A telegram received from the Mariposa estate reports to the Company that the last week's run of the new amalgamator yielded $12 per ton, which is $36 profit to the ton, instead of $3 as by the old process.

The following will show the recorded changes in specie at this port during the first eight months of the year 1866:

Imports,	$1,795,368;	from California, $27,729,010;
receipts	since Jan. 1,	$20,524,378;
exports,	$54,191,746;	loss since Jan. 1, 1866, $23,667,362.

It will be seen that while the loss since Jan. 1 by this account has been over twenty-three millions, the last two months show a positive gain of four and a half millions.

The Chicago Tribune of Wednesday says:

There was more animation in business circles generally today, and financial matters showed more activity. There was an increased demand for money at most of the discount houses, and, as the supply of currency is steadily improving, no inconvenience was felt in meeting the calls of borrowers. The market is comfortably easy for first-class names. They experience no difficulty in obtaining the requisite funds for all legitimate purposes at the usual rate—10 per cent. The street rates for less acceptable paper range from 12@18 per cent per annum, as to quality—the upper figure for rather hazardous signatures.

In the foreenoon the market for exchange was weak and lower. Round lots were freely offered at 1-10 discount by some houses who were largely indebted to the Clearing House, and sales were made at this figure; but in the afternoon a firmer feeling prevailed, with sales at 60c. off, and at the close 40c. discount was refused for a round lot. The counter rates were steady at 1-10@¼ discount, buying—mostly the inside figure, and par selling. Buffalo and Oswego bills were taken at ¼ off.

The following will show the Eastward movement of Flour and Grain from lake ports for the week ending Sept. 8, and destination:

FAMILY MARKETS,

OR LIVING EXPENSES IN NEW-YORK.

FRIDAY, Sept. 14—P. M.

The fruit season still continues, but there are changes in it. Plums were largely called for to pickle and preserve, and prices advanced about 20c. ⅌ half peck. They are plenty to-day, and the advance checked the demand, so that dealers are generally returning to old prices. We noticed, in a few cases, pretty good Damsons offered at 87c. ⅌ half peck, but the six quart baskets of *fine* plums are generally selling at $1 50 each. Bartlett pears are scarce, and a peach basket of fine fruit is worth $4@$4 50—barrels have been sold at $20@$25 each. Peach baskets of Seckels, Flemish Beauties, Osondaugas, Bergamots and Louise Bonnes are offering at $3 each, selected fruit—inferior at $1 75@$2 25. Peaches are still on sale, but lack the flavor of fruit ripened in warmer weather. They are selling at $2@$4 ⅌ basket for poor to fair quality; $3 50@$4 for large Morris Whites. Concord and Delaware grapes are freely met with, the former offered by peddlers and on the sidewalk at 15@20c. ⅌ ℔ for soft and broken fruit. Apples are firmer, a barrel of fine fruit costing $5@$6. Quinces are coming from Virginia, but are not plenty.

Vegetables are generally lower, with a few additions to the list. Potatoes are much cheaper by the bushel or barrel than the half peck, and they may now be bought in larger quantities, but it is too early to lay them in for Winter. Peach-Blows are selling from the farmers' wagons about Washington Market at $1@$1 25 ⅌ bushel; Chili Reds and Buckeyes much less. The common or poorer classes do not consider how much more they pay for nearly everything by buying in small quantities; only the rich can afford to do this, and they are the ones who don't do it.

Common butter is lower, but there is so little really good, prices of this are kept up.
