FRIDAY, Sept. 21—P. M.

Gold closes at 143¾ after selling at 144¼ and 143¾. The receipts from Europe are to replace in some degree money sent abroad during the English panic and strengthen correspondents.

Government Stocks are more active at full prices. The 7.30s are in demand at 106@106¼, and 5-20s at 108¼@111¾ for new and old issues. State bonds are firm, and North Carolina 6s ¾ higher; New Tennessee 6s are firm at 72¾. Railway Mortgages steady; the miscellaneous list was not so firm; Canton and Ashburton Coal were lower; Rutland Marble sold at 30¼, and Mariposa Preferred at 33¼; Spruce Hill 4¼. The Railway share market was lower under a fall of 2¾ per cent in Erie from the extreme quotation of 77¾; New-York Central fell ¾; Hudson River, ¼; Reading, ¼; Michigan Southern, ⅞; Illinois Central, ¼; Cleveland and Pittsburgh, ⅞; North-Western, ¼, and Fort Wayne, ⅞. After the call the market was steady, with large sales of Erie, which was readily placed at 75¾@75¾. The speculation has lost none of its interest, and its buyers talk of 85 with confidence. At the Second Board Erie sold at 75¾, but broke to 75¾. Again after the call, at which price it remained until the close of business, Mariposa Preferred was strong at 33¾, and Boston Water Power sold at 33¼; the balance of the market closed steady at quotations: New-York Central, 106¼@106¾; Erie, 75¾ 75¾; Hudson River, 120¼@121¼; Reading, 115@115¼; Michigan Central, 112¾@113; Michigan Southern, 85¾@85¾; Illinois Central, 121¼; Cleveland and Pittsburgh, 86¾@87; Rock Island, 111@111¼; North-Western, 35¼@35¾; North-Western Preferred, 67¼@67¾; Fort Wayne, 106@106¼; Canton, 54@54¼; Cumberland Coal, 48@48¼; Quicksilver, 52¼@52¾; Mariposa Mining Company, 15; do. Preferred, 33¼@33¾.

In money no change. Call loans are abundant at 5 per cent and a good deal is done at 3@6 per cent. Commercial paper sells at 5 for best, and 5¼@6 per cent for good.

Exchange is quoted as follows: London, prime bankers', 60 days, 107¼@107¾; London, prime bankers', sight, 108¼@108¾; London, prime commercial, 106¼@106¾; Paris, bankers', long, 5.25@5.23¾; Paris, bankers', short, 5.21¼; Antwerp, 5.23¾@5.26¼; Swiss, 5.28¼@5.25¼; Hamburg, bankers', 33¾; Amsterdam, bankers', 41; Frankfort, bankers', 41; Bremen, bankers', 77¼@78; Berlin, bankers', 71.

Freights are decidedly lower. The engagements to Liverpool are 50,000 bushels Corn, part by steamer, at 3 3-16d.; 2,000 boxes Cheese per steamer at 28.; a bark was chartered to a direct port in England at 5s., and a bark to Nassau and back on private terms.

It appears from the London papers that, at a meeting of the shareholders and bondholders of the London, Chatham and Dover Railroad, it was stated that there had been an over issue of the Company's bonds, to the extent of £128,000, equal to nearly one-third of the whole sum authorized. The Directors called on their contractor, Sir M. Peto, to explain. Sir M. Peto acknowledged that he had been instrumental in thus disposing of documents which were in their nature really fraudulent, but said that if he had not done so, he and the Company must have both stopped together—which both have done since.

The Hudson River road has put into its up track, south of Manhattanville, several thousand tuns of steel rails. The track has been relaid, and five ties put in where four were taken up. The new rail is laid with long chairs extending from tie to tie, and instead of the heads of the rails being pounded by ever passing wheels, a smooth service is presented, which reduces the motion of the cars and the wear and tear of the rolling stock to a degree which will tell seriously upon the cost of repairs.

Mr. C. H. Harney of Gillies, Harney & Co., was admitted to the New-York Stock Exchange to-day.

The Western Union road earned the second week in September:

1866	$19,154	1865	$18,139
Inc.	$1,015		

The Marietta and Cincinnati Railroad Company earned the second week in September:

1866	$26,384	1865	27,848
Dec.	$1,464		

The following is the return of the Bank of England for the week ending Sept. 5, 1866:

ISSUE DEPARTMENT.

Notes issued	£34,026,390	Government Debt	£11,015,100
		Other Securities	3,984,900
		Gold Coin and Bullion	15,026,390
	£34,026,390		£30,026,390

BANKING DEPARTMENT.

Proprietors' Capital	£14,553,000	Gov't securities	£11,227,023
Rest	3,967,417	Other Securities	23,225,767
Public Deposits	4,778,487	Notes	5,877,145
Other Deposits	17,462,300	Gold and Silver Coin	1,096,922
Seven Day and other Bills	645,577		
	£41,406,777		£41,406,777

The return gives the following results when compared with the previous return:

Rest	£3,967,417	Increase	£171,724
Public deposits	4,778,487	Increase	644,439
Other deposits	17,462,300	Decrease	1,016,750

On the other side of the account:

Government securities	£11,227,023	Increase	£515,300
Other securities	23,125,767	Decrease	741,257
Notes unemployed	5,877,145	Increase	44,540

The amount of notes in circulation is £24,221,245, being an increase of £292,735; and the stock of bullion in both departments is £16,126,212 showing an increase of £363,192, when compared with the preceding return.

The London Times says:

The advices from Paris state that the difficulty of employing money in the discount market increases, and that the total of bills in the Bank of France this week has experienced a reduction of more than £1,700,000. At the same time the stock of bullion continues to augment, although now upon a more moderate scale, the addition this week having been about £70,000.

The Times remarks upon the reduction of the rate of discount by the Bank of England:

The Bank of England to-day have reduced their rate of discount from 6 per cent, to which it was lowered on Thursday last, to 5 per cent, making a fall from 10 to 5 per cent within the space of three weeks, a succession fully foreseen by all who watched the indications prevalent during the worst periods of the recent alarm. This is the lowest rate recorded for nearly a year past, the last date at which 5 per cent was the charge having been the 4th of October, 1865. With the return to such a point the commercial public may be fairly congratulated on the entire restoration of healthy confidence, for it may be questioned if that can be regarded as very desirable, and one of the strongest reasons recognized for the wish that the 10 per cent rate should be terminated at an earlier period, consisted in the extent to which its permanence would be sure to carry the subsequent reactionary movement.

The transfer books of the Spruce Hill Coal Company have been placed with the Farmers' Loan and Trust Company, and, hereafter, all certificates issued will be countersigned by the President of that Company.

The following are the movements of dry goods at this port during the present week:

FAMILY MARKETS.

OR LIVING EXPENSES IN NEW-YORK.

FRIDAY, Sept. 21, 1866.

A careful inspection of the various markets to-day shows a full stock of vegetables, in good order, with a few additions to the list and some changes in prices. The Summer sorts which will not keep, such as Green Corn and Tomatoes, are advancing. Green Peas are in market again, but are not cheap, and only good for a few days after picking. Fruits are generally advancing. Peaches and Plums are fast passing out of market. The few Peaches left—not very good either—are selling at $2@$5 per basket. A fine barrel of Bartlett Pears cannot be bought for less than $25, and $30 is talked of for the best. They bring $2 per half peck. Peach-baskets of Seckels, Beurré Bosco, Flemish Beauties, and Duchesses are selling at $3@$4 each, while some fine Apples, such as Maiden's Blush, are held at $2 for the same quantity. Grapes are rather stiffening up, now that people have commenced to eat them in earnest. On some of the fancy stands 30c. is asked for Concords and 40c. for Delawares. Next week will see up the Plums. Fresh Fish are not abundant to-day, and butchers say they ought to get more for Beef as their cattle cost more, but *generosity* leads them to sell at the old rates. Butter has been advanced 4c. ℔ lb at wholesale upon the Orange County pails, and retail prices are firmer. It is very difficult to get a really fine article. Eggs are also higher.
