MONDAY, Sept. 24—P. M.

Gold opened at 143¼ and closed at 144¼.

The import of specie at this port for the week ending Sept. 21, was as follows:

| | |
|---|---|
| Per steamer Hermann, from Bremen | $6,000 |
| Per steamer New-York, from Aspinwall | 1,980 |
| Per steamer Java, from Liverpool | 1,510,212 |
| Per steamer North America, from Rio Janeiro | 600 |
| Various | 4,685 |
| Total for the week | $1,523,477 |

Government stocks were steady with a fair demand. State stocks were in moderate request at the full quotations of last week. Tennessee 6s, new, are 72¾@72¾, and North Carolina 6s, 65¼. Missouri 6s, 79. In railway mortgages little doing. The miscellaneous stocks are more active and higher. Cumberland sold at 49¼. Mariposa preferred was 35@35¼. New-York Central was higher. Erie was steady at 75¼@75¾. The rest of the list was firm at Saturday's rates. More disposition was shown to put out long sellers' options, but the market is not firm enough to allow much to be done in this way, though sellers are ready to make a concession of 2@3 per cent under cash for 60 days.

After the call the market was steady and remained firm until the Second Board. At the Second Board the market was firm on New-York Central and Reading. The North-Western shares and Rock Island are steady on the balance of the list. Cumberland was strong and sold at 52. After the call the market was very irregular. Toledo advanced to 121¼, and Cumberland Coal 52¾; the balance of the market was dull, and not strong. The closing quotations were: Ohio and Mississippi, 29¾@29¾; Canton Company, 53¾@54¼; Boston Water Power 34¾@35; Cumberland Preferred, 51¾@52; Quicksilver, 52@52¼; Mariposa, 15@15¼; Mariposa Preferred, 34¼@34¾; New York Central, 107¾@107¾; Erie, 75¼@75¾; Hudson River, 120¾@121¼; Reading, 116¼@116¾; Michigan Southern, 81¾@81¾; Cleveland and Pittsburgh, 87@87¼; Cleveland and Toledo, 121¼@122; Rock Island, 111¼@111¾; North-Western, 35¾@36; North-Western Preferred, 67¾@68; Fort Wayne, 106@106¼.

Money continues abundant on call, and large amounts can be had at 4@5 per cent. There is no large amount of commercial paper offering at the discount houses, and rates are steady. Best names pass at 5 per cent, and good at 5¼@6 per cent. The bank statement shows a further increase of loans, with a moderate gain in the specie line. The deposits, legal tenders and circulation are all lower than at the last return.

The following shows the condition of the New-York Banks:

Freights are dull. The engagements to Liverpool per steamer are 100 bales Cotton at 5-16d, 100 tuns Oil Cake 15s., 25 hhds. Tallow at 28s. To London 800 bbls. Petroleum at 5s. 3d., and per Steamer 23,000 bush. Barley at 5¾d.

The National Express and Transportation Company, of which Gen. Joseph E. Johnston is President, has made an assignment of its property and effects for the benefit of stockholders. Mr. O. W. Jeslyn, one of their directors and principal stockholders, sued out an injunction, prohibiting them from collecting further assessments, and asking that a receiver be appointed.

*The Chicago Tribune* states that 50 new locomotives and 1,900 additional freight cars are being placed upon the line of the Chicago and North-Western Railroad to be paid by earnings and the sale of bonds.

The earnings of the Chicago and Rock Island Railroad for the second week in September were:

1866.....$89,312 | 1865.....$69,921 | Increase.... $4,409

## IMPORTANT RESULTS FROM A NEW MINING PROCESS.

From The San Francisco Alta California.

For some years past, many of the mines in this as well as neighboring States, which for years had afforded a rich and regular yield, have failed to produce like results, and in consequence their stock fell in market. The direct cause of this failure was attributed, and still is by many, to deterioration in the rock. This was the cause of the failure of the workings of the Mariposa estate, which involved a large outlay, and damaged, to a greater extent than can be estimated in dollars and cents, the mining interests of the Pacific Coast. For several years past, experiments have been made in an entirely new mode of extracting the precious metals, and six or seven years' arduous labor have brought the same to a perfection that will, we think, lend great zeal to mining operations. It has been well known that the rock of the Josephine and Pine Tree Mines of the Mariposa estate did not yield, under the wet crushing process and the workings of ordinary quartz mills, over $6 per ton, although the assays thereof gave much larger results. A few months since it was determined to experiment in the new process, the inventor of which had persisted in maintaining its superiority. Accordingly the necessary works were erected and the same fully tested. The result of working 15 tuns of the ordinary rock of the Pine Tree Mine—quartz fall of the finest gold, of which tuns and tuns have been floated off into the Merced River, from the inability of the process in vogue to retain—was submitted to the new method. Under ordinary workings the yield was scarcely over an average of $6. The result of the present new system made a return of $32 per tun on the first week's run, which is an excess of over $20 per tun in favor of the new process. This result is of great importance, as it may lead to an entire revolution in quartz working, and as such deserves the calm consideration of every one interested in the future prosperity of our State. The "proof of the pudding is the eating," we all know. The results of the workings of the tailings of the Pine Tree, Josephine, Princeton and other mines of the Mariposa estate, fully demonstrated that the system of wet crushing, amalgamating in the batteries, &c., the usual method of quartz crushing, was a losing business; to make the mines pay, some other system or method of working the quartz was requisite. After much solicitation the new method was essayed, with the result as stated. As it has demonstrated itself to be of great value—perfect in its workings—so much so, that an essay of the tailings exhibits but a trace of metallic matter, we will endeavor to explain the process. The rock is dry crushed, and afterward submitted to the action of balls in a drum to insure full pulverization, it being desirable that the powder should approach as near wheat flour as possible. A charge of this powdered quartz is then placed in an air-tight cylinder, the interior of which is furnished with a worm of pipes to convey superheated steam therein. This fine pulverized ore is then submitted to the superheated steam for about 30 minutes. The superheated steam is then cut off, and a certain quantity of quicksilver put in, and common steam turned on, and the whole seethed or boiled for an allotted period. On the top of this cylinder a water-bath is placed, and as the mercurial vapors rise they become condensed. Thus the system of thoroughly impregnating the crushed rock with quicksilver is carried out with efficiency. After thus cooling, the cylinder door is opened, and the whole mass discharged upon a novel shaking table, which is worked by the power of the steam employed in the previous operation. This table is built of copper on a wooden frame, with rollers and miffles of peculiar construction, which, when it is in motion, give the water, amalgam and dust the same action of the ocean surf—an undertow. As the mass descends, the amalgam, from its metallic weight, gradually clears itself from the quartz dust, and the result is that it is all collected in the troughs of the riffles, containing every particle of metal, be it precious or base, the quartz holds. The mode of applying super-heated steam to the crushed rock developes as it freeing the metals, and all that is necessary is to retort the amalgam to obtain the result of the yield. We believe that this process is not as expensive as the ordinary method of working, and the public will look with considerable interest to the future experiments with the same. It is to be hoped that it will prove reliable, as by its means there are a host of at present unproductive quartz ledges which will afford remunerative results from such working. By this process all the immense piles of tailings which environ almost every mill in the State can be profitably worked. Millions of dollar now lie buried in these sandheaps.

## MARKETS.—*Carefully Reported for The Tribune.*

MONDAY Sep. 24, 1866.

ASHES—The market is better and fairly active; sales at $9 50 for Pots, and $12 50 for Pearls.

COTTON—The movement in Cotton continues active and is largely speculative, though manufacturers operate to some extent; prices are again decidedly higher and close quite firm; about everything available has been taken up, and the offerings are moderate; sales of 4,250 bales at 16c. for Middling Uplands, to 20c. for New-Orleans.

COFFEE—Prices are still very well supported, but the demand is not active, and we have only to report a cargo of 2,730 bags Rio, ex Chowan, on private terms.

FLOUR AND MEAL—The inquiry for Western and State Flour is more active, and all grades are 15@25c. better, with a general demand. Unsound Flour sold quite freely at fall and better prices; the sales are 20,875 bbls. at $7 35@$8 for Superfine State and Western; $7 85@$10 90 for Extra and Common Western; $8 10@$12 25 for Superfine State and Western; $8 10@$12 25 for Fancy do.; $8 50@$10 65 for Extra State; $11 50@$12 25 for Fancy do.; $9 50@$10 65 for the low grades of Spring Wheat Western Extra; $10 40@$11 70 for Shipping Ohio; $11 85@$15 25 for Trade and Family brands of Ohio, Michigan, and Indiana, and $10 70@$16 for St. Louis Extras. Southern Flour is more active, and the low grades are better; sales of 850 bbls. at $11 50@$13 25 for common to fair Baltimore and Country Extras, and $13 50@$16 for Trade and Family brands. Rye Flour is in demand and is better; sales of 325 bbls. at $5 50@$7 25. Corn Meal is more active; sales of 1,400 bbls. at $4 25 for Plain Western, $4 75 for March's Caloric, and $5 for Brandywine.

GRAIN—The inquiry is good for Wheat for milling, but the extreme prices current check business; the arrivals are still light and the assortment is poor; the advance is 2@3c. per bush. on Winter, and 5@10c. on common and medium qualities of Spring; the sales are 16,400 bush. Chicago spring at $1 34 for No. 2, and $2 40 for New No. 2 (called by many No. 1); 9,600 bush. New Amber State at $2 35@$2 38, and 1,600 bush. White Genesee at $3 10. Barley is in fair demand and firmer; sales of 9,200 bush. good State at $1 20. Barley Malt is firm but quiet at $1 20@$1 40. Oats more active and better; sales of 132,000 bush. at 45@48c. for Heated; 49@51c. for Chicago, in store and afloat; 50@53½c. for Wisconsin; 52@56c. for Iowa in bags, and 56@59c. for New State, the latter for our lands. Corn opened 1@2c. lower, and closed tame, with few sellers; the demand is largely speculative; sales at 81@83c. for Inferior; 85@86c. for Western Mixed, chiefly at 84@85c., 90c. in store, and 90c. for Western Yellow.

HIDES—The inquiry is good, but buyers cannot effect large purchases without paying an advance; sales 1,500 Orinoco, 21 lb, at 18½c., gold; 1,000 Buenos Ayres, 22 lb, at 21½c., gold. City Steers are worth 14@14½c.

HEMP—Manila remains dull and prices have a downward tendency; we note small sales at 10½@10¾c., gold. Other kinds are dull and nominal.

HOPS remain firm, and we still note a fair demand for home consumption at from 55@59c. 75c., as to growth and quality.

LIME—Rockland continues firm and in fair demand, at $1 70 for Common, and $2 10 for Lump.

LATHS—Eastern are firm and in fair demand; sales of 250,000 at $4, 3 months.

MOLASSES—Holders remain pretty steady, but there is no disposition to operate beyond the immediate wants of the trade, and we hear of only small jobbing lots.

NAVAL STORES—Spirits Turpentine is more active and firmer; sales of 600 bbls. at 60c., cash, wholesale. Rosins are firm; sales of 500 bbls. Common at $4; 320 bbls. low No. 2 at $4 50; and 150 bbls. No. 1 at $5. Tar is dull at $3@$3 50.

OILS are generally quiet, but prices are without change.

PROVISIONS—There has been a fair demand for Pork to-day at about previous prices, closing heavy; for forward delivery we note sales of 250 bbls., Mess, cash, on the 15th of October, at $33 12½; 500 bbls. do., buyer October, at $33 12½, and 500 bbls. do., buyer all the year, at $34 00; the sales, cash and regular, are 7,600 bbls., at $32 50@$33 10 for Mess, and $32 25 for City Prime Mess. Beef is in fair demand, without change to note in prices; sales of 150 bbls., at $15 50@$19 50 for Plain Mess, and $19 50@$21 50 for Extra do. There Beef and Beef Hams are both very dull, and prices are nominal. Cut Meats are quiet. Bacon is dull, and prices are nominal. Lard is very dull, and prices are heavy; sales of 250
