In Governments the sales are moderate at full prices. The Border State stocks are without change. In Railway mortgages, little doing. Bank shares are wanted at full prices. The miscellaneous stocks are generally higher. Wilkesbarre Coal sold at 63 and a new fancy one, the Butler Coal Company, introduced at 13¼. Union Navigation Company rose ¼, and Mariposa Preferred ¼. Erie sold at 95, cash, and as low as 92. Persons holding this stock for dividends, which has not set them less than the present price, will do well to avail themselves of the existing speculative period to sell it and keep their money idle awhile. Michigan Southern rose ¾ per cent upon yesterday morning's prices. North-Western stocks are higher and much excited. Fort Wayne rose 3 per cent. Chicago and Great Eastern rose 1 per cent, and was in demand. After the call the leading shares were all lower, Erie selling at 89¼, cash, with lower prices for the greater part of the list. The decline brought in fresh buyers, and the market closed strong at the following quotations: Ohio and Mississippi, 34¼@34½; Boston Water Power, 33¼; Cumberland Preferred, 53@55; Mariposa, 13¼@13½; Mariposa Preferred, 29¼@30¼; Western Union Telegraph, 55¼@56; New-York Central, 117¼@118; Erie, 89¼@90¾; Hudson River, 121¾@123; Reading, 117¼@117¾; Michigan Central, 114¼@114¾; Michigan Southern, 89¾@90; Illinois Central, 126@127; Cleveland and Pittsburgh, 89¾@90; Cleveland and Toledo, 122@122¼; Rock Island, 107¼@107¾; North-Western, 44¼@45; North-Western Preferred, 74¼@74¾; Fort Wayne, 108¼@108¾.

Money continues abundant on call at 3@5 per cent, and more is offered than brokers can use. Commercial bills have sold as cheaply as ever, and 5@6 per cent covers prime to good names.

Exchange is irregular and can be had at second-hand at less than the rates of bankers at their counters. London, prime bankers', 60 days, 108¼@108½; London, prime bankers', sight, 109¼@109¾; Paris, bankers', long, 5.21¼; Antwerp, 5.23¾; Swiss, 5.23¾; Hamburg, bankers, 35¾; Amsterdam, bankers, 41; Frankfort, bankers, 41; Berlin, bankers, 71.

Freights are quiet; the engagements to Liverpool are 12 bales Cotton, per steamer, at 3-16d., and 14,000 bush. Corn to Glasgow, per steamer, at 4d. To London, 500 bbls. Petroleum at 5s. 6d. A vessel was chartered with 3,200 bbls. Petroleum from Antwerp at 5s. 9d.

The Chamber of Commerce to-day adopted a resolution to memorialize Congress to repeal the export duty on cotton.

A convention of freight agents of some of the principal railroads in the United States, held at Cleveland, Ohio, has passed resolutions declaring that live stock shall be transported by actual weight after October 1, and that no return passes shall hereafter be issued to drovers and others in charge of stock.

The business of the Sub-Treasury was: Receipts, $1,382,834 79—for Customs, $328,000; Payments, $983,840 12; Balance, $89,903,876 30; Gold Notes, $471,000.

The Cincinnati Commercial, of Tuesday, says:

An active discount market continues to be reported, though it has better tone as to the business represented, and is kept in easy working order by increased receipts of currency from mercantile sources; 8@10c. may be regarded as the current value of money on first class Eastern paper. Even call loans have been made at the inside figure. The offerings of outsiders are quoted at 10@12 per cent on the best of names. Exchange has been more plenty since the advance noted week before last, but the consumption of it in mercantile circles has increased in nearly equal pace, so that rates are maintained. The receipts from the movement of produce are light, wholly inadequate to the demand, and merchants would be quite unable to supply themselves if that source only were available for keeping up Eastern balances.

The Chicago Tribune of Tuesday says:

There was an active demand for money to-day from all quarters, and the market was closer if anything than it was on Saturday. The fine weather is giving the farmers an opportunity to market their grain, and in order to aid the movement of the crops to this city, the country banks are checking very freely on their balances here. The demands of the produce trade were also very liberal, and there was more inquiry for loans on mercantile account. Owing to this drain of currency, the banks were obliged to discriminate very closely on all paper offering for discount. None but good customers whose claims could not be denied, found accommodation. To such the market was easy at the current rate—10 per cent. In the open market good signatures were taken at 1⅜@1½ per cent per month, and less desirable names at ¼ per cent. Call loans on Government range at 6@7 per cent. Mortgage loans are easy at 7@8 per cent. In the forenoon the market for exchange was exceedingly flat, and round lots of bankers' were sold at 150 cents to ¼ discount. Later in the day there was a firmer feeling, and the market closed at 150 cents off.

Attention is called to proposals for $300,000 Central Park Improvement Fund Stock of 1895, bids for which will be opened at the Controller's office on Saturday, Oct. 6, 1866, at 2 o'clock p. m. This stock, which is authorized by an act of the Legislature, and by an ordinance of the Common Council, will bear interest at 6 per cent per annum, payable quarterly, and the principal will be redeemed Jan. 1, 1895.

Mr. Edward Clarke of the New-York Stock Exchange (late of E.C.Brodhead & Co.), has established his office at No. 26 Broad-st. See advertisement.

Nelli Bros. & Co., in circular per Java, say:

In a general way, it may be inferred from all the information we have collected throughout the Spring and Summer 1st. That, under the influence of high prices, such great efforts were made to cultivate cotton that a much greater breadth of land than the most sanguine had calculated upon was planted—a breadth which, with a favorable season throughout, would probably have yielded as much as 3,000,000 bales. The planting, however, was speedily followed by most unfavorable weather, the Spring being so cold and wet that a poor start was made, and the crop attained little progress till June. The deduction to be made from the maximum probabilities, from this cause, was fairly estimated at not less than 500,000 bales, and although prospects greatly improved in June and July, there no longer appeared to be a possibility of an estimate yield of more than 2,500,000 bales, subject to the contingency of future weather. From those figures it would appear that a further reduction of half a million of bales may fairly be made for the disastrous rains and worms of the past month, thus reducing probabilities to 2,000,000 bales as a maximum, these figures being, of course, subject to the contingency of the date of frost. The present condition of the crop, undoubtedly, renders fine warm weather for this month and a late frost more than ever necessary; but with such weather we as yet see no reason to despair of such a yield being realized. Although, therefore, some rise in prices was undoubtedly justified by the necessary reduction of estimates, we cannot but consider the advance too rapid. Exporters and local spinners are alike out of the market, which is mainly supported by speculators, who have hardly taken time to calculate that they have carried prices in this market 1½d. per ℔ over the parity of latest Liverpool quotations, as the shipper to that market would require about 17d. per ℔ for Middling Upland to bring him out without loss, and should he hold for sixty days on this side and find—as is expected by many—a fall of 10 per cent in gold and exchange, he would then require a price of 17½d. at Liverpool to cover cost. It would seem, therefore, that the present speculation must break down, unless supported by a stronger movement at Liverpool than appears probable while stocks in Europe are so heavy.

The Chicago and Great Eastern Railway, the shortest route to New-York, except by the Pittsburgh, Fort Wayne and Chicago, has just added 250 new cars and some 16 locomotives to its rolling stock. The traffic of the road is steadily increasing.

OILS are generally quiet, but but we have no change of importance to note in prices; small sales of City Linseed at $1 65@$1 70.

PROVISIONS—We have had a very excited and irregular market for Pork to-day; prices have declined, closing, however, with more firmness; for forward delivery, sales of 3,500 bbls. Mess, seller October, at $33@$33 10, and 500 bbls., payable the last day of this month, at $33 25; the sales, cash and regular, are 6,700 bbls. at $33 10@$33 45 for Mess, closing at $33 25 cash, and $33 35 regular, and at $29 75@$30 for old Prime Mess. Beef is more active and steady; sales of 275 bbls. at $15@$20 for Plain Mess and $19 50@$23 50 for Extra do. THE DRY GOODS TRADE.

NEW-YORK, Oct. 4, 1866.

The trade of the last two days has been checked by the advance in cotton goods. Buyers do not offer to share the confidence of manufacturers in the continued high price of raw cotton; and the weakness in the cotton market developed yesterday and to-day, strengthens their view. To-day, business has fallen off perceptibly—a change, however, which may be as much due to the scarcity of leading makes of cotton goods as to any indisposition to buy. In the present uncertainty as to the future price of cotton, jobbers are likely to buy quite sparingly, and goods will probably be allowed to accumulate in the hands of manufacturers.

This morning Brown Shirtings advanced ½c. on standard makes, the current price for full weights with the agents being 23½@24c. The following are the current quotations for leading makes of brown goods among the jobbers: Amoskeag A, 23½c.; Appleton A, 23½c.; Atlantic A, 24c.; Atlantic H, 23½c.; Atlantic W, 19c.; Dwight A, 23c.; Great Falls M, 21c.; Indian Head A, 23½c.; Indian Orchard BB, 19c.; Indian Orchard A, 23c.; Indian Orchard C, 21½c.; Lawrence C, 23c.; Pittsfield, 16c.; Pacific A, 23½c.; Pacific H, 23½c.; Pacific L, fine, 23c.; Pepperell K fine, 24c.; Pepperell R, 22½c.

Bleached Shirtings are in fair demand, with no quotable change in prices, the finer grades are still sold close up to production. The jobbers quote leading brands of bleached goods as follows: New-York Mills, 45c.; Wamsutta, 40c.; Bartlett's, 30c.; James Mills, 30c.; Pepperells 6-4, 50c.; Pepperells 8-4, 65c.; Pepperells 9-4, 80c.; Pepperells 10-4, 95c.; Attawaugan XX, 25c.; Hope, 29c.; Lonsdale, 36c.; Waltham 8-4, 62½c.; Waltham 9-4, 77½c.; Waltham 10-4, 85c.; Bates XX, 35c.; Delphi, 30c.; Utica 5-4, 42½c.; Utica 6-4, 52½c.; Utica 9-4, 85c.; Utica 10-4, $1 05.

Brown Drills are reported moderately active for export, especially in the heavier makes. The jobbers quote as follows: Amoskeag, 23c.; Pepperell, 24½c.; Stark, 23c.; Boott, 25c.

Stripes are moderately active, with no quotable change in value, the following being the prices current among jobbers for leading makes: Amoskeag, 37c.; Whittenton, A A, 35c.; Whittenton A, 30c.; Whittenton, B B, 25c.; Haymaker, 28½c.; Massebesic, 30½c.; American, 25c.

Ticks are quiet, but steady in price. We quote as jobbers' net prices: Amoskeag, A A, 42½c.; Amoskeag, A, 40c.; Amoskeag B, 40c.; Amoskeag, D, 30c.; Pemberton, X, 35c.; Hamilton, 37½c.; Pearl River, 37½c.; Harvest, 37½c.; Holyoke, C C, 30c.; Pittsfield, 14c.; Easton, A, 23c.; Albany, 14c.; York, 30c.; Hampden, C C, 30c.

Corset Jeans are fairly active. Canton Flannels, though rather firmer in sympathy with the improvement in other goods, are yet in over supply, and may be bought on easy terms. We give the following as the current quotations among the jobbers for leading brands: Ellerton N, 45c.; Ellerton O, 42½c.; Ellerton N, brown, 42½c.; Ellerton O, brown, 40c.; Suffolk, 36c.; Amoskeag, 36c.

Printing Cloths are held more firmly, 15c. being asked for 64x64; but, at this price, there are no buyers except for small lots.

Prints are firm at a slight advance. Transactions are very much restricted from lack of an adequate supply of goods. Most of the leading styles are sold close up to production or in advance. The following are the quotations for leading styles among the jobbers: American, 19c.; Amoskeag, 19½c.; Merrimac D, 20c.; Merrimac W, 22c.; Sprague's (frocks), 20½c.; Sprague's purples, 20½c.; Sprague's fancies, 19c.; Garner's, 20½c.; Richmond, 19c.; Amoskeag Mourning, 17c.; Arnold's, 17½c.; Pacific, 20c.

Mous. Delaines are still active and in light supply at late quotations.

The trade in Woolens still drags somewhat. The market is very fully supplied with almost every description of Woolen goods, and on goods not specially desirable there is a disposition to concede somewhat to the views of buyers. A reduction in the price of Satinets has caused them to move off more freely. Some liberal concessions have been made on *passe* styles of fancy Cassimeres, but good styles still sell freely at fair prices.

The trade in Foreign goods continues active. The finer classes of dress goods, of all kinds, are much in demand, and the supply being materially reduced, prices are decidedly firm. Good styles of fancy cassimeres and the finer grades of Belgium coatings and of German doeskins are freely inquired for and bring fair prices. The shawl trade shows more activity, but there is a disposition to defer transactions in this branch to the larger auction sales. Ribbons and millinery goods, though in ample supply, are yet found to be very good property. The lower grades of British and continental worsted dress goods are in even supply, and sell mostly at a loss.
