FLOUR AND MEAL—We have had only a moderate degree of activity in our Flour market since our last review. The demand has been chiefly confined to the Eastern and coastwise trade, and, notwithstanding the moderate arrivals, prices of most grades have declined, and the market is quite heavy. The trade are now very well stocked, and with large supplies early in prospect, buyers hold off, and we notice some disposition to sell for future delivery at much lower prices than those now current, viz.: $10 50@$11 for Sound Extra State, for the last half of this month. Our present stock is estimated at 65,000 to 70,000 bbls. To-day, the demand is more active, but prices declined 15@30c. per bbl. on all grades under $15. Family brands are firmly held, but sell slowly; the sales are 15,000 bbls. at $8 10@$10 25 for Superfine State and Western; $8 75@$11 75 for ordinary and common Extra State; $11 20@$12 25 for Fancy State; $9 10@$11 10 for the low grades of Spring Wheat Western Extra; $10 85@$12 10 for Shipping Ohio; $12 20@$13 70 for Trade brands, and $13 90@$17 75 for St. Louis Single, Double and Triple Extras; included in the above sales are 3,000 bbls. Sound Extra State, seller November, at $10 50. Canadian Flour is a shade lower; choice White Wheat Extras are wanted; sales of 200 bbls. at $13@$15 20. Buckwheat Flour is lower and plenty at $4 75@$5 20 ₱ 100 lb. Southern Flour is more active, but lower; sales of 500 bbls. at $12@$13 40 for common to fair Baltimore and Country Extras, and $13 50@$16 50 for Trade and Family brands. Rye Flour is fairly active, but lower; sales of 2,300 bbls. at $6 75@$8. Corn Meal is in fair demand and steady; sales 950 bbls. at $5 for City and Jersey, $5 15 for Marsh's Caloric, and $5 20 for Brandywine.

FLAX—The supply of Domestic is large, Common is in excess of the demand, Choice is scarce and salable; the consumption of good bright well rotted is daily increasing, and with great care in its production we may look for a large increase in this most important branch of trade; we quote at 6@22c. ₱ lb. as per quality.

FRUIT—New Crop Raisins are without change in value; holders are very firm, and demand full prices. In other descriptions of fruits we note a fair jobbing demand at full prices; sales of 50 cases Leghorn Citron, to arrive, at 23@23½c. gold. We quote:

GRAIN—Since this day week our Wheat market has ruled quiet, the arrivals have been light, but those in prospect are much larger, and we find our millers who are the chief buyers of sound Wheat, are disposed to hold off, and with the exception of No. 1 Spring (which is very scarce), the market is lower and the tendency is strongly downward. The receipts at the Lake ports since our last have increased materially, but the season is too late to enable us to get forward anything like a liberal stock for the Winter, and hence the business for export cannot fail to be limited. Our present supply is almost entirely made up of Inferior Spring; this is selling at $1 68@$1 75 per bush, and is taken to some extent for export to London. Winter Wheat has been offered sparingly, but with a decided falling off in the demand. Prices are 8@10c. lower, and the tendency is strongly downward. To-day the inquiry is very light, and the market is lower and unsettled. Millers are holding off for a further concession, owing to the marked decline in the low and medium grades of Flour, and at the close prices are unsettled; sales of 7,000 bush. New Amber Michigan at $2 65; 450 bush. Amber State at $3, and 800 bush. good White Michigan at $3 25. Barley is more plenty and is firm; sales of 31,000 bush. at $1 25@$1 30 for two-rowed State and Canada West on private terms. Barley Malt is quiet at $1 30@$1 50 per bush. Rye is firmly held, and is quiet; sales of 6,000 bush. New Wisconsin at $1 18. Oats opened easier at the decline. A better demand prevailed, and more firmness was apparent at the close; sales of 67,000 bush. at 50@53c. for Heated Chicago, 54@55c. for Good do., and 60c. for New State. Indian Corn has been quite active, but at very variable prices. The less favorable news from Europe, the larger arrivals and home demand in freights, and decline in exchange have given buyers the advantage, and prices have declined 2c. ₱ bushel, but the current rates are still too high to admit of shippers filling their orders, and very little has been taken for export since our last. The unfavorable accounts from the West in regard to the crop have induced a brisk speculative and good Eastern demand, and we have to note a further addition to our stock, which is now about 3,000,000 bush., and is likely to increase daily to the close of November. Our advices from the West the past week are far less favorable for the crop than previously advised. The injury is really very serious in a part of Ohio, Indiana, Illinois and Wisconsin. To-day the market opened dull and heavy, and closed tame for that afloat, but firm for that in store. The inquiry is mainly speculative; sales of 137,000 bush. at 92c. for Inferior, 93@93½c. for Good Mixed afloat, chiefly at 93c., and 94@95c. in store.

N. Y. WHOLESALE PRICES OF COUNTRY PRODUCE.
FOR THE WEEK ENDING OCT. 9, 1866.

[EXPRESSLY for THE N. Y. TRIBUNE by our own Reporter.]

The following are the current rates of articles in good condition, as sold by commission houses at wholesale. Shippers receive 5 to 10 ₱ cent less, deducted for commissions, beside freight and other charges. Parties receiving produce to sell, often with the request that immediate returns be made, cannot always obtain the prices which transient buyers have to pay. Our figures are intended more for the farmer than the merchant, and we prefer not to disappoint by giving the outside prices of very choice articles.

BEANS AND PEAS.

Old Beans are scarce, and but few New ones have been received; so the market is comparatively bare. Some New Mediums are held at $2 90, with sales at $2 40. A small lot of Southern Peas brought $5 ₱ sack of two bush. We quote:

BUTTER.

The anticipated decline has now fairly set in. The fall of 5c. ₱ lb on Orange County pails was the signal for lowering on other fine butter, which we quote at a decline of 2@3c., and a very inactive market. Receipts of 10,460 packages for the week show quite an increase, and considerable of this is good butter. There is now no call for anything but good to fine State, and the best Ohio, with a little fine selected from other States. The stock of common Western does not diminish, but rather increases, and no one wants it or can be induced to take it at anything over grease prices. What is to become of it is a serious thought with not a few owners and consignees. Small lots are occasionally sold at 20@22c., but it is impossible to work off any amount at those figures. The market for such is really nominal. There is very little demand for butter to go East, that country nearly producing its own this year, while the California trade takes so little it is of no account. No butter is going abroad. Shippers offer 26c. for such as is held at 32@33c. One dairy of just the finest Cortland County butter brought 44c., but very good State firkins are slow to-day at 42c. We quote:

State, firkins, prime, ₱ lb	42@43
State, half firkins, Choice, ₱ lb	43@45
State medium, ₱ lb	33@35
Orange Co. and Up-River pails, ₱ lb	50@55

CHEESE.

Only one thing keeps Cheese from faring worse than Butter, and that is the late advance in gold. The receipts have been very heavy, amounting to 33,733 boxes during the week, or nearly double the amount of the previous week, but it has not all been sold. Moderate stocks are to be found in the hands of most of the dealers, and just now shippers are not willing to pay quite as much as this day week. There are lots of fine Cheese held at 17½c., but no one is offering above 17¼c. to-day for just the finest fancy stock. Buyers are getting very good Factory at 17c., though a Factory or lot of 500 boxes strictly fine was sold at 17¼c. this morning. Really fine English Dairy is bringing our outside quotations, while ordinary goes off slowly. We quote:

English Dairy, skimmed, poor	₱ lb.. 7@14
English Dairy, common to fair	15@18
English Dairy, fine	19@20
Factory, fair to good State	15@16½

EGGS.

Receipts, 1,903 bbls. for the week, which is a gain of 300 bbls. over the previous report. This has caused a decline of fully 2c. per doz., and the market is not very active. Most of the West and Canada are selling at 22@23c., but some lots, not No. 1, were sold at 30c. at the mark. There is a full stock on hand, and the tendency is still downward. We quote:

New-Jersey and Pennsylvania, fresh, ₱ doz	34@—
State, good marks	33@34
Western and Canada, ₱ doz., good order	31@32
Egg Oats, ₱ bush., good	45@50

FRUITS AND BERRIES.

Grapes are now monopolizing the attention of fruit-dealers, but they are a difficult thing to report, sales varying from 6½c. for a lot of soft Isabellas, sold for wine, to the fancy French paper boxes, from Seneca Lake (the box itself costing 20 cents, though holding only 1½ lb), selling at 30@40c. ₱ lb. Generally, however, good Isabellas are bringing 18@20c., and Catawbas 20@25c. The Pleasant Valley grapes are expected to begin this week, and in their neat 5 lb boxes, put up by those who have made packing a study, beside growing the finest grapes, they will bring good prices. The late cold weather has injured the grapes in some localities at the North. Cranberries are working down in price, with increased receipts. Some extra berries are bringing $14. We quote:

FRUITS AND NUTS DRIED.

Dried Apples are improving. A small lot of Western was sold at 12c. Peaches are also doing better, unpeeled being firm at 18c., while some lots of prime peeled are held at 22c. Chestnuts and hickory nuts are declining almost every day. The former generally sold at $12 and the latter at $4 per bushel today. We quote:

VEGETABLES.

The potato trade is slow, and common sorts are weaker. Onions don't sell. Rutabagas are much lower. Sweet potatoes are arriving freely, some of them in bad order, from the South. Only fine Delawares, put up in covered barrels, bring $4, and that in a small way. We quote:

SUNDRIES.

Beeswax has improved with the late advance in gold. Honey is also doing a little better. It is now reported that the crop is light. There is only a small stock on the market as yet.
