ent rapid fluctuations, the moderate arrivals here and at the Lake ports, together with the favorable news from Europe early in the week, gave quite an impulse to the market, and the purchases have been very large, exceeding those of any week ever known in this market. Our present stock is about 2,500,000 bush. and the exports 997,333 bush. against 261,921 bush. the same time last year. At yesterday's market greater firmness was noticeable early in the day, but with liberal offerings and less favorable news from Europe, there was quite a decline of 7c. quite a panic in the market, and to effect sales a decline of 7c. per bush. was submitted to, but with only a limited demand at the concession. The first sample of New White Southern was offered for sale, the quality and condition good, fully equal to best year. To-day the market proved lower and very unsettled; the arrivals moderate, but the offerings were large; at the decline a better demand prevailed ere the close of Change, and prices improved and closed firm at our extreme figures; sales of 122,000 bush. at $1 22@$1 25 for Western mixed in store; $1 23@$1 26 for do. afloat, and $1 22@$1 26 for Western Yellow in store; White is firm at $1 30.

HIDES—We have had a very active market for Dry Hides throughout the week, the demand being from the trade and other buyers for consumption, and business has been much restricted by the reduced supply and the extreme firmness of holders; prices have advanced and close. In view of the meager supply, and sale to arrive of a large proportion of the Hides known to be on the way, most importers feel justified in demanding higher rates. Upper Leather stock continues in active request, and, with a nearly exhausted supply, sales are confined to small parcels from second hands at firm prices. Wet Salted Hides are in good demand, and all descriptions are firm. The supply is insufficient to meet the wants of buyers; the sales of the past two days amount to about 16,000, including 10,000 Montevideo and 40,000 Rio Grande on private terms; 9,000 Orinoco, 22c B., at 1c., gold; 2,000 Montevideo, to arrive in January, 22c B., at 1c., gold; 2,000 Montevideo, to arrive in January, 22c B., at 20c., gold, and 600 Central American, 18c B., at 16½c., gold.
