FRIDAY, Nov. 9—P. M.

Gold is steady, closing at 146¼ bid and 146½ asked.

Government Stocks were steady at full prices. Missouri 6s fell to 90, a decline of 3¼ per cent. Ohio and Mississippi Certificates were stronger by 1 per cent, and moreactive. In Railway Bonds and Bank Shares a moderate business at full rates. American Coal fell 1¼ per cent. Adams Express, 1. Wilkesbarre rose 1¼; Quicksilver 1¼; Atlantic Mail, 1. Pacific Mail is strong, and is passing into the hands of investors. New York Central was very irregular, selling at 117¼@119¼ at the Stock Exchange. Prizes to vote at the annual election were sold at ¾@1 per cent. Erie was active and sold up to 86¼ in the morning Board, and was in good borrowing demand. Hudson River rose 1¼, Reading 1, Michigan Southern 1¼, Illinois Central 1¼, Cleveland and Pittsburgh ¾, Northwestern 1, Northwestern Preferred 1¼, Cleveland and Toledo ¼, Rock Island ¼, and Fort Wayne 1¼. After the call the market was dull and lower, and continued inactive near the close of business, when a general desire to buy was developed, and prices advanced to the quotations annexed, with a good demand: Ohio and Mississippi, 34¼@34½; Canton Company, 57¼@57½; Boston Water Power, 32¼@33; Cumberland Preferred, 68¼@68½; Quicksilver, 33¼@33½; Mariposa Preferred, 28¼@29¼; Western Union Telegraph, 34¼@34½; New-York Central, 118¼@118½; Erie, 85@85¼; Hudson River, 125; Reading, 116¼@116½; Michigan Southern, 91¼@91½; Illinois Central, 124@124½; Cleveland and Pittsburgh, 92¼@92½; Cleveland and Toledo, 119@119½; Rock Island, 109¼@110; Northwestern, 57¼@57½; North-Western Preferred, 79¼@79½; Fort Wayne, 109¼@109½.

Money is abundant to leading houses at 5@6 per cent, and in some cases round sums were had at lower rates. In commercial paper no change. Best names sell at 5@5½, and good at 6@6½@7. The demand for currency from the West and South continues, but it has been met thus far with comparative ease. Some of the city banks have no excess of currency in any form, but are able to use Clearing-House certificates, to the mutual advantage of themselves and the Treasury.

Exchange is weaker, under an increased supply of produce bills. The rates are: London, prime bankers', 60 days, 109@109¼; London, prime bankers', sight, 110@110¼; London, prime commercial, 108¼@109; Paris, bankers', long, 5.16¼@5.15; Paris, bankers', short, 5.13¾@5.12½; Antwerp, 5.18¾@5.16¼; Swiss, 5.18¾@5.16¼; Hamburg, bankers', 36¼@36½; Amsterdam, bankers', 41@41¼; Frankfort, bankers', 41@41¼; Bremen, bankers', 79¼@79½; Berlin, bankers', 79¼@79½.

The business of the Sub-Treasury was: Receipts, $2,806,667 60—for Customs, $330,000; Payments, $2,339,510 01; Balance, $91,372,834 39—Gold Notes, $778,000.

Freights are dull; the engagements to Liverpool are 4,000 bushels Wheat at 4d., and to London, 50,000 bushels Barley at 5½d.

The Cincinnati Gazette of Wednesday says:

The Money market continues to work close, and currency balances are steadily declining. Call loans were made to day at 8 per cent, which shows an advance of 2 per cent within a week. Bankers took paper only so far as they felt under obligations to dependents. Rates of interest on prime paper were firm at 10@12 per cent, with exceptional transactions at 8 per cent; but the offerings at 10@12 were in excess of the demand. The condition of the Money market was fairly indicated by the movements in Exchange. The latter, as currency worked closer, was pressed for sale, and prices declined to ¼@1.10 discount buying, and 50c. discount to par selling. In some cases dealers refused to pay over ¼ discount. There was heavy checking on New-York for Greenbacks, and the movement is likely to be continued for some time.

The Chicago Tribune of Wednesday says:

The demand for money was less active to-day, and several of the discount houses reported that business was rather quiet. In other respects there was nothing new to notice in either the tone or condition of the market. Currency is easy, and prime business paper is readily discounted at the usual bank rate, 10 per cent. Grain paper is narrowly scrutinized, and applicants for accommodation find the market close, as the banks have no desire to encourage speculation at the present inflated prices. Outside paper is taken in open market at 12@15 for good, and 18 per cent less for acceptable. Call loans on Government securities are nominal at 8 per cent. The exchange market was sensibly easier this forenoon, owing to the receipt of several parcels from Milwaukee, and sales were made between banks at par. In the afternoon we heard of no transactions below 25c. premium, at which the market closed quiet. The counter rates continue irregular at 1-16 discount to par buying, and par to 1-16 premium selling, mostly, however, at medium figures. Buffalo and Oswego are taken at 5-16 to ¼ discount.

The following exhibits the comparative shipments of Flour, Wheat, Corn and Oats by canal from Buffalo and Oswego, from May 1 to October 31, 1865 and 1866:

The Michigan Southern Road carried the fleet of wheat in November:

1865	$118,777	1866	$100,076	Dec	$18,701

The receipts on the Atlantic and Great Western Railway for the month of October reached $541,491, against $587,121 in the same month of 1865, exhibiting a decrease of $45,630. The receipts from the first of January to the 31st of October have amounted to $4,682,528, against $4,385,704 last year, showing an increase of $296,824.

The London Star notices the current large reductions in our public debts thus:

Perhaps nothing in the whole range of financial topics challenges more interest at present than the remarkable manner in which the United States people are grappling with the burden of their debt. If it was rapidly accumulated it bids fair to be also rapidly diminished, and the policy of diminishing it to the utmost of their power has never been even a matter of political dispute. They have assumed it to be a duty resting on the present generation to reduce their debt, just as they assumed the duty of fighting to preserve their country from disruption. The interest-bearing debt has been reduced by $136,369,574 during the six months ending 1st October, or $272,261,915, a fact entirely unexampled in the history of the world. The yearly charge upon the revenues of the Treasury has been reduced in the same period by $8,349,100, or $11,709,820. It is the expectation of the financiers of the Union that the existing debt of $2,240,996,182—a sum when written in dollars is so enormously large as to tax the power of numeration to express it—will be brought down to $2,000,000,000 by the 1st of January, 1867, or at all events by the 1st of July.

That is, the Americans look calmly to the possibility of paying off within six months $240,000,000, or $48,000,000, a sum equal to the whole income of this country at no distant period. The gold values of the import entries make the expectation by no means improbable. Up to the 6th of October the amount of gold paid for import duties had been $208,979,377, or $47,795,875, independent altogether of the interior currency taxation. These facts are well worth the study of British statesmen.

THE MARKETS.

[Carefully reported for THE TRIBUNE.]

FRIDAY, Nov. 9, 1866.

ASHES—The market is fairly active and firm at $9 75@$10 for Pots, and $14@$14 50 for Pearls.

BRICKS are firm and are in fair demand at $13@$14 for common Hard, $18@$20 for Croton, and $65@$70 for Philadelphia Front.

COPPER—American ingot is in fair demand, without change to note in prices; sales of 160,000 lb Detroit at 30@30½c., and 75,000 lb Baltimore at 30c.

COTTON—The market continues very dull and depressed, owing partly to liberal arrivals, and prices are again lower, closing heavy at 37c. for Middling Uplands to 38c. for do. New-Orleans, with forced sales at even lower rates. About 800 bales have changed hands.

COFFEE—There is no chance of importance to advise; prices generally remain steady and some inquiry prevails, but there appears no anxiety on the part of either buyers or sellers to operate heavily; we note sales of 3,181 bags Rio, balance per Nymph, on private terms.

FLOUR AND MEAL—The market for Western and State Flour is rather more active, but prices are 15@25c. lower on common grades. The medium brands
