All of which, when originating in this case, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is ever more valuable for protection than cure, and few will ever suffer from intermittents if they avail themselves of the protection this remedy affords.

MEDICAL

Scrofula, or King's Evil,

IS a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. This scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimated the human family thereby origin directly in this scrofulous contamination; many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla

The most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood.

The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Ague Cure,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders pr
