HOTELS.

St. Nicholas Hotel,
Broadway, New York.
Board Reduced to $2 per day!
Since the opening of this vast and commodious Hotel, in 1854, it has been the single endeavor of the proprietors to make it the most sumptuous, convenient and comfortable home for the citizen and stranger on this side the Atlantic.
And whatever has seemed likely to administer to the comfort of its guests they have endeavored, without regard to cost, to provide, and to combine all the elements of individual and social enjoyment which modern art has invented, and modern taste approved; and the patronage which it has commanded during the past six years is a gratifying proof that their efforts have been appreciated.
To meet the requirements of the times, when all are required to practice the most rigid economy, the undersigned,
Have Reduced the Price of Board to TWO DOLLARS PER DAY,
at the same time studying to add the luxuries with which their table has hitherto been supplied.

MEDICAL.

Scrofula, or King's Evil,
IS a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is certainly caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and many habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."
Its effects commence by deposition from the blood of corrupt or morbid matter, which, in the lungs, liver, and other vital organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous complaints, but they have far less power to wither, like the attacks of other diseases; consequently vast numbers, yielding to the influence which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumptions which decimated the human family shrink origin directly in this scrofulous contamination; many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.
One-quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in
AYER'S
Compound Extract of Sarsaparilla
The most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is composed of the most active vegetables that have been discovered for the expulsion of this foul disorder from the blood, and the renovation of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofulous, but also those other affections which arise from it, such as
