FLOUR AND MEAL—Our Flour market has been liberally supplied, and with very mild weather and a limited demand all grades have declined, especially the Medium and Family grades; these have been extremely slow of sale, and have been disposed of at very irregular prices. Common brands have declined slightly and are comparatively in limited supply and not generally pressed on the market; at a further slight concession in Shipping brands, many export orders might be filled. We have added slowly to our stock and estimate it at 500,000 bbls., against 680,000 bbls. the corresponding week last year; but the supplies of both Flour and Wheat in the interior, to come forward are less than one quarter those of last season, and with a better export demand, most holders are confident. To-day the demand was quite general, and prices of the better grades, though irregular, close steadier, the low grades being the most inquired after; the sales are 18,200 bbls. at $7 30@$9 50 for Superfine State, $9 70@$11 75 for Sound Extra do., $8 20@$10 40 for the low grades of Western Extra, $10@$12 50 for good to choice Extra Wisconsin, $10 @$11 15 for Shipping Ohio, $11 25@$12 50 for Trade do., and $12 25@$15 75 for St. Louis Extras. Canadian Flour is unchanged; sales of 100 bbls. at $12 50@$14 50 for Extras. Southern Flour is steady, with more inquiry; sales of 420 bbls. at $10 20@$12 50 for common to fair Extra Baltimore and Country, and $12 65@$16 for trade and family Extras. Rye Flour is steady, and in limited demand; sales of 335 bbls., at $5 50@$7. Corn Meal is inactive, and prices nominal. Buckwheat Flour is in good demand, at $2 25@$3 25 per 100 lb.

FRUIT—The market is moderately active at about our figures. We quote:

SPICES—The market remains very dull for all kinds, and prices nominal. We hear of no important sales. We quote:

FISH—The inquiry for Dry Cod has been only moderate, but prices have undergone no essential change. Mackerel are in fair jobbing demand, and prices are firm. We quote:

Pickled Cod, ₱ bbl	7 25 @ —
Mackerel, No. 1 Mass., small, ₱ bbl	19 00 @ —

Herring, Scaled, ₱ box	50 @ —
Herring, No. 1, ₱ box	40 @ —

GRAIN—In Wheat only a moderate business has been done, the less favorable news from Europe, a marked decline in gold and a further advance in freights have prevented the filling of shipping orders, and millers have purchased cautiously, in view of the declining tendency in Flour; Spring has declined about 5c. ₱ bush.; White Winter has improved and is in very limited supply, and this is true of the whole country; the public generally are slow to believe reports of short crops, and attribute high prices to speculators, but this is far from the truth this season; our Wheat crop is lamentably short, as the last half of the cereal year will clearly demonstrate; our receipts have been liberal, but as the canals will close to-day the week will close the season; our present stock is about 1,160,000 bushels against 2,900,000 bushels last year, and with a fair export and good domestic demand our present supply will soon disappear. To-day the market is rather more active, choice qualities are strongly held; common are heavy; Amber Western and State Wheat, firmer, the demand confined to millers; sales of 19,200 bush. No. 2 Chicago Spring at $2 15@$2 25, and 550 bush. choice Amber State at $3. Barley has been in moderate demand for export and the trade, but with moderate arrivals prices are quite firm, the more favorable news from Europe inducing much firmness, though with a decline in gold and some advance in freights very little has been done. The stock of this staple is about 1,800,000 bush. To-day there is more firmness noticeable, but the market is not active; sales of 21,400 bush. at 95c. for Canada West, in bond; $1 20 for do., free, and $1 14 for Western Two-rowed State. Barley Malt is quiet at $1 25@$1 35. Rye is firmly held and is not very active; sales of 4,000 bush. at $1 17 for New-Western, and $1 28 for State-Canadian in bond. Oats are in active speculative demand, and prices are 2@3c. better, closing quiet; sales 127,000 bush. at 61@62½c. for Unsound Western, 64@66c. for Old and New Western, 65@70c. for State, closing at the latter rate. Indian Corn has been in moderate request, and with larger arrivals, a material decline in gold, since advance in freights and very changeable advices from Europe, prices have declined rapidly, and have fluctuated violently, with only a moderate business doing in exports. We have added daily to our stock and estimate it at 3,400,000 bush., and with liberal arrivals of New the consumption of Old has fallen off. To-day there was more business at the opening of Change, but buyers held off and, with a strong desire to sell, prices declined rapidly and closed unsettled; sales of 98,000 bush. at 61 @63 10 for Western Mixed in store; $1 10@$1 11 for do. afloat; $1 11 for Western Yellow in store, (early in the day) and $1 for New White Southern, very damp. Canadian Peas are in fine demand; sales of 17,200 bush. at $1 36 in bond, and $1 50 for do. free.

N. Y. WHOLESALE PRICES OF COUNTRY PRODUCE.

FOR THE WEEK ENDING Dec. 11, 1866.

(Expressly for THE N. Y. TRIBUNE by our own Reporter.)

The following are the current rates of articles in good condition, as sold by commission houses at wholesale. Shippers receive 5 to 10 ₱ cent less, deducted for commissions, beside freight and other charges. Parties receiving produce to sell, often with the request that immediate returns be made, cannot always obtain the prices which transient buyers have to pay. Our figures are intended more for the farmer than the merchant, and we prefer not to disappoint by giving the outside prices of very choice articles. Boxes or packages should be carefully marked with paint, and the name of the sender should also be painted upon one end. Nail an invoice or list of the articles upon the under side of the cover, and send a letter by mail, containing an invoice and directions, also stating how and when sent. Clean packages and care in putting up will add much to the value of the produce.

BEANS AND PEAS.

Prime Beans are scarce, and those arriving in this condition, hand picked, are selling readily at quotations, but free receipts would carry prices down, as there is only a limited demand. Ordinary Beans are not wanted. A cargo of Canadian Peas has just been sold, in bond, at $1 35. We quote:

BUTTER.

The butter trade is somewhat mixed up this week, for while a dealer who has an order for a small dairy of choice State firkins will occasionally, though very rarely, pay 40c., after filling his order he cannot be induced to take a second lot just as good for more than 35c. Welsh tubs are overhauled, and a little of the cream selected at 35c., while the majority has to be sold at 30@32c. The receipts show a falling off, only 11,446 packages being reported for the week. Still this is very much more than the limited demand calls for, and dealers are anxious to work down their stocks, but it is next to impossible to do so. In general, while *fine* butter is doing quite as well, possibly a shade better, all other grades are as much worse. We look of common butter sold at 15c. Rolls vary greatly in quality; sales of good have been made at 30c., but most of them go off very slowly at about 25c. We quote:

CHEESE.

Cold weather, endangering cheese in transportation, has very much checked arrivals, the receipts being only 17,364 for the week, which is less than half the number reported one week ago. The demand, too, being limited, does not encourage bringing forward. Still the stock should be on the rebound during Winter ready to be shipped abroad at any favorable opportunity. The feeling is now a little better in England, but the decline in gold here just about counterbalances the improvement there. Trade may be set down as very quiet; prices ruling a shade lower than last week. Some 4,000 boxes of cheese have been saved, in a damaged condition, from the wreck of the Scotland. We quote:

EGGS.

Receipts only 698 bbls for the week, but so many of the former arrivals, and especially limed lots, are still on the market, that prices are scarcely as firm as last week. The present cool weather will check both the production and receipts, and an advance is anticipated after the present stock is worked down a little. Only 25c. per dozen is offered for a large lot of limed Eggs, to take them at the mark. The demand usually increases toward the holidays. Single bbls. fresh Jersey Eggs are selling at 40c. We quote:

FRUITS AND BERRIES.

A few lots of State apples, for table use, have sold at $10; but mixed apples seldom go above $6 50. A little improvement is anticipated. Some city Pippins and Greenings are held for more—they sound [illegible]

grapes has fallen off—in fact there is very little call just now, but holders hope for a demand which shall use up the stock on hand before the holidays, after that the trade is not worth much. Cranberries are selling a little quicker, but at no advance. We quote:

HOPS.

Emmet Wells, in his latest circular, thus speaks of the hop trade: "The better feeling noticed in our report of last week still rules an improving market, stimulated as it has been by extreme light receipts and a steady consumptive demand, which has reduced the stock to a point below that of any preceding week since the opening of the season's trade in September. An export order by telegraph, from Europe has just been received for 200 bales; but if the present consumptive demand continues, without more liberal receipts, our present stock will not admit of the execution of further shipping orders to any considerable amount. Stringency in the money market the past week tended somewhat to check cash operations, but it has led to no concessions whatever, and the same feeling of firmness which has characterized the trade from the beginning of the season still exists, and is likely to continue and increase as the stock gradually becomes reduced. We quote: Old American, 20@45c.; Old Foreign, 40@45c.; New American (Inferior), 35@45c.; New American (Prime), 50@55c.; New American (Fancy), 60@65c.

MEATS.

Clear cold weather helps the sale of dressed meats; still prices, which ran down very low after the report of last week—Pork selling from the barges at 7½@8c., and in some cases at 7c.—are not very firm, though tending upward. We quote:

Beef Sides, ₱ lb	9@13½
Beef, fore quarter, ₱ lb	7@12½

POULTRY AND GAME.

After report of last week poultry and game kept piling in, and as the weather was warm and rainy trade was in the worst shape imaginable, and large quantities were sold at 5@10c. ₱ lb, to say nothing of the tons seized by the Health Inspectors. One dealer sold a ton of mixed poultry to the street peddlers, for $40, but fearing "confiscation," they "backed out." A few boxes fresh-killed Jersey turkeys were sold this morning at 22c., and some chickens at 20c., but 20c. for the former and 18c. for the latter are the prevailing rates. It is impossible to correctly report the soft and rough lots, as there is no established price for them. Dealers get the best offers they can, and accept them. Large quantities of poultry and game, which came in during the warm weather, were dumped into the river, being unfit to expose for sale. The present sharply cold weather will greatly improve the markets. There is still a large let of venison on the market. We quote:
