MEDICAL.

DR. JOHN BULL'S

COMPOUND

CEDRON BITTERS,

The Latest and Most Important Discovery of the 19th Century

NO man's name is more intimately connected with the history of Materia Medica of the United States, or more favorably known as a pioneer in medical discovery, than that of Dr. JOHN BULL of Louisville, Ky. His inimitable preparation of Sarsaparilla, has long stood at the head of the various compounds of that valuable drug. His Compound Pectoral of Wild Cherry has become a household word throught the west and South, and his Worm Lozenges in less than a year after their introduction attained a reputation as wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim to be the discoverer of CEDRON, which is the basis of the bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom its virtues have been known for more than two hundred years. Armed with it the Indians bids defiance to the most deadly malaria, and handles without fear the most venomous serpents. It is a belief with them that while there is breath left in the body the Cedron is potent to cure, no matter what the disease may be.

While Dr. Bull is not prepared to endorse this extravagant proposition, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that as a remedy and preventive for all diseases arising from exposure either to changes of weather or climate, or to the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long in Central America and the West Indies. In

DYSPEPSIA,

And its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the range of the Materia Medica, that can for a moment bear a comparison with it in this disease.

A full account of this wonderful plant may be found in the 11th edition of the U. S. Dispensatory, pages 1387 and 1388.

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other approved tonics, the whole preserved in the best quality of copper distilled Bourbon whisky which he is confident has no equal in the world.

He might furnish a volume of testimonies, but the public have long since learned to estimate such things at their true value. The safest plan is for every one to test for himself the virtues of a new medicine. Give the

CEDRON BITTERS

One trial and you will never use any others.

It is not necessary to publish a long list of diseases for which the Cedron Bitters are a specific.

In all diseases of the Stomach, Bowels, Liver or Kidneys;

In all affections of the Brain depending upon Derangements of the Stomach or Bowels;

In Gout, Rheumatism and Neuralgia;

And in Fever and ague, it is destined to supercede all other remedies. It not only cures these diseases but it prevents them.

A wine glass full of the Bitters taken an hour before each meal will obviate the ill effects of the most unhealthy climate, and render the person taking it against disease under the most trying exposure.

UNITED STATES ARMY

RECRUITING SENVICE!

Wanted for the 7th United States Infantry, able-bodied UNMARRIED Men, between the ages of 18 and 45, not less than 5 feet 3 inches high, and of good character. A minor, under 18 years of age, will not be enlisted without the written consent of his parent or guardian.

The term of service is THREE YEARS. The soldier will be entitled to the same Bounties, Pension, &c., in every respect as those allowed to, or to be allowed to men of the Volunteer Service.

By good conduct and attention to duty, a soldier will certainly raise to the position of a non-commissioned officer, and from this class the law provides that meritorious men may be selected, as the wants of the service may require it, for promotion to the rank of commissioned officers in the army. The following is the rate of pay now established:

To Sergeant Major, $26 Quartermaster Sergeant, and principal Musician, each $22; to the 1st Sergeant of a Company, $24, other Sergeants each $20—Corporals, $18—Musicians, $16, Privates $16.

In addition to the pay as above stated, one ration per day and an abundant supply of good Clothing is allowed to every soldier. Quarters, fuel and Medical attendance are always provided by the Government without deduction from the Soldiers' pay. If a soldier should become disabled in the line of his duty, the law provides for him a Pension, or he may, if he prefer it, obtain admission into the Soldiers' Home, which will afford him a comfortable home as long as he may wish to receive its benefits.

Substitutes and Representative Recruits receive the same Pay, Clothing, Medical attendance, &c., &c., as other recruits.

A premium of $2 dollars will be paid to any one presenting an acceptable recruit.

The Recruiting officer will give all other information which may be desired.

Apply at No. 5 Union Row, Main Street, Up-Stairs Terre Haute, Indiana.
