SATURDAY, Dec. 22—P. M.

Gold continues heavy, and closed at 134½, after selling at 134¼ and 134½. The Government will pay the following gold interest on the 1st of January:

Loan of 1847	$96,427
Loan of 1848	267,250
Loan of 1858	500,000
Loan of 1860	177,500
Loan of Feb 5, 1861	50,000
Loan of July 17 and Aug. 5, 1861	5,077,000
Oregon War Bonds	30,400
Loan of 1853	2,350,000
Five-twenties, 1865, new issue	600,000
Total interest due Jan. 1	$10,106,319

The six per cent gold-bearing issues of Government stock were well sustained to-day with small sales. The 10-40s fell to 99¾, and 7.30s were sold at 104¾. In State stocks, railway mortgages and bank shares, a moderate business at steady rates. The miscellaneous list was lower on moderate sales. Pacific Mail was sold down to 160, but rallied to 162 and was in demand. The Railway share market opened upon the street at a decline on the low quotations of last night, and operators generally expected "a panic in earnest" under the sharp demand for money shown in all directions. The alarm about money seemed diminished and prices of all descriptions of stocks were higher. The sales were large and there is now in the market a heavier short interest than has been known for a long period. The leading bears have had so much company in their assaults upon the market that a speedy reaction in prices is confidently looked for by the bulls. After the call the market was strong, and so continued up to the close of business, when the following prices were current: New-York Central, 108⅞@109; Erie, 68⅛@68¾; Reading, 104@104¼; Michigan Southern, 81⅛@81¾; Illinois Central, 116; Cleveland and Pittsburgh, 85¾; Rock Island, 103; North-Western, 45; North-Western Preferred, 89; Fort Wayne, 104¾.

Money on call is 7 per cent, and early in the day ¼ per cent commission was paid in addition. A general scramble to borrow was shown upon the opening of business, and it was evident that the scarcity of money was exaggerated by houses short of stocks. The demand for money late in the day was much less than on Friday, and the market closes in favor of the lender. In Commercial paper no change of consequence.

The case of the Atlantic Mail Steamship Company, which has occupied the attention of the Supreme Court, Special Term, for several days past, and in which application is made under the statute to declare void the election of a new Board of Directors, was yesterday submitted to Mr. Justice Mason for his decision.

The receipts of the Grand Trunk Railway for the week ending Dec. 15 were:

1866.... $128,714 | 1865.....127,838 | Decrease....$876

The Pottsville Journal of Saturday says:

The quantity of coal sent by railroad this week is 35,332 02-[illegible] by canal, 3,701 01—for the week 39,033 03 tons, against 52,854 tons for the corresponding week last year.

But few collieries are at work, and more will stop the ensuing week until prices improve so as to prevent loss.

The trade sums up this week as follows, compared with last year:

1865. Week.	1865. Total.	1866. Week.	1866. Total.
65,954	9,840,932	53,797	12,364,679
53,797			9,840,903
12,157			2,514,476

The trade by railroads since the first of December shows a loss of 86,221 tons compared with last year, and this loss will in all probability continue for the balance of the season.

The Chicago Republican of Wednesday p. m. says:

Business throughout the city is generally dull, and our merchants are mostly engaged in closing up the year's operations. In monetary circles there is a very quiet feeling, and the money market remains unchanged. The drain of currency eastward is lessening almost daily, but there is still a very active demand for currency to send to the interior to move the hog crop. Under this state of affairs, the market is still stringent, and banks are have to discriminate more closely in discounting than formerly. There is no change, however, in rates. Prime paper is passed at 10 per cent per annum. Mortgage loans are steady at 8@10 per cent per annum.

The Cincinnati Gazette, of Thursday, remarks:

We have to report a stationary money market, with no prospect of an immediate change for the better. Bankers are not demanding excess for regular accommodations, and they are still doing much for anybody in this line. Receipts of bank notes are large and leave our banks currency one fortnight. The aggregate receipts were 18,000 head, and we hear they are likely to be correspondingly heavy during the remainder of the month. Rates of interest are as mentioned, 8@10 per cent, and we hear bankers and their depositors had in the open market money continuously 12 per cent readily on the best names. Exchange came in freely to dealers—bankers here and in the interior who have been holding balances in New-York, in anticipation of the wants of the pork trade, having commenced selling. Round lots of country exchange were bought at 1-16 discount and the most paid by dealers, under any circumstances, was 50c. discount, while in some cases they drew at 50c. discount, though par was the prevailing selling rate. Currency was ordered from New-York by several of the houses, but we do not see any prospect of this being continued unless big produce should be bought on Eastern account, or be shipped to the seaboard. There is very little produce going forward now to make exchanges.

The Pittsburgh, Fort Wayne and Chicago Railroad Company has declared a quarterly dividend of 2½ per cent.

The Fifth National Bank has declared a semi-annual dividend of 5 per cent.

THE MARKETS.

[Carefully reported for The Tribune.]

SATURDAY, Dec. 22, 1866.

ASHES are without change, the demand is moderate, we quote at $8 50 for Pots and $12@12 50 for Pearls.

COFFEE—In Rio there has been rather more doing without any quoted change in prices; the sales embrace 4,419 bags ex Eaglet, and 3,350 ex Demetria on private terms; by steamer to-day we have advices from Rio de Janeiro to the 29th of [illegible] ber, but as yet the news had no perceptible effect upon the market; the sales for the United States between steamers [illegible] 49,300 bags, stock, 20,000 bags; prices as follows: Rio 7[illegible] rior, 8 [illegible]@8[illegible] Superior, 9[illegible]@10[illegible] good first, [illegible] Fine, 9[illegible]@9[illegible] Favorite, 4,200 bags. For New-Orleans, with 3,500 bags, Rosario, 1,000 bags, Dona Ana, 1,000 bags, Nancy, with 2,000 bags, Cleopatra and ready for the Fredericks for New-York, 3,000 bags; Rinh, 4,000, and Tentonia, 3,000, both for New-Orleans. Loading for New-York: Campeonero, 4,500 bags, Traveler, 4,400 bags; Janet, 3,600 bags; North America, 7,000 bags, and Christiana, 4,100 bags; for Hampton Roads: Lark, 2,600 bags. For Galveston: Alice, 22,000 bags. For New-Orleans: Gauss, 5,000 bags.

COPPER—The market is unsettled and lower; sales of 100,000 lbs at 26c. for January delivery, sales reported on the spot at 25½.

COTTON—The demand has been moderate, and prices are easier but close somewhat unsettled and rather nominal at, 31c. for Middling Uplands, to 32½c. for do. New-Orleans; sales of 1,750 bales.

FLOUR AND MEAL—Since our review of Wednesday we have had quite a depressed feeling in the low and medium grades of Western and State Flour; speculative buyers have evinced more disposition to sell and, to do so, have yielded very [illegible] bid; Trade and Family brands have sold rather freely at irregular prices; receipts generally have rather exceeded the demand at any concession, and limited detail trade and material reduction in the stock, seem much needed to give a healthy tone and freedom of inquiry for January delivery; I realize no[illegible] sales of some 1,500 to 4,000 bbls, common Extra State at $11. The arrival receipts of Flour the past week have been about [illegible] bbls, hence with these very light arrivals the daily depletion in our stock is large. The trade are very well stocked, and have purchased less freely than usual, and only to fill up their assortments. We estimate our tonnage at 3,000,000 bbls, which with the small receipts in prospect must be regarded as small. The stock of Flour in the interior of producing [illegible] is much less than usual, and there is little to spare for more, therefore the receipts are mainly at interior towns [illegible] and decline in good have prevented the filling of lading orders. The business for export has been light—only 12,000 bbls—including 4,000 bbls to Europe, 5,000 bbls to South American and the West Indies, and 700 bbls to the British Provinces. To-day the business has been extremely limited, and to effect sales a decline of 5@10c. per bbl was submitted to on the low and medium grades. Family brands are not freely offered and are steady; the sales are 2,000 bbls at $9 75@$10 50 for Superfine State; [illegible] for Extra State; $10@10 [illegible] for low grades of Western Extra; $10 50@$11 for Shipping Ohio; $12@$14 for Trade do.; $10@$13 50 for Winnesota Extra, and $13 50@$16 50 for St. Louis Extra. Canadian Flour is inactive, but steady; sales of 100 bbls, at $12@$13 for Extra; Southern Flour is in limited demand, but prices are without change; sales of 200 bbls at $11 00@$13 50 for common to fair Extra Baltimore and Country, and $13 75@$16 50 for Trade and Family Extras. Rye Flour is firm, but quiet; sales of 250 bbls, at $6 25@$7 75. Corn Meal is steady; sales of 150 bbls, Jersey at $5 10@$5 40. Buckwheat Flour is heavy at $3 25@$3 50 ⅌ 100 lbs.

GRAIN—Since Wednesday last the demand for Wheat for milling purposes has been only to a moderate extent, and prices have declined, but most holders refused to yield in view of the small stock of really prime; indeed, we do not remember a season for the past twenty years when our stock of prime Wheat was so small. Our present supply is doubtless less than 2,000,000 bush. This is considerably below the probable wants of our millers, leaving nothing for constwise milling. In our estimate of the stock of Wheat above we include that afloat as well as in store. The exports of the week are 69,745 bush., against 56,961 bush. for the corresponding week last year. Really choice White is in limited supply, and is held much higher. The stock of Wheat in the western part of this State is very light indeed, but at Cleveland they hold a large supply, chiefly arriving from the Upper Lakes; this it is supposed will be wanted for the Ohio and South-Western trade. To-day the market is inactive; most holders are firmer in their views; millers contend for lower prices, but in view of the light and diminished stock there is no anxiety to realize; the sales are 4,000 bush. at $2 10 for common Chicago Spring. Barley has been in moderate demand, chiefly for the home trade; prices have fluctuated, but show little change for the week. The export demand has fallen off, the rapid decline in gold checking the inquiry, and the home trade has been light; closing dull and nominal. Barley Malt is dull at $1 30@$1 35 ⅌ bush. Oats have been in more active request, the demand is more speculative, but with a rapid decline in gold and in Corn, prices have fluctuated. Our stock is estimated at 2,600,000 bush., closing dull and heavy at 60c. for State, and 61@65c. for Chicago. Indian Corn has been comparatively quiet, has declined rapidly, and has fluctuated violently; the unfavorable news from Europe and marked decline in Gold have increased the desire to sell, and to do so a large abatement has been made. At the decline there is more inquiry for export, and we notice considerable shipments from first hands. Our stock is estimated at 3,500,000 bush., and is diminishing daily. The exports of the week are 59,000 bush against 195,417 bush. the corresponding week last year. To-day the market opened lower and nominal, but closed firmer with a moderate demand to complete cargoes; sales of 36,000 bush. at $1 08@$1 10 for Western mixed, in store, and $1 12 asked afloat, and Jersey Yellow at $1 05@$1 06.

EXPORTS FROM SEPT. 1, 1866, TO DATE.
