DR. JOHN BULL'S

COMPOUND

CEDRON BITTERS,

The Latest and Most Important Discovery of the 19th Century

NO man's name is more intimately connected with the history of Malaria Medicine in the United States, or more favorably known as a pioneer in medical discovery, than that of Dr. JOHN BULL of Louisville, Ky. His invaluable preparation of Sarsaparilla, has long stood at the head of the various compounds of that valuable drug. His Compound Fluid Extract of Wild Cherry has become a household word throughout the west and South, and his Worm Lozenges in less than a year after their introduction attained a reputation as wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim to be the discoverer of CEDRON, which is the basis of the bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom its virtues have been known for more than two hundred years. Armed with it the Indians bids defiance to the most deadly malaria, and handles without fear the most venomous serpents. It is a belief with them that while there is breath left in the body the medicine is potent to cure, no matter what the disease may be.

While Dr. Bull does not prepare to endorse this extravagant praise, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that as a remedy and preventive for all diseases arising from the malarious changes of weather or climate, or the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long in Central America and the West Indies. In

DYSPEPSIA,

and its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the range of the materia medica, that can for a moment bear a comparison with it in this disease.

A full account of this wonderful plant may be found in the 11th edition of the U. S. Dispensatory, pages 1207 and 1208.

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other approved tonics, the whole preserved in the best quality of copper distilled American whisky, which he is confident has no equal in the world.

He might furnish a volume of certificates, but the public have long since learned to estimate such things at their true value. The safest plan is for every one to test for himself the virtues of a new medicine. Give the

CEDRON BITTERS

One trial and you will never use any others.

It is not necessary to publish a long list of diseases for which the Cedron Bitters are a specific.

In all diseases of the Stomach, Bowels, Liver or Kidneys,

In all affections of the Brain depending upon Derangement of the Stomach or Bowels;

In Gout, Rheumatism and Neuralgia,

And in Fever and Ague, it is destined to supersede all other remedies. It not only cures these diseases but it prevents them.

A wine glass full of the Bitters taken an hour before each meal will counteract the ill effects of the most unhealthy climate, and screen the person taking it against disease under the most trying exposure.
