HIDES—We have had a comparatively quiet market for Dry Hides during the early part of the week, and sales were hard to effect, but toward the close considerable business was done in parcels, to arrive, which are freely offered. Prices are firm, but without quotable change. The light stock on hand, and the large number held to arrive, enable holders to maintain prices. For Wet Salted Hides a fair business was done in Domestic Slaughters, but at lower prices, owing to the meager supply on hand. At the close holders refuse to submit to any further concessions. Upper Leather stock is fairly active, but owing to the exhausted supply we have no sales to report. Prices are well sustained.

NAVAL STORES—The inquiry for Crude Turpentine has been limited, and in the absence of sales prices are nominal. Spirits Turpentine has been in better demand, but in prices we have had much variableness. On Thursday last holders were compelled to submit to a large decline, and sales were made as low as 66½; but on Friday there was less disposition to sell, consequently a firmer feeling prevailed, and with a good demand from the trade, prices advanced. To-day the market closes firm. Rosins have ruled heavy, especially Common; however, a very fair business was done. Tar has declined, and has ruled dull.

PROVISIONS—The more liberal receipts—present and prospective—the large arrivals of Hogs and marked decline in their market value, have given buyers of Mess Pork a decided advantage, but we have to note much variableness and irregularity in prices. There has been less disposition to operate for future delivery; holders have met this demand promptly, but the uncertainty in regard to the future serves to greatly retard business. Some official announcement of the financial policy of the Government is demanded by the public, and should be promptly responded to, the present delay and uncertainty in relation to the financial future is a serious injury to the trade throughout the country, and cannot fail to greatly diminish the Internal Revenue receipts, as instead of a large balance in the Treasury, as hitherto, it will be very insignificant. We learn from the West that farmers and drovers in many sections have resolved to pack on their own account, and hence there will be less concentration of this year's crop than usual, and it will be extremely difficult at the close of the season to approximate to the crop accurately. In some localities there is a marked falling off in the number packed, while in others there is considerable increase. In 1854 and 1855 farmers packed freely, and during the Summer of 1855 we had very irregular prices. The business at the Produce Exchange to-day was fair; the market opened active and better, but closed dull and heavy. For future delivery, sales of 2,750 bbls. at $21 for New Mess, seller January; $20 87½@$21 for New Mess, seller last half of January; $21 37½ for New Mess, seller February, and $21 50 for New Western Mess, seller February; sales, cash and regular, are 250 bbls. at $19 37½@$19 50 for Old Mess; $21 for New Mess; $21 50 for New Western Mess, and $17 for Extra Prime. Beef has been more active, and with moderate arrivals, prices have improved, closing firm, with a fair demand; sales of 250 bbls. at $9@$12 for Old Plain Mess; $11@$18 for New Mess; $12@$15 for Old Extra, and $17@$21 50 for New Mess. Tierce Beef has been in better demand, and has ruled steady, closing heavy but more active; sales of 300 tes Prime Mess on private terms. Beef Hams have been offered more freely, and prices favored the buyer, closing dull at about $30@$34 for Western. Cut Meats have declined, and have been offered freely, closing dull, with sales of 50 pkgs. Pickled Hams at 11½c., heavy. Bacon has ruled dull and prices are nominal. Dressed Hogs have been quite plenty, have rapidly declined, and have fluctuated violently; to-day the market opened firm, but closed heavy; we quote at 8@8½c. for Western, and 8½@9c. for City. Lard has been in limited demand, chiefly for the trade, closing quiet but firm; sales of 300 pkgs. at 12½c. for City, and 12½c. for Western Steam to arrive.

AFTERNOON PROVISION MARKET, 5 O'CLOCK.—The Pork market is dull at about $19 25@$19 37½ for Old, and $21 for New Mess. Lard is quiet.

WOOL—Our market for Domestic Fleeces has been rather more active, especially for fine fleeces, and, in the hope of a more lively demand after the new year, holders are very firm in their views. The depression in the woolen goods market has been the cause of the dullness in our market for some time past, and, until there is a better demand for manufactured goods we cannot expect much improvement in the raw material. The stock, however, is becoming much reduced, and should consumers decide to increase their supplies, even to a moderate extent, the result would be favorable to holders, many of whom are only waiting for a fair healthy demand to arise in order to move their wool. Within the next two or three months most of the woolen goods intended for the Spring trade must of necessity be manufactured, and, as a consequence, during that time, owners of Wool will probably have the best opportunities for disposing of it.
