SPECIALTY:

CHRONOMETER AND WATCH REPAIRING

By the best workmen in this city, and at

GREATLY REDUCED PRICES,

From this date and for the year 1867.

C. E. COLLINS & CO.,

WATCHMAKERS,

Nos. 42 and 44 Nassau-st., N. Y. (up stairs),

Third door from the General Post-Office, toward Maiden-lane.

C. E. COLLINS & Co., are now and have been engaged exclusively, for the last twenty-five years, in "watch repairing," and claim to possess the most thorough and complete practical knowledge of watch work in all its branches.

Too few persons appreciate the indiscretion of putting good "timekeepers" in the hands of unskillful and unpractical workmen; many a good watch is ruined thereby.

C. E. COLLINS & Co., Nos. 42 and 44 Nassau-st., employ none but the most competent workmen, and furnish them with the best appliances to repair the finest watches and chronometers, and give our own personal supervision to every job, and fully warrant it for one year.

We are prepared to furnish all new work, of the finest and most delicate kinds, and fully equal to the original.

We have the best materials, both for American and foreign watches, and our charges are very moderate indeed (not much over half Broadway prices).

C. E. COLLINS & Co.,

Nos. 42 & 44 Nassau-st., up stairs,

Third door from the General Post-Office, toward Maiden-lane.

N. B.—We attend to the careful regulating and adjusting of new watches. Best fire proof safes.

EUROPEAN AGENCY

FOR THE EXHIBITION AND SALE
OF
AMERICAN PATENTS AND MANUFACTURES.

The undersigned have established in Paris, France (No. 82 Boulevard de Sebastopol), a

PERMANENT AGENCY

for the exhibition and sale of American Patents and Manufactures in Europe.

The necessity of such an Agency has long been apparent to American Inventors. We believe that we can offer peculiar advantages to those desiring the services of *competent, reliable, and practical* Americans to attend *personally* to their interests in France and England.

One member of the firm was employed at the World's Exhibition in New-York in 1853, to the great advantage of several important patents. He has a practical knowledge of mechanics and machinery, and is familiar with the French language.

The other member of the firm has had five years' practical connection with the United States Patent Office, is fully acquainted with the patent system in this country and in Europe, and speaks the German language.

ADDISON M. SMITH, esq., who has been for nine years connected with the Examining Board of the United States Patent Office, and for the last five years in charge of the class embracing "Harvesting Machines," etc., is associated with us at Washington, D. C., and will attend to all business relating to Patents in this country, either before the Office or the Courts.

We have every facility for securing European Patents on American inventions.

We can furnish the best testimonials of financial responsibility, and capacity to conduct to a successful issue such negotiations as may be intrusted to us.

We shall give special attention to the proper exhibition of articles in our care at the Great Exposition, endeavoring to secure for them the favorable attention of Committees, and full justice in all tests of their comparative merits.

We invite correspondence with AMERICAN INVENTORS, OWNERS OF PATENTS, AND MANUFACTURERS.

For Circular and further information address BLANCHARD & McKEAN, Box No. 365, Washington, D. C., or No. 82 Boulevard de Sebastopol, Paris, France.
