NAVAL STORES—Spirits Turpentine is in moderate demand and firm; Crude is nominal. Rosins are dull, and prices tend downward. Tar has been moderately active and steady. Pitch is without change. We quote as follows:

OILS—American Linseed is lower, but a fair business was done at the concession; sales at $1 02@$1 07 for casks and bbls. Crude Fish Oils are without change, the demand is moderate; sales at 75c. for Whale, and $2 10@$2 15 for Sperm. Manufactured Oils are dull, and prices are nominal. Lard Oil is selling to a moderate extent at full previous prices.

PROVISIONS—We have had rather a quiet Pork market; the fluctuations have been slight; the character of the trade seems to be greatly changed as compared with that of last year; in other words, the business doing is quite legitimate and healthy; the demand for shipping has been fair, but the trade have purchased only to meet their present wants; the receipts have been moderate, and we notice a further reduction in our stock, and we find it considerably less than last year; we note a limited demand for future delivery, at about former prices, and bear of sales of 1,000 bbls. New Western Mess, for January delivery, $22, and 250 bbls. Old Mess, seller all the year, at $20 75; a fair business was done at full prices, but the market closes weaker at $20 95; sales cash and regular of 1,000 bbls. Mess at $21@$21 10. Prime Mess has been in moderate request for future delivery, but buyers generally are apart in their views, and trading has been made public; the last sale for this month's delivery was made at $18 87. Beef has been in more general demand, and the market prices are better established; the receipts have increased, and we have added considerably to our stock, but it is by no means large. Present prices are not dear; good holders of really good are quite firm, closing quiet; 300 bbls. sold at $10@$12 for Plain, and $19@$21 for Extra Mess. Prime Beef has been in better demand, but with some decline in gold, and a better supply offering, prices are easier, closing quiet. Beef Hams have been in fair demand for the trade and are without much change, closing dull at $27@$29. Cut Meats are in moderate supply and prices are unsettled and nominal; we hear of sales of Shoulders in salt, for December and January delivery, at 8c. City Meats are selling at variable prices, closing quiet. R., and 13½c. for L. C. Lard has been in good request, early in the week prices ran limited, but since Tuesday with a more active export inquiry, prices have improved and favor the seller, closing moderately active and steady; sales of 400 pkgs. at 12½c. for No. 1; 13@13½c. for City, and 13¼@13½c. for fair to prime Steam and Kettle Rendered.

Lard is quiet but firm, 13½c. being the top for prime.

PETROLEUM—The market is quiet, but prices are without change. We quote as follows:

SKINS—For Goat we have to note a continued dullness, and transactions are difficult to effect at any price. We withdraw our quotations. Rather more has been done in Deer, but the sales are not equal to the receipts, and with a very large stock on hand prices are still nominal; we note sales of 10,000 ⅌ Angostura, 5,000 ⅌ Sisal, 5,000 ⅌ Para, and 5,000 ⅌ Central American, on private terms, part of the last for export; 20,000 ⅌ Angostura were shipped for account of importers. TALLOW—The market is moderately active; sales of 140,000 ⅌ at 11½@11½c. for Inferior to Prime.

WOOL—Fine Fleeces have been sold rather more freely within the past three or four days, but in prices we have no material alteration to note. Common and medium grades continue dull, and prices have a downward tendency; trade generally is quiet, manufacturers are doing but little—it is true the stock in their hands is small, but the sluggish and mixed state of the goods market prevents them buying to a supply even at a decline. Our stock of Wool in the country is quite large, hence the prevailing low prices. We look for no great activity in this branch of trade until a revival in the goods market, which is not very probable at present. The closing quotations are as follows: Domestic Fleeces at 40@45c. for Native and one-quarter Merinos, 40@45c. for one-half and three-quarters do., 45@50c. for full-blood Merinos, and 55@60c. for Saxony Fleeces; 27@32c. for No. 1 Pulled, 37@40c. for Superfine do., and 45@50c. for Extra do.; 16@20c. for common Unwashed California; 24@28c. for Fine do., 18@23c. for common to choice Texas, and American Combing at 48@52c.
