MONDAY, April 6—P. M.

Gold closed at 137¼. Holders of gold are paying commissions to have it carried, and are more troubled to make up their accounts than operators in stocks. The clearings at the Gold Exchange Bank were $48,290,000, and the balances $1,880,342 11.

The stock market opened with great firmness, but at the advance there was a disposition to realize profits, and under quite free offerings there was a reaction in the leading shares. A large amount of stocks fell due to-day, but no trouble was found by any reputable borrower in obtaining money at legal rates. All descriptions of Governments were well supported. State stocks and Railway mortgages are firm and in demand. Western Union sold at 38. Pacific Mail continues active, and there is a good supply of stock from parties who argue that during the competition with the Webb line no dividends will be paid or earned, and that it can be bought at very much lower rates before dividends are resumed. Express stocks steady. Erie and New-York Central are active, selling as high as 74¼ and 123¼, closing at 73½ and 123¼. The Western shares are firm, and offered in small amounts. Michigan Southern and North-Western Preferred are in demand. Fort Wayne sold at 101, seller 60. At the close the market was dull and steady at quotations. Government bonds close strong, with an active demand for the 5-20s of '62 and '64; 7.30s were also in request, and offered in small amounts.

Money has been in good supply at 7 per cent, and the payments of the day, which were large, have been made with unexpected ease. Currency has commenced to return to the city, and the remittances from points in this State were quite large. A few millions so returned will relieve the market, and reduce call loans. In Commercial paper the transactions are small at 7@10 per cent.

Exchange is quoted as follows: London, 60 days, 109½@109¾; do., sight, 109¾@110; Paris, long, 5.16¼@5.15; do., short, 5.13¾@5.12½; Antwerp, 5.17½@5.16¼; Swiss, 5.17½@5.16¼; Hamburg, 36@36¼; Amsterdam, 41@41½; Frankfort, 40¼@41; Bremen, 79¼@79¾; Berlin, 71¼@72.

Freights—To Liverpool, 1,500 bales Cotton at 5-16@⅜d., 15,000 bush. Corn at 4d., and by steamer, 1,000 bales Cotton at ¼@⅛d., 7,500 boxes Cheese at 40s., 1,000 bbls. Pork at 38. 6d@38. 9d., 2,000 boxes Bacon at 30s., and 400 pkgs. Lard and Stearin at 30s.

The transactions at the office of the Assistant Treasurer were: Receipts for Customs, $342,000; receipts for Gold Notes, $596,000; total receipts, $5,307,292 59; total payments, $5,084,849 31; balance, $98,246,994 70.

The March traffic of the outer roads is larger. The increase on the North-Western was $98,476, and for ten months the increase is $1,831,037, with no increase of road operations. The stock of this company is strongly sold, and regular dividends as large as those of the New-York Central are deemed certain by its friends. The earnings were for March:

Total.....	$8,483,480 32	$10,314,517 46	$1,831,037 14

The increase in passenger traffic is equal to more than $50,000 per month, and earned at less cost than in 1867.

The Milwaukee and St. Paul earnings are also very large, and are as follows:

1867.....$262,039 | 1868.....$333,281 | Inc.....$71,242

Such is the increase of business on the Marietta and Cincinnati Road, in both freight and passengers, that it will be compelled to build at an early day its independent track down and through Mill Creek Valley. The Baltimore and Ohio Railroad now having a deep interest in this road's welfare, has commenced the reironing of the entire track. The proposed track through Mill Creek Valley will have its line west of and paralel with the present bed of the creek, thus proving a valuable nucleus to the filling up of Mill Creek Valley.

The Chicago Republican of Saturday says:

The pressure on our money market continues. To-day there were very heavy drafts from country bankers, and this rendered currency scarce. The demand for discounts at present is quite active, and our bankers are accommodating their customers at the usual rate of discount, viz., 10 per cent per annum; but outside paper is generally rejected. Mortgage loans are steady at 7@8 per cent per annum. Inferior paper is discounted on the street at rates equal to 12@18 per cent per annum. The market for Eastern Exchange is very weak. Together with the scarcity of currency, there is also a very large amount of exchange being made, and the market is completely glutted. To-day a few sales were made between bankers at a slight discount, but before the close of banking hours, the sales were chiefly at a discount of 75c. @$1 per $1,000, closing weak.
