currency], payable at the company's office in this city, on the first day of January and July. They are offered for the present at par and accrued interest in currency, but *principal as well as interest, is made payable in gold.*

The nature of the security of these bonds may be briefly stated. It is known that the Government gives liberal aid toward the building of the line from Omaha to San Francisco, loaning the company United States bonds to an average amount of $28,000 per mile. For security, the Government takes a second mortgage, the act of July 2, 1864, expressly providing that the company's own bonds (which they are authorized to issue in amount equal to the loan of United States bonds), *shall be a first mortgage,* and take precedence of all other claims whatsoever. The value of the bonds, as an investment, therefore, depends upon the value of the road in itself, and the amount of its business. The road was completed last year 540 miles west of Omaha. That it is built and equipped in so thorough a manner as to make it a first class railroad, is testified by the three Government inspectors who are especially appointed to make critical examination of the work. The construction and equipment costs three times the amount of company bonds issued, and its value must daily augment as traffic increases in the region which it traverses. The net earnings for the eight months ending Dec. 31, as shown above, *were more than three times the interest* upon the company's bonds. In addition to their safety and profit, they offer every convenience of a convertible investment. The gold coupons will be cashed by bankers in any part of the country, and the bonds are themselves taken as securities for loans at the lowest current rates. Copies of the pamphlet for 1868, together with all other desired information, can be obtained at the company's office, No. 20 Nassau-st., or at the Treasurer's office, No. 59 Wall-st.

The bonds are for sale at the Company's office, and by JOHN J. CISCO, Treasurer.

FLOUR AND MEAL—We have again to note a very heavy and depressed market for Western and State Flour; the liberal arrivals both present and prospective, a falling off in the European demand, and a rapid decline in Wheat, have given buyers the advantage, and we note a decline on the low grades; the trade generally have purchased only to supply their present wants, anticipating liberal supplies from the Erie Canal, but in this they are quite certain to be disappointed; from the Lakes the quantity to transship is liberal; this more than any other cause has increased the desire to realize; the medium grades have been pressed for sale, but in them the decline has not been rapid, though at the close, to sell them freely, a material concession would have to be made; Family brands have not been pressed on the market, and have ruled comparatively firm, though to sell large "lines" a considerable concession would have to be made. Although most dealers appear to have confidence in the trade, still there is an absence of anything like a brisk trade in them. We have refaced our stock somewhat, but we still have a good assortment of the various grades. The coastwise and Provincial demand for ordinary brands has fallen off, and the tendency of prices has been downward. The exports of the week reach 20,559 bbls., including 10,076 bbls. to Europe; 4,693 bbls. to South America and the West Indies, and 5,790 bbls. to the British Provinces; and for the corresponding week last year, 10,210 bbls. To the home demand has been only moderate owing the storm, and the market for all grades except choice family brands is 5@10c. lower, and closes heavy; the receipts have been more liberal; the sales are 4,100 bbls. at $8 70@$9 50 for Superfine State; $9 30@$10 35 for Extra State; $10 25@$11 20 for Fancy State; $9 75@$10 25 for the low grades of Western Extra; $10 30@$10 90 for good to choice Spring Wheat Extras; $10 40@$12 20 for Minnesota Extras; $10 20@$10 65 for Shipping Ohio; $10 75@$14 10 for Trade and Family Ohio; $10 60@$12 70 for Amber Winter Wheat Extra Michigan and Indiana; $12 40@$14 for Single Extra White Wheat do. do.; $12 15@$14 10 for Single Extra St. Louis, and $14 00@$17 for Double and Triple Extra St. Louis. California Flour is dull and lower; sales of 300 bags at $12 25@$13 00. Southern Flour is quite dull and heavy; sales of 200 bbls. at $10 25@$11 25 for common to good Extra Baltimore and Country; $11 20@$15 25 for Extra and Family Georgia and Virginia, and $10 75@$15 50 for Extra and Family Maryland and Delaware. Rye Flour is lower and less active; sales of 230 bbls. at $8 15@$8 85. Corn Meal is quite firm; sales of 300 bbls. at $5 45 for Western, and $6 for Jersey. The exports of Flour from Atlantic ports, from Sept. 1, 1867, to date, reached 1,304,131 bbls.

FISH—Bank Dry Cod, $6 50, and Georges, $7 25. Mackerel, $21 for No. 1 Shore; $22 for do. Bay; no No. 2 on the market. Herring, 60c. for choice lots, 42c. for Scaled, and 22c. for No. 1.

FEATHERS are firm at 75@80c. for Prime Tennessee, and 80@85c. for do. Western.

GRAIN—Since the date of our last review there has been quite an active demand for Wheat, but in prices we have had considerable variableness and irregularity. Early in the week the business was confined chiefly to that to arrive, mainly taken for shipment, but Wednesday, under large arrivals from the canal and much firmness in freights, prices declined rapidly, and have since fallen off daily. At the concession we have had a more general demand, but the trade has failed to check the downward tendency, and prices are still quite unsettled. The liberal supplies in prospect induce holders to meet the demand promptly, and buyers have had a decided advantage. This is especially true of Spring Wheat, though Winter is easier and has sold less freely. This, however, is not true of Choice White, which is very scarce, and in demand. Our advices from the West are highly favorable for the growing crop, and the farmers at the North-West are more disposed to sell than early in April, but from all the information in our possession we are of the opinion that the exporting power of the North-West has been overestimated. Our surplus for export to Europe, we think, will not reach five millions bushels, but so much depends upon the weather and the appearance of the growing crop, as well as the prices current here, very little reliance can be placed upon any estimates that can be given. Our millers have on considerable stock, but are now buying at lower figures. The exports for the month of April are 439,535 bush., against 14,000 bush. the corresponding time last year. Toward the close of the market, though more active in the concession, closing strong. The sales are 63,500 bush. at $2 42@$2 43 for No. 2 Milwaukee; 7,500 bush. do., to arrive, on private terms; $2 55 for No. 1 Milwaukee, last evening; $2 65 for Green Bay, and $2 25 for a small lot of White Michigan. Barley has ruled quiet; the supply is large, but the quantity on the canal is not liberal, though ample for present wants; at the close the market is dull and prices are nominal in the absence of sales. Barley Malt has ruled dull, and prices are lower at the close; sales of 1,000 bush. at $2 15@$2 20. Oats have met with a fair demand, but with liberal arrivals both present and prospective prices are lower. Today the demand has been quite active; prices are firm at the close at the outside prices; sales of 65,000 bush. Western at 87@88½c., afloat. Rye has been very much unsettled; soon after our last, retail lots of State were taken by distillers at $2 30@$2 38 per bush., and of Jersey at $2 25@$2 28, but the demand soon abated, and prices rapidly declined, closing lower and unsettled; sales of 1,000 bush. at $2 15@$2 20. Indian Corn has been freely dealt in, chiefly taken for home use; but with large arrivals from the canal and favorable news from Europe prices have declined and have fluctuated considerably, the reaction at the most marked in White, which is scarce and in speculative request. Southern has also been comparatively scarce and has commanded extreme prices. To-day the market is in better and active, the demand being mainly for investment; the sales are 72,000 bush. $1 14@$1 16 for Western Mixed, chiefly at $1 15; Old do. at $1 14@$1 15 afloat; $1 15@$1 15½ in store; Western White at $1 16 in store; do. Yellow at $1 21@$1 22, delivered; Jersey Yellow at $1 12½; Straw-colored and White Tennessee at $1 17@$1 27. The exports of Wheat from Atlantic ports from Sept. 1, 1867, to date reached 5,856,419 bush., and of Corn 6,461,263 bush.

PROVISIONS—The Pork market has been active, and at times very excited, owing to a continued and rapid advance in prices on all grades, the operations have been mostly for immediate delivery, as the extreme rates reached had a tendency to make buyers very cautious. The accounts continue very strong, and have been the main stimulus to operators for a rise, though a steady inquiry for consumption and a clearing out of the "short" interest early in the week gave the "bulls" considerable advantage. For Old Mess there has been an unusually brisk selling inquiry, and large quantities were taken to go to the West Indies at $27 ⅌ bbl., and $28 25. Prime Mess, upon the receipt of news announcing the close of the Abyssinian war, became very dull, but latterly the demand has improved, and prices are stronger. To-day there was less activity, but higher prices obtained. At the close of Change the market became heavy. The sales, cash and regular, are 1,500 bbls. at $26 62½@$26 75 for Old Mess, $29 37½@$29 62½, regular—the latter rate for a small lot, cash. Pork being nominal at $29 25@$29 50 for Extra Prime, and $28 50@$29 50 for Prime Mess. There Beef of desirable quality continues very scarce, and anything really merchantable can be sold without difficulty, closing steady; 50 tcs. Prime Mess and India Mess, sold on private terms. Beef hams have been offered more freely; at the close there is a fair demand and a steady market; sales of 50 bbls., part at $36.
