THE NICOLSON PAVEMENT.

The Nicolson Pavement on Nassau-st., between Wall and Pine-sts., is being repaired for the third time since being first laid. The cause assigned for this unfrequent relaying is that the street foundation is unstable, and requires a general overhauling. The Nicolson Pavement wherever laid in this city shows the same tendency to sink. The foreman in charge of the gang repairing Nassau-st. yesterday stated that until all the soft spots in the streets on which this pavement is laid were made suitably hard, the pavement would show signs of sinking in from three to six weeks, and where travel is heavy much sooner. He also says that it is in the vicinity of sewers that the sinking most generally occurs, and yesterday an experienced sewer examiner was sent down through a manhole to examine the stone work, which was found secure. The same person says that the ground work of the pavement may be made secure by driving short spiles, or, where the sewers prevent this, by laying transverse beams. Mr. Conkey was a few days ago told, while superintending the repaving, that the ground could be rendered perfectly hard, and the pavement prevented from sinking, by a few cartloads of earth or rubble. This, however, Mr. Conkey said he was not authorized to have done, hence, as the foreman says, the work is still incomplete, and will again shortly need repairing.

THE ROBBERY OF AN ARMY PAYMASTER.

Dr. Benjamin Malone, a United States Army Paymaster, in February, 1864, while visiting at the residence of Isaac Newton, was robbed of $68,800, the money being taken from his trunk by burglars. The operators and instigators of the robbery were one professional burglar, a volunteer soldier, a member of the Metropolitan Police, and a Treasury Department detective, who were the instigators. The principals were arrested, and part of the funds recovered, but here the affair was dropped, and it appears from the report of the Congressional Committee of investigation that the detective is still in Government employ.

THE COURTS.

CIVIL.

A motion was made in the Supreme Court, Chambers, yesterday, in the suit entitled "Gates against the Chicago and Rock Island Railroad Company and others," by the defendants, to have the judgment in the Iowa case admitted as a part of the papers in this. No substantial opposition being made, the motion was granted.

The following decisions have been rendered by Judge Sutherland in the Supreme Court, Chambers: Peter Dolan agt. The Mayor, &c.—Motion to continue injunction granted, with $10 costs to plaintiff to abide the event of the action (see mem. of decision). Jacob A. Smith et al. agt. Devine M. Munger et al.—Injunction continued until the trial, with $10 costs to plaintiff to abide the event of the action....By Cardozo, J.—Conrad Schmidt agt. Fredk. M. Gretz—Defendant may serve case within five days on payment of $20 costs. The motion to dismiss the appeal must be made at General Term, but as the disposition made of the other motion to defeat that application, plaintiff may withdraw it without costs.

A suit has been instituted by Henry J. Raymond and George Jones agt. The Mayor, &c., of the City of New-York, for advertising claims which have accrued during the last four years, amounting to $25,664 92. The case came up in the Supreme Court Chambers, before Judge Cardozo, upon a motion to obtain the money by a short cut. The Tax levy of this year authorized the Controller to adjust all claims against the City, and raise money and pay them. The plaintiffs in this case claim that the act imposes a duty on the Controller, and asked the Court to direct him, by a *mandamus*, to adjust their claim at the amount named, and pay it. The counsel for the defense insisted that the whole matter is discretionary with the Controller, and, if not, the only order the Court could make would be that he examine and adjust the claim, without fixing the amount at which he shall adjust it. Decision reserved.

In the case of Peter Dolan agt. the Mayor, &c., in which it may be remembered that the plaintiff applied for and obtained an injunction, to restrain the laying of the Stafford pavement in Seventh-ave., and the defendants thereupon applied to have the injunction vacated. The defendants' motion was denied, by Judge Sutherland, who delivered the following opinion:

"The right to use the Stafford pavement blocks in paving streets is patented, and is held and owned exclusively by a company or corporation. Of course there would be no use in advertising for bids or proposals for doing the work under the ordinance in question, for there could be no competition. According to the reasoning in the case of Dean agt. Charlton (Amer. Law Reg., July, 1868, p. 564) it follows that the Common Council could not authorize the work to be done with or without the form of advertising for proposals, considering Sec. 38 of the Charter of 1857, and considering that the work is to be done at the expense of the lot owners. The distinction in Dean agt. Charlton between it and the Harlem Gas Light Co. agt. The Mayor, &c. (33 N. Y., 309) appears to me to be reasonable and probably maintainable. I think, therefore, the injunction should be continued on this ground without passing upon any other question in the case, with $10 costs to plaintiff, to abide the event of the action."

In the Superior Court, Special Term, the following decisions have been rendered by Jones, J.: Wetherbee agt. Bleecker-st., &c. Railroad Company—Motion granted. Shafer agt. Blake—Motion to vacate order of arrest denied with $10 costs. Gasten agt. Frank, same decision. Henderson agt. Economical Printing Company. Let an order be entered directing payment to plaintiff of sum paid into Court, less $96 78 which latter sum is impounded for defendants' costs. Ayers & Co. agt. Wolf. The justification was proper and sufficient. The motion for a reference is granted and case is referred to St. Clair Smith to hear and determine, with $10 costs to abide event. Shafer agt. Blake. Motion for reference granted and cause referred to John C. Bushnell to hear and determine, with $10 costs to abide event. Blanchard agt. Colby Skirt Company. Motion denied without costs. Jacquemot & Co. agt. Choose. The answer must be stricken out as shown with $10 costs, and motion see memorandum with Clerk.

MONDAY, July 27—P. M.

Gold was strong, opening at 143¾, selling at 144¼, and closing at 144½. The clearings at the Gold Exchange Bank were $28,106,000, and the balances, $1,197,346 49.

Government bonds opened firm, with a good demand for 5-20s of '62 and '65 for shipment. The New 5-20s were also in request, for speculative account, with sales of '67s at 109¼; 10-40s sold at 108¾. State bonds were lower in sympathy with Tennessees, which were again pressed for sale; ex-Coupons selling at 66¾, and New bonds, 66; Virginia ex-Coupon sold at 55; New bonds, 54; North Carolina 6 per cents, of both classes, at 72; Missouri 6 per cents were firm at 91½. Railroad bonds were sparingly offered at full prices. Canton sold at 47¼; Delaware and Hudson, 131; Pacific Mail was steady at 100¾. Express shares were lower; Adams selling at 53; Wells Fargo, 27; American, 46½. The Railway share market opened firm, with moderate biddings at full prices; New-York Central was active, selling at 135; Erie was firm at 68½@68¾; Hudson sold at 138½; New-York and New-Haven, 145; Boston, Hartford, and Erie, 18; Toledo, 103; Chicago and Alton, 137½; the Preferred, 138½. St. Paul stocks, and Toledo and Wabash remain steady, at a slight decline. The North-Western shares were pressed for sale by timid holders, selling at 82½, a decline of 1 per cent from the opening prices of Saturday. Among the statements made to depress the stock is one that the Company are selling one class of bonds at 70 and 10 per cent bonds at 90 for construction. This is entirely without foundation, as the Company have not sold any bonds for over a year for this purpose. The bonds reported selling at 90 are 94 bid in the open market. The only bonds sold by the Company within the year were convertible bonds, which the Company were authorized to sell to replace certain Galena bonds which they are required to cancel each year; the amount is quite small. At the Second Board Tennessee 6 per cents were steady; North Carolinas were weaker, selling at 71½. Railway shares were stronger, and after the call there was an improvement in prices. New-York Central sold at 135¼; Erie, 69; Cleveland and Pittsburgh, 89½; Rock Island, 108½; Fort Wayne, 110¾; Boston, Hartford, and Erie, 18½. The North-Western shares recovered to 83½, and were not offered, except in small lots. The market closed with prices well sustained and few stocks offering. Government bonds closed firm:

The Funding bill adopted in Joint Committee and passed by the Senate yesterday now only needs the signature of the President to become a law, having passed the House by a vote of 101 to 30. Its passage had no effect on the price of bonds, and it will probably become a dead letter. Perhaps it may be used for political buncombe by members of Congress, who will go before their constituents claiming to have used their best efforts to reduce the public burdens by a reduction of interest; but the bill will not satisfy the holders of bonds or anybody else that expected any financial sagacity from Congress. It appears to have failed entirely to comprehend the situation.

The transactions at the office of the Assistant Treasurer were: Receipts—For Customs, $475,000; for Gold Notes, $162,000; total Receipts, $3,305,975 16; total Payments, $2,883,501 59; Balance, $81,786,948 19.

Henry Meiggs of San Francisco has made a contract with the Peruvian Government to build a railroad from Islay to Arequipa, a distance of 100 miles, for the large sum of $12,000,000, or $120,000 per mile. The contract binds him to finish the road in three years, with a penalty of $20,000 for every month exceeding that period, and a bonus of the same amount for every month under three years. The elevation he is compelled to cross in that distance of 100 miles is 7,000 feet above the sea, and the route is mountainous.

The Chicago Tribune of Saturday says:

The local money market shows no change from its condition during the past week. The banks are unanimous in reporting the demand for money as very light, and also that deposits are rather on the increase. Some days ago there were light sellers from the country for money to pay for wool, but within the past day or two they seem to have dropped off, and there is scarcely any currency moving, either in or out.

The Cincinnati Commercial of Saturday says:

The money market was more active than for some days, but wears the same easy expression. Currency is still increasing in volume, and rates of interest have a lower range than for some time past, the regular mercantile paper of customers being quoted at 8@10 per cent, and call loans on collaterals at 6@7 per cent. There is a full supply of money in the hands of outside brokers to place on commercial paper.

On the 13th trains commenced running on the Utica, Chenango, and Susquehanna Valley Railroad from Poolville, starting from that place instead of East Hamilton, which point was reached two or three weeks ago. The rails are laid to Earlville, and it is expected that trains will commence running from that point on the 27th. All the grading on the road was completed on the 15th.

They are grading the track on the Albany and Susquehanna line, and gravel trains are at work. *The Binghamton Republican* says the problem of the line "is no longer a matter of doubtful solution. It has been worked out, notwithstanding State aid was withheld. A few months more and we shall be able to go and return from Albany the same day."

The Ackley and Eldora (Iowa) Railroad Company has been merged into a new organization called the Iowa River Valley Railroad, and is to be extended down the valley to Marshalltown. It is proposed to commence grading on the line immediately.

The cars of the Council Bluffs and St. Joseph Railroad passed over the Nishnabotana bridge on the 11th inst., the last bridge of any importance that the company had to construct. In a few days the road will be completed.

The Cedar Rapids and Burlington and St. Paul Railroad Companies have been consolidated under the title of the Cedar Rapids and Minnesota Railroad Company. Assurances have been received of assistance from the managers of the Pennsylvania Central and Toledo, Peoria and Warsaw Railroads in the negotiation of construction bonds.

The railroad from Springfield to London, Ohio, has been purchased by a party in the interest of the Hamilton and Dayton road, and the proposition is to build at once a new road from London to Columbus, 38 miles, across a very level country, and get up an opposition to the Little Miami line, between Columbus and Cincinnati. It is claimed that, though the route to Columbus via Hamilton, Dayton, Springfield and London would be three miles longer than the Little Miami line—or 123 miles—it can be traversed even in shorter time, because the Little Miami cars have to run at a low rate of speed through Fulton.

The reports of the growing crops throughout the country continue as favorable as they have been during the season. The Winter wheat harvest is nearly over, even as far north as Michigan, in which State the farmers are paying $3@$5 per day for harvest hands, and at these prices are unable to obtain help enough to secure the wheat as fast as it ripens. In Kentucky, the oat crop is cut, and is one of the best ever grown in that State. Corn has come forward rapidly during this hot weather, and is now as forward in most sections of the country as it usually is at this season of the year.

BANKING AND FINANCIAL.

Seven hundred miles of the Union Pacific Railroad, running west from Omaha across the continent, are now finished, and in active operation. One hundred and sixty miles have been built in the last three months. More than 20,000 men are employed, and this average of 40 miles per month will be continued throughout the season, making 900 completed miles by January 1, and it is probable that the entire grand line to the Pacific will be open for business in 1869. No other first-class railroad in the world has been built and equipped so rapidly as the Union Pacific.

The United States Government makes of this railroad a great national work, and aids its construction by very liberal grants of money and of lands. To further insure the speedy completion of the road, the Company are authorized to issue their own first mortgage bonds, having 30 years to run, and having interest coupons payable semi-annually at the rate of 6 per cent in gold. By special provision of the act of Congress, these bonds are made a FIRST MORTGAGE upon the entire road, the Government taking a second lien as security for the repayment of its loan. The principal and interest, at 6 per cent, are PAYABLE IN GOLD. The mortgage bonds of nearly all other railroads in this country are payable, principal and interest, in currency; and it is asserted, without fear of contradiction, that no other Railroad Company in the world, building so great an extent of road, issues bonds of equal value with the first mortgage bonds now offered for sale by the Union Pacific Railroad Company.

The price of these bonds is now 102, and accrued interest from July 1, in currency. The Company believe that at this price, their bonds are the safest and most profitable investment in the market, and they confidently expect that they will shortly command a higher premium than any similar security. The Company reserves the right to advance the price at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance. Subscriptions will be received by the Company's advertised agents throughout the United States, and in New-York at the Company's office, No. 20 Nassau-st., and by

REMARKS.—The market has taken an upward turn again, as compared with this day week, but prices are no higher than they were last Friday, though we advance the rates ½c. per lb for the week. This is in consequence of a lighter run of cattle and cooler weather. The total of 5,200 is 1,300 less than last week, while the 2,750 head on sale to-day is 450 less than were offered last Monday. There is a decided firmness to the market, and, save a few fat cattle which were holding above 17c., about all were sold mostly early in the morning. The stock of to-day was offered, 1,263 at Communipaw, 1,017 at Hudson City, and 464 at One-hundredth-st. Stock sold quicker and at better prices than for several weeks past, the butchers grumbling about weights and threatening what they would do as soon as the advantage was on their side, but did not dare to leave the cattle. First-class and prime steers went readily at 17@17½c., while it is more than probable that a few of the best will prove 18c. when weighed, sellers calling them fully up to what the scales will mark. The quality took a wide range, from the Ohio and Kentucky grades of 7½@8 cwt. at 17c., @17½c. to the Cherokee and Texan rangers, with plenty of horns and legs, but no tallow, and only 4½ cwt of dry, lean and tough beef, at 10½@13c. A lot on sale during the week only averaged about $45 per head, but they were extremely poor, weighing 5½ cwt. Good cattle were in the best demand to-day. From reports of stock on the way—50 cars due at Hudson city to-morrow—it is not probable that prices will go higher at present, but may recede again by another week. A real scarcity of mutton helps the beef trade. The following transactions, all of to-day, give a good idea of the state of the market.

SALES TO-DAY.

B. Westheimer sold 29 good Ohio steers, for J. M. Kauffman, at 16½c. on 7 cwt., and a part of 93 fat Ohio steers, for W. Snyder, 7½ cwt., at the same price.

Gillett, Hendrickson & Florence sold 163 fair 6½ cwt. Illinois steers at 15½@16c.

G. D. Alexander, for himself and Cassell, 131 smooth and well-fed strong 7 cwt. Illinois steers at 16c., a few of the top reaching 17c.

George W. McMahan sold 94 fair Kentucky steers, for Riley & Co., at 16c. on 6¾ cwt.—60 of them wholesaled were retailing at 16@17½c. on 7 cwt., being the best part of the drove.

AT HUDSON CITY.

Coney & McPherson, for M. T. Smith, 51 only medium, 6½ cwt., Ill. steers, at 15@16½c., the average being 16c.; also, 89 for Maxwell & Berry, good, 6¾ cwt., Ill. steers, at 16@17½c.

P. Andrews sold his car load of mixed State cattle, steers, cows, and heifers, 4½ cwt., common, at 11c.

Wildrick & Beardsley, with Beach & Bray, run out 80 common Texans, 5¾ cwt., at $60 each, or 10½c.

D. Barns, for himself and Oakley, 67 fair 6¾ cwt., O. steers, at 16c., and 34 Ind. cattle, 7½ cwt. at same price; also 18 for for M. B. Doty, O. steers of 6½ cwt. at 16c.

AT ONE-HUNDREDTH-ST.

S. Schuster sold 131 Ill. steers, 51 of them 6¾ cwt., at 16c., and 80 of 6½ cwt. at 16½@17c.

P. McCaffrey, for W. Seigle, 34 good 6¾ cwt. Ind. cattle at 16½@17c.

T. Ryan had a car load thin, 6½ cwt., Ind. cattle, sold at 15c.

Eastman & Bro. were selling 63 prime 7½ cwt. Ky. steers at 16½@17½c.

MILCH COWS.—With a light run for several weeks past, milkmen are now looking for a few fresh cows. The stock has been small to select from, and they were obliged to pay a moderate advance. This brings in a larger supply—about twice as many as for the previous week; but nearly all have been sold, pretty generally at $70@$85 each, though a few run down to $47 50, and one very fine, handsome cow, with a likely calf, sold for $118. Very few, however, have reached over $95 per head, calves included.

VEAL CALVES.—These are holding their own, with more offering. An advance in beef, mutton, and pork causes more inquiry for veal, and all kinds of calves go off readily, though prime veals brought up on the cow, without stint of food, find the quickest sale. Thin grass calves sell at 7@8c., one lot of 41 head, weighing 165 lb, bringing $11 each, by Bliss & Dimmick, at Hudson City. S. McGraw sold at Fortieth-st. 23 very poor grassers at $7 each, and 31 veal calves at 10@11½c.—the latter price for a lot averaging 171 lb each. Thirteen head, weighing 146 lb each, brought 10c. A few extra selected calves have been sold at 11½c. ₩ lb, live weight. Hume sold 23 to-day grass calves at 10c.

SHEEP AND LAMBS.—We noticed a ray of light one week ago to-day. That ray burst into a beam by Friday, when good sheep sold at 6@6½c., and some extra lots at 7c. They are doing even better to-day, and are quickly taken upon arrival. The arrivals have been free, viz.: 20,459 for the week, but a good demand for mutton has taken the live stock as fast as it arrived. Lambs bring 9@11c. UNITED STATES GOVERNMENT BONDS, THIRTY YEARS TO RUN AT SIX PER CENT INTEREST. Now RECEIVED BY THE TREASURY DEPARTMENT, IN EXCHANGE FOR THE GREENBACKS BONDS HELD AS SECURITY FOR CIRCULATING NOTES OF THE NATIONAL BANKS.
These Bonds possess the same qualities as all other Government Bonds, except that during the suspension of Specie Payments, the interest is payable in lawful money; they have the very great advantage of having positively 30 years to run, at Six Per Cent Interest, which cannot be changed. On the resumption of Specie Payments they will undoubtedly bear the highest premium of any of the Government Loans.
