THE FARMER.

"He that by the plough would thrive,
Himself must either hold or drive."

Raising Potatoes under Straw.

We clip the following from the Ohio Cultivator, and deem it worthy of full experiment:

Several of our correspondents, within a year, have spoken favorably of the practice of planting potatoes and covering with straw, both as less laborious and more profitable method of raising that crop.—The idea is not new to us. As long as 1824, we saw this method practiced in Vermont, and it was reported highly successful; but for some reason it has not come into general use. The experiments we saw tried were by selecting a short pasture field, dropping the seed at suitable distances over the ground, and then covering the whole with a coating of straw to the depth of a foot or more. In the fall the straw was raked off, and the potatoes picked up all dry. In wet seasons this plan was thought to be very effective.—The Pike county (Ill.,) *Free Press* has been presented with potatoes raised the last season by a Mr. Shipman, of that vicinity, and details as follows:

Mr. Shipman informed us that he planted them in the usual manner and then covered them to about the depth of six inches with straw; after this no further cultivation was required—the straw kept down the weeds, and the potatoes were not desturbed until they were dug. For not only his this method produced him a very superior potato, but it has this year brought him an extraordinary yield, four bushels to the square rod, or at the rate of six hundred and forty bushels to the acre!

He has tried his mode of culture for three years past, and has in every instance found it to bring results superior to the common method. This year he has planted at three different times, with the following results.

Pinkeyes planted on the 24th of March, covered with straw, yield two and a half bushels and four quarts to the square rod,—they were the smallest potatoes.

Pinkeyes planted about the last of June, covered, brought two bushels and a quart to the square rod. These, though the smallest yield, were the largest potatoes, and of the best quality.

Don't sell your best Stock.

Don't allow the speculators and drovers to pick out the likeliest and best of your stock, leaving you only the ordinary and poorest to breed from. It is the worst policy you can adopt, By continuing such a course, it will be but a short time before you will have only ordinary and poor to select from. Supposing you can get a little more for this likely lamb than for the others: you will do well to remember that it costs no more to keep them than it does poor ones; and next shearing time the fleeces will tell the story in favor of keeping the best you have.

If you intend to make a practice of raising a colt every year, keep the best mare you can afford. Haven't you noticed that when a man comes to purchase a young horse he is always particular to know all about the stock, &c., before he concludes his trade? Keep the best, then for yourself.

Dont sell your best cow because you can get five dollars more for her. Keep her, and she will more than make up the difference ere another year comes around—Select the best seed for your own use, and you will always have as good as any one; and be sure of the highest price for any you may wish to dispose of. Think of it:

Equivalent of Various Plants to Hay.—In Berger's *Economy of Farming* there is a "Table of Equivalents" showing how much of one kind of ordinary fodder is equal in nutrimental value to an equal amount in weight and measure of another kind. The following is an extract of this table:

100	pounds of hay are equal to
90	pounds clover hay made when fully blossomed.
98 "	made before it blossoms.
98 "	second crop of do.
98 "	Lucerne hay.
89 "	Sainfoin.
410 "	Green clover.
467 "	Vetches and tares, green.
275 "	Green Indian corn.
374 "	Wheat straw.
244 "	Rye straw.
164 "	Oat straw.
153 "	Pea straw.
201 "	Raw potatoes.
175 "	Boiled potatoes.
339 "	Mangle wurtzel.
504 "	English turnips.
275 "	Garrots.
308 "	Ruta baga.
54 "	Rye (grain)
46 "	Wheat.
59 "	Oats.
64 "	Buckwheat.
57 "	Indian corn.
45 "	Peas.
55 "	Beans.
60 "	Horse chestnuts.
68 "	Acorns.
62 "	Sun flower seed.
69 "	Linseed cake.
105 "	Wheat bran.
109 "	Rye bran.
167 "	Wheat and oat chaff.
167 "	Rye and barley chaff.

An ox requires two per cent. of his live weight in hay per day; if he works, two and a half per cent. A milch cow, three per cent. A fattening ox, five per cent. at first, and four per cent. when half fattened and afterwards. Sheep, when grown, three and a half per cent. of their live weight in hay per day.

Holloway's Pills

A MEDICAL REVOLUTION.

The World Unanimous!

THE GREAT COUNTER IRRITANT!!

THE virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin in summer rain passes into the fevered earth, diffusing its cool and regenerating influence.

SKIN DISEASES AND GLANDULAR SWELLINGS.

Every species of external irritation is quickly reduced by the anti inflammatory action of this Ointment.—Angry Eruptions, such as Salt Rheum, Erysipelas, Tetter, Ringworm, Scald Head, Nettle Rash, Scabies, (or Itch) &c., die out, to return no more, under its application. Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

ULCERS, SORE AND TUMORS

The effect of this unrivalled external remedy upon Scorbutic, and other virulent ulcers and sores is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

WOUNDS, BRUISES, BURNS, AND SCALDS.

In cases of the fracture of the bones, injuries caused by steam explosions, Bruises, Burns, Scalds, Rheumatism, Stiffness of the Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor to person into all the leading Hospitals of Europe, and no private household should be without it.

UNDENIABLE TESTIMONY.

The medical staff of the French and English armies in the Crimea, have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun shot wounds. It is also used by the Surgeons of the Allied Navies.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Heads,
Burns	Rheumatism,	Sore Throats,
Chapped Hands,	Ringworm,	Ulcers of all kinds
Chilblains,	Sa[illegible]eum,	Wounds,
Fistula,	Scalds,	St. [illegible] Joints,
Gout,	Skin Diseases,	Tet[illegible]r,
Lumbago,	Swelled Glands,	Ulcers,
Mercurial Inflammations,	Erysipelas,	Venereal Sores,
	Sore Legs,	Venereal Sores,
	Sore Breasts,	Wounds, all kinds.

*** Sold at the manufactories of professor Holloway 80 Maiden Lane, New York, and 244 Strand, London by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world in pots at 25 cents, 62½ cents, and $1 each.

There is a considerable saving my taking the larger sizes.

☞ CAUTION!—None are genuine unless the words *"Holloway, New York and London,"* are discernible as a water mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding *the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same knowing them to be spurious.

REMOVAL.

CHARLES MAGARGE & CO.

Having Removed from No. 51 Comemrce

TO THE

South-West corner of Sixth and Carpenter Streets.

DOCTOR HOOFLAND'S

CELEBRATED

German Bitters.

WILL EFFECTUALLY CURE

LIVER COMPLAINT, Dyspepsia, Jaundice, Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach. Such as Constipation, Inward Piles, Fullness or Blood in the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating sensations when in a lying posture, dimness of Vision, Dots or Webs before the Sight, Fever, Dull Pain in the Head, Deficiency of Perspiration, yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c. Sudden Flushes of Heat, Burning in the Flesh, Constantly being in the Evil and great Depression of Spirits

can be cured by using the attention of the public.

This preparation does so with the feeling of the utmost fortewfce to its virtues and adaptation to the diseases to which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people and its reputation and extensive sale by many similar preparations evinces. The testimony of those who have given by the most prominent and well-known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietor, and to be had gratis of the agents, cannot but satisfy the most skeptical of its virtues. The remedy is really deserving the great celebrity it has attained, and which it always be satisfactory in its style and reasonable in price.

PENNSYLVANIA TESTIMONY.

Certificate of R. WOODWARD, Esq., the well-known seller for the Dispensary from Works, Perry co., Pa.

DUNCANNON, January 11, 1855.

Dr. C. M. Jackson—Dear Sir—"I was for five years severely afflicted with Chronic Bilious Dysentery, for which I was attended by several of the best Physicians in the country, but all of no avail. I also used various remedies, but could find nothing to benefit me, until I was induced to try your German Bitters, and after taking four bottles of which, I was entirely cured, and am enjoying the best of health."

MORE EFFECTS OF THE GERMAN BITTERS IN DYSPEPSIA AND LIVER COMPLAINT.

Certificates of J. C. CURTIS, Esq., Reporter of the Evening Chronicle, Pittsburg, Pa., who, February 21, 1855, says, "For some weeks past my wife has been using your German Bitters, with a happy effect. She has been afflicted more or less, for several years, with a disease of the Liver and Dyspepsia, and until she commenced using the Bitters, nothing had given her much relief. Her health is now rapidly improving, appetite good, and we have every reason to believe she will be perfectly restored. She says it is the best medicine she has ever used."

NERVOUS DEBILITY.

J. M. HEDGES, Coylestown, Pa., June 20, 1853 says: "My wife has been afflicted with a nervous debility, since September, 1851, since which time I have been unable to find any physician or medicine that would benefit her in the least, until one day I called at the store of Dr. Harvey, of this town, for some tincture of iron, and described to him the affliction of my wife he then handed me a lot of papers to read, among which I found one describing your German Bitters. I immediately procured a few bottles from him, and am pleased to state that the use of the Bitters has done her more good than all the medicine she has heretofore taken. I wish you to send me a half dozen bottles

LIVER COMPLAINT.

J. P. WICK, Martinsburg, Pa., May 22, 1854, says:—"With much pleasure I testify to the virtues of your German Bitters. Sometime since, I was severely afflicted with a disease of the Liver for which I used various remedies, but with no beneficial effect, until I was induced to try your Bitters, which I am now happy to state have entirely cured me."

They are entirely vegetable, free from all alcoholic stimulants, and pleasant in taste and smell. Price 75 cents per bottle.

Sold by Druggists and Storekeepers in every town and village in the United States and Canadas, and by

J. R. MOYER, Bloomsburg.

STEAM ENGINES AND BOILER.

THE subscriber is now prepared, with new Machinery, to build stationary engines, from 5 to 100 horse power, upon the latest improved plans, and will build to order double and single portable engines from 10 to 40 horse power, Rigged upon carriages, with Boiler gearing & pumps all complete and ready for setting. Also—cylinder flues and tubular boilers cast iron coal breaks its patented in 1836, for threshing grain and cracking corn and now made on a large scale for creeking or breaking coal. Heavy mining pumps and fire engines rigged complete with double acting forcing pumps, any kinds of mill gearing and house casting made to order. Lime shafting with any desired sizes of pulleys finished with hangers. Ironplaning done, say 24 feet long: any kinds of Iron turning heavy press and other screw turned with any desired pitch of thread.

The best Rough Iron threshing Machines, that ever come before the public, cast Iron and wooden machines now on hand. Iron and wood pattern of every description made to order. Also takes orders for the following machinery: Harrison's latest patent grain mill, $1000 offered by the Patentee for its equal. It will grind in good fine meal 25 bushels in one hour. Also bolts and elevators all in order, also Huggle's Patent Blower, manufactured by G. D Harris & Co., the most powerful Blower now in use, with the least amount of power, one of which will be put in use at the Foundry for exhibition. All of the above works will be warranted to be what they are sold for.

Also—Take orders for Scott's Patent Blacksmith Striker, and right to use them in the counties of Columbia, Montour, Northumberland, Lycoming, Sullivan and Clinton, one of which can be seen at my shop.

SUPER-PHOSPHATE OF LIE.

THE subscriber present to the notice of Farmers and others interested, the above article. The excellency of our preparation has been so well known for many years past, that it needs no comment, unnecessary to say much in respect to its merits, but merely remark that during a long series of years, its purity and value as a stimulant for the growing crop, and as a

Permanent Manure

have been thoroughly established.

Our Super Phosphate of Lime is not changed in its character every season, but is what it purports to be uniform in its chemical constituents, and is relied upon as the best Fertilizer in use for

CORN, OATS, WHEAT, POTATOS, GRASS,

and other crops requiring a vigorous and lasting manure.

Pamphlets describing it and the mode of applying, can be had gratuitously at our stores, or by mail when desired.

CAUTION.—Be particular to observe that every barrel of our article has *our name and that of Pitts and Kirk* branded on the head. This Caution is rendered necessary, as there are so many articles of doubtful value sold under the name of *Super Phosphate of Lime*, as to mislead those who are unacquainted with the value of a Genuine Article.

Price $45 Per 2000 lbs. 2¼ cents per lb.

A liberal deduction made to DEALERS.

Since last fall there has been imported but one *cargo* of the celebrated

PACIFIC OCEAN GUANO,

which we offer for sale in small lots.

FISH MANURE.

A supply of this valuable article for sale.

Price $30 per 2000 lbs. 1½ cent per lb,

NO. 1 GOVERNMENT PERUVIAN GUANO.

For sale at the lowest rates.

The leading Agricultural Journals and Newspapers are regularly filed at our office for the use of Farmers.

OILS.—A full assortment of Oils, suitable for Miners and Store keepers' use, SPERM and adamantine Candles.

☞ We are also agents for Kingsford's & Sons, Oswego Pure Starch, corn starch and Prepared corn.

ALLEN & NEEDLES.

STATE SAVING FUND

OFFICE---Next door to the Post Office.

No. 83 Dock Street, Philadelphia.—1854.—*INTEREST FIVE PER CENT.*

ALL SUMS OF MONEY RETURNED ON DEMAND.

THE STATE SAVINGS FUND, No. 83 Dock Street, next door to Third Street, and adjoining the Post Office, receives money on deposit daily from 9 in the morning until 3 in the afternoon; also Monday evening, from 7 to 9 o'clock. Interest is allowed on deposits at the rate of FIVE PER CENT per annum. Deposits will be returned in whole or in part on demand without notice.

The popularity of this Office with all classes of the community, in this town and country, and its consequent success, may be ascribed, in part, to the following substantial reasons:

1st, It offers an convenient, responsible and profitable Depository to Executors, Administrators, Assignees Collectors Agents, and all public officers—to Attorneys, Trustees, Guardians and Associations, whether incorporated or otherwise—to married or single ladies—to Students, Merchants Clerks, and laborers in Mechanics, Farmers, Minors at their wages and all who have funds, much or little to deposit, where they may be had any time with five per cent interest added.

2d. Depositors receive
