IRON—The stocks of Scotch Pig Iron here is about 1,500 tons. The arrivals for the past year have fallen off fully one third of 1867. The high rate of freights from Europe preventing importations. American Pig Iron has sold at gradually advancing prices—from $35 in March to $42 in December. It fell off in January and February $40 to $35 for No. 1, and gradually rose in price as above. The production has been increased nearly 10 per cent, while the consumption has taken all that was made, so that there are no stocks of American now on hand. The prospects of next year never were better, and the makers of iron all feel in good spirits.

PROVISIONS—The pulse of our Pork market the past week have exercised very decided contrast to that of the previous week. The feeling has almost entirely subsided. A more conservative feeling has distinguished the market, which we regard as favorable for a healthy trade the coming season. Under the great depression which prevails almost all branches of trade, the consumption of this staple will be moderate, especially should present prices be maintained. The large months, cheaper animal food being taken in its place, and at times of the week has been very light, confined to job lots, and at times of the week has been very light, confined to job lots, shown great activity and very irregular prices. Dealers generally have had a tendency to operate for a decline, and prices have declined and have been quite nominal from day to day until Wednesday, when a stronger feeling was observed, though buyers still seemed unwilling to operate to any extent, and the market was free of Pork, nothing to operate to any extent, and the market closed steady, with a tone at the close the market was firm. Beef has been large for the season, and the arrivals have been fair, but the demand has been quite active; prices have advanced and close firm. The demand for Beef Hams has been quite active; prices have advanced and close firm. Beef Hams have been in fair demand, and holders firm. Cut Meats have ruled very firm, and have been in good demand, and holders firm. Beef Hams have been in good demand, and holders firm. Cut Meats
