Fever and Ague,

from which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasm or vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and excreting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails. Then the FEVER follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through the other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the fits or paroxysms of FEVER AND AGUE. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an antidote.

Ayer's Ague Cure,

which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this afflictive disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from, the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Bilious Headache, Bilious Fevers, Neuralgia, Rheumatism, Gout, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hysterics, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "AGUE CURE" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habituated to do this their office of their own accord. Hence arises what we term *acclimation*. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the miasmatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good.

HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND,
FEVER AND AGUE.

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound prepared on scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country.—Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and in fact, infusing new health and vigor in the system.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

THE LIVER

INVIGORATOR

PREPARED BY DR. SANFORD,

Compounded Entirely from Gums,

IS ONE OF THE BEST PURGATIVE and Liver Medicines now before the public, that acts as a cathartic, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operation of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principal organs of the human body; and when it is well, the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the liver for the proper performance of its functions; when the stomach is at fault, and the whole system suffers in consequence—the LIVER—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and what is better, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken at night; loosens the bowels gently, and cures CONSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two taken at night will always relieve SICK HEADACHE.

One bottle taken for spoonfuls will always remove the cause of the female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventative of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes good digest well.

One dose often repeated cures CHRONIC DIARRHŒA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by Worms in Children; there is no surer, safer, or speedier remedy in the world, as it "never fails."

A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILLOUS TYPE,—It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

☞Mix water in the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of LIVER Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a DISEASED LIVER.

Price Ten Dollars, by Mail or Express.

A CURE WARRANTED.

DR. AMOS and SON have devoted their attention exclusively to this peculiar class of maladies, and the relief they have consequently been able to render their fellow-creatures, is fully testified and gratefully acknowledged by convalescent patients and others daily arriving in town, from all parts of the country, for the express purpose only of consultation, while their exertions have been crowned with the most signal advantages; yet from what they have experienced in enquiring into the causes of those infectious complaints, (from their most simple condition to that of the most dangerous and inveterate,) they have always entertained the possibility of their prevention and removal, and likewise invariably found that the most horrible and malignant forms of disease could almost invariably be traced to one of the following causes:—Ignorance, neglect, or the ill effects of unskillful or improper treatment; therefore Dr. AMOS and SON have succeeded in discovering, in the selection of their remedies, a safe, effectual and cautious course; omitting all combination of remedies which bear an equivocal character, as well as those whose premature or injudicious application might be productive of bad consequences in the hands of private individuals. In short, the laudable end of their remedies is the lessening of a great mass of human misery by the alleviation, relief and prevention of those grievous afflictions that are in reality the secret foe of life, and which, while they so extensively surround us, call aloud for our skill and interference for their extermination.

DAILY EMPIRE.

Impressive Warning.

A young man who was sentenced to the penitentiary for burglary, at New Lisbon, wrote while in jail, the following affecting verses.—We copy them for the fine moral which they convey, and for the influence which we hope they will exert upon our youthful readers, who may be primarily tempted to break the Sabbath, or ultimately to break into a house:

Young friends! young friends! come learn of me
A sad and mournful history,
And may you not forgetful be,
Of the lesson you are taught of me.

I scarce had reached my first year,
When father died, who loved me dear;
They laid him in the silent grave,
And I was left the world to brave.

No more a father's voice I heard,
But still a sister's plays I shared;
No more was I a father's joy,
But a poor helpless orphan boy.

Youthful, thoughtless, wild and gay,
Oft times I broke the Sabbath day,
In wickedness I took delight,
And did, I know, what was not right.

Young friends, young friends, be warned by me,
And shun all evil company,
And walk in ways of righteousness,
And God your soul will surely bless.

Oh! very well I mind the day
When I from home did go away,
And to my sorrow since in life,
I thought to lead a soldier's life.

My day of trial is now at hand,
And I before the Judge must stand,
And by the verdict of this day
The Judge will sentence me away.

Young friends! I'll bid you all adieu,
My native home and kindred too,
On Heaven's high and flowery plain,
I hope we all may meet again.
March 23, 1856.

☞The New York Herald of Wednesday says:

"On Monday last, the exchanges at the Bank Clearing house in this city were larger than they had been on any day since August 17, 1857, just before the crisis. This little fact shows the tendency of affairs. It is one of the many indications around us which tell the tale of returning commercial prosperity. According to present appearances the United States are destined this year to see a period of commercial activity and general speculation such as they never knew before."

☞The Keokuk Gazette of the 7th says.

So far as we can learn the crop of winter wheat did well and looks remarkably promising. But there was but very little of it put into the ground last fall. Thus far the season has been unfavorable for sowing spring wheat, seed has been scarce and a considerable portion of what has been sowed failed to grow from some defect in the character of the seed. We cannot expect a very abundant crop of wheat or oats in Iowa the coming season, and, therefore, greater efforts should be put forth upon corn, potatoes, &c.

GRAND RAPIDS AND INDIANA RAIL-ROAD.—The rumor is unfounded to which we alluded yesterday, that Messrs. Beckel & Jones intended to give up their contract to build the Grand Rapids and Indiana Rail road.—On the contrary, we are informed by Mr. Jones that his firm intends not only to keep on their present force, but expect to largely increase it in the course of a few weeks. We are glad of this, as it is a guarantee that the road will be finished by the time prescribed by law, and by the terms of his contract.—It is also his intention to sub-let the whole of the work from Grand Rapids to Kalamazoo within a very short time, and also the work from the north end of the twenty miles, north of Grand Rapids to the north bank of Muskegon River. Mr. Beckel is able physically and pecuniarly to do this whole work.—*Grand Rapids Enquirer, 15th inst.*

WITH THIS LITTLE MACHINE the cook or the 'good man of the house' can make in a very few minutes daily as much fresh meal, from corn or other grain, as the family can use, and thus save all of the

Fuss and trouble of going to mill,

to say nothing of the knowing that the miller would take for toll, or the luxury and healthfulness of fresh made meal ground to suit your fancy, instead of such as has been nearly spoiled by over grinding, or quite spoiled by long keeping, as is the case with that generally procured at the custom mill, grocery or market stall.

It makes No. 18 meal at the rate of about one bushel per hour, when turned, say sixty revolutions per minute, and two or three times that quantity when run by bolt from a horse power or other machinery, which latter may be done by putting a pulley in place of the crank. It grinds spices, etc., with great facility, and is recommended with confidence to all who like sweet coarse bread, meal, hominy, samp, etc., etc., and especially to hotel keepers for grinding spices, or Coffee.

Price $7,00. Boxed and delivered on cars or to Express co. Shipping weight, 75 pounds.

Important to Fruit Growers!

A Sure Remedy for Decaying Orchards!

THE Subscriber, as Agent, is in possession of Best's receipt for preserving Fruit Trees, shrubbery, Grape Vines, etc. It imparts new life and vitality to trees, preserving them sound and thrifty, causing them to bear fruit in abundance, much larger and better than they do without it.

This compound gives life to the tree and strength to the bud, which prevents the fruit from being injured by frost, unless it be extraordinarily severe.

It is an invaluable receipt for Nurserymen, causing the young tree to grow as large in two years, as they would in three years without it, thus making it more thrifty and bringing it into market one year earlier. It is also a sure remedy for worms and all insects.

The ingredients are cheap, costing not over $2 for 500 trees.

County, Township, and individual rights, sold on liberal terms.

READ THE FOLLOWING:

CINCINNATI, O., February 18, 1857.

This is to certify that I have examined the samples of J. Beckley and Co.'s Cement and Composition Roof, and can say that I think them equal, if not superior to any Cement or Composition Roof now in use. I have one on my house, adjoining to where I was lately burned out, and must say that it stood the test admirably. D. A. POWELL.

CINCINNATI, June 20, 1856.

This is to certify that we have employed Messrs. J. Beckley and Co. to put their Cement Roof on our foundry at the west end of Eighth street, and thus far it has given entire satisfaction, having been fully tested by severe rains, etc. The burning of a large frame warehouse adjoining, scorching our wood work and destroying our glass, produced no effect on our roof.
