Fever and Ague,

from which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasm of vegetable decay. This exhalation is evolved by the action of solar heat on our soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and excreting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails. Then the FEVER follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through the other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the fits or paroxysms of FEVER AND AGUE. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an antidote.

Ayer's Ague Cure,

which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, it does cure this afflictive disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from, the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Bilious Headache, Bilious Fevers, Neuralgia, Rheumatism, Gout, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hysterics, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "AGUE CURE" removes the cause of those derangements, and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habituated to do this their office of their own accord. Hence arises what we term *acclimation*. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the miasmatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good.

HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND,
FEVER AND AGUE.

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, despondency, costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound prepared on scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the european States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country.—Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and in fact, infusing new health and vigor in the system.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

THE LIVER INVIGORATOR

PREPARED BY DR. SANFORD,

Compounded Entirely from Gums,

IS ONE OF THE BEST PURGATIVE and Liver Medicines now before the public, that acts as a cathartic, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operation of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principle organs of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of its queues of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in the practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and what is better, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken at night; loosens the bowels gently, and cures CONSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventative of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHŒA in its worst forms, while SUMMER BOWEL complaints yield almost to the first dose. One or two doses cures attacks caused by WORMS in Children: there is no surer, safer, or speedier remedy in the world, as it "never fails."

A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

☞ Mix water in the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of LIVER Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a DISEASED LIVER.

CONFIDENTIAL MEDICAL ADVICE!!

AT the Buffalo Private Hospital—Established for the cure of Syphilis, Seminal Weakness and the Secret Infirmities of Youth and Maturity by Dr. AMOS & SON, Buffalo, N. Y. Office, corner of Main and Quay streets, (up stairs.)

A MOST SCIENTIFIC INVENTION.

An instrument for the cure of genital Debility, or Nervous Weakness, a disease properly known as Seminal Weakness, etc. Can be permanently cured in from fifteen days to two months, by the use of this instrument, when used conjointly with medicines.

YOUNG MEN TAKE PARTICULAR NOTICE.

Dr. AMOS and SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia and New York; it has been declared the only useful instrument which has ever yet been invented, for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth. Price Ten Dollars, by Mail or Express.

A CURE WARRANTED.

Dr. AMOS and SON have devoted their attention exclusively to this peculiar class of maladies, and the relief they have consequently been able to render their fellow-creatures, is fully testified and gratefully acknowledged by convalescent patients and others daily arriving in town, from all parts of the country, for the express purpose only of consultations, while their exertions have been crowned with the most signal advantages; yet, from what they have experienced in enquiring into the causes of these infectious complaints, (from their most simple condition to that of the most dangerous and inveterate,) they have always entertained the possibility of their prevention and removal, and likewise invariably found that the most horrible and malignant forms of disease could almost invariably be traced to one of the following causes—ignorance, neglect, or the ill effects of unskillful or improper treatment; therefore Dr. AMOS and SON have succeeded in discovering, in the selection of their remedies, a safe, effectual and cautious course; omitting all combination of remedies which bear an equivocal character, as well as those whose premature or injudicious application might be productive of bad consequences in the hands of private individuals. In short, the laudable end of their remedies is the lessening of a great mass of human misery by the alleviation, relief and prevention of those grievous afflictions that are in reality the secret foe of life, and which, while they so extensively surround us, call aloud for our skill and interference for their extermination.

COUNTRY INVALIDS.

Persons in any part of the world may be successfully treated by forwarding a correct detail of their case, with the remittance for medicines, etc.

GOVERNOR DOUGLAS AND THE TRADER.—A correspondent writing from Santa Clara Bar, Fraser River, to the Mariposa Star, tells the following:

Governor Douglas was in a store at Fort Yale, a short time ago, when an Indian came in and purchased a flag. The Governor inquired of the trader, "do you sell the American flag here?" "Sometimes we do," the trader observed. "Englishmen never sell *their* flag," remarked the Governor—while a smile passed over his benign (? *be* ?) countenance. "There is no demand for it here," retorted the trader, and the Governor "dried up."

The canoes of both whites and Indians carry the American flags at the stern of their respective craft. Mr. John Bull does not like it much; the sight of it no doubt awakens unpleasant reminiscences.

A TEXAS EDITOR KILLED.—The Marshall (Harrison County) Flag of the 8th has the following:

We learn through the McKinney Messenger that a young man by the name of Sadler shot and killed almost instantly John M. Crane, editor of the Independent, published at Bonham, while the latter was passing a drug store in that place, where it would seem his assailant was in wait for him.—Mr. Crane had given his slayer a severe caning a few days before. Sadler had his horse in readiness, mounted him and immediately fled.

☞ The editor of the Nashville News states from personal observation during a late trip into the country, and from information derived from the local newspapers as well as from reliable personal acquaintances with whom he has conversed, that the growing wheat crop of Tennessee is quite promising of an ample yield, but that the breadth of land sowed down in that cereal is not one third as great as it has been in any one of the last three or four years.

ACCURATE JOURNALISM.—In the report of the Sickles trial as published in the Herald the name of John Graham is uniforly stricken out, and "counsel for the defence" substituted. The reason is found in the fact that some years since, Mr. Graham and the editor of the Herald had a personal difficulty in Broadway. Since that time the Herald's reports have been regularly mutilated, so as to prevent its readers from knowing that there is such a man as Mr. Graham in existence! This is a specimen of high toned and conscientious journalism, in which the public interest is steadily sacrificed to the private resentments of the editor.—N. Y. Times.

THE LITTLE GIANT.—The New York *Sun* says: "Judging by present popular feeling in the Northern States, there is but one man that the Democracy can certainly and triumphantly elect, and that is Douglas of Illinois. The politicians may make as many arrangements and combinations as they please, but the people are thoroughly for Douglas now, as they were for old Rough and Ready in 1848."

☞ A man named Baugh has been convicted in the Tippecanoe (Ind.) Circuit Court of cattle-stealing, and sentenced to two years confinement in the State Prison. Before arrested on this charge, Baugh was considered a highly respectable citizen, being a farmer in good circumstances and a prominent member of the church.

"Charley," said a father to his son, while they were working at a saw mill, "what possesses you to associate with such girls as you do? When I was your age I could go with girls of the first cut." "The first cut is always a slab," said the son, as he assisted the old man in rolling over a log.

PUSEYISM.—A pamphlet entitled "Facts and Documents, showing the alarming state of the Diocese in Oxford," has raised some commotion in England. It describes Oxford as the center of a Romanizing movement, and specifies fifteen peculiar innovations. It professes to come from a senior clergyman. Twenty-six archdeacons and several deans have insisted on a memorial to Dr. Wilberforce, against whom the pamphlet was leveled, expressing their belief that the charge is false and calumnius. Dr. Wilberforce, in reply denies the charge.

[No. 58.] AN ACT

To amend the act entitled "An act to amend the several acts incorporating Mutual Fire Insurance Companies in the State of Ohio," passed March 27, 1841.

Section 1. Be it enacted by the General Assembly of the State of Ohio, That section two of the above recited act be so amended as to read thus: Sec. 2. It shall be the duty of the court of common pleas in each county in this state in which the office of any mutual fire insurance company may be situated, on the application of any three or more persons interested, to appoint one or more suitable persons resident in such county, to make a thorough and careful examination into the affairs and condition of such company. Such person or persons so appointed shall have power to require the production of all books and papers belonging to such company or pertaining to their business, and to examine under oath all the officers, servants or agents of such company, or any other person, touching its affairs and conditions which oath may be administered by any person appointed to make such examination. And the person or persons making the examination shall report thereon, fully setting forth the condition of the company, to the court appointing them, at its next regular term, and shall transmit a copy of such report to the speaker of the house of representatives forthwith, if the legislature be in session, or, if not, then at the session next thereafter ensuing; and such examiners shall each receive two dollars per day for the time actually employed in making the examination and report, to be paid out of the treasury of the company so examined: Provided that such examination shall not be had oftener than once in six months.

Sec. 2. That in case any officer, servant, agent or other person shall fail or refuse to appear before such person or persons so appointed as aforesaid or shall refuse to testify or to produce before such examiner or examiners any books or papers in his, her, or their possession, and required to be produced, such failure or refusal shall be deemed a contempt, and shall forthwith be reported to the court by such examiner or examiners, and said court shall punish the person or persons in contempt in the same manner and to the same extent as though such contempt had been committed against said court.

Sec. 3. Original section two of the act to which this is amendatory, is hereby repealed. This act shall take effect upon its passage.

WILLIAM B. WOODS,
Speaker of the House of Representatives.
E. BASSETT LANGDON,
President, pro tem., of the Senate.

[No. 67.] AN ACT

To authorize Courts to give effect to the intention of parties and officers by curing defects, omissions and errors in instruments and proceedings.

Section 1. Be it enacted by the General Assembly of the State of Ohio, That in all cases wherein any officer or officers, party or parties, person or persons, or body corporate, or persons intending and undertaking to become a body corporate has heretofore made or may hereafter, by reason of inadvertence or otherwise, make any omission, defect or error in any instrument in writing, or in any proceeding, whereby the same shall not be in strict conformity with the laws of this State, it shall be competent for the Courts of this State, and they are hereby authorized to give full effect to all such instruments and proceedings according to the true and manifest intention of the parties thereto.

Sec. 2. That whenever any such error, omission or defect shall have occurred or may hereafter occur in any instrument or proceeding, which is required to be made a matter of record, it shall be competent for any party or parties, person or persons, body corporate or persons intending and undertaking to become a body corporate having or claiming an interest in the correction of such error, omission or defect to file his, her or their petition in any Court of Common Pleas having jurisdiction in the premises setting forth particularly the error, defect or omission complained of, and ask an order of such Court for the correction thereof; and in all cases where such application is made by any body corporate, or by persons intending and undertaking to become a body corporate, such Court upon being satisfied, that notice of such application, specifying the error, defect or omission complained of, and of the time and place of hearing the same has been duly published for six consecutive weeks in some newspaper in general circulation in the county where such application may be made, and in all other cases wherein the party or parties interested have been duly brought before the Court in the manner prescribed by law for making service in civil actions, and upon being satisfied that such mistake, error or omission has been made, shall grant and make an order to correct the same, which order shall be filed in the office in which such record is required to be kept, and from and after such fil
