Freights—To Liverpool, by sail, 1,000 bales Cotton at 3-16d., and, by steam, 7,000 bush. Wheat at 6½d.; to London, 500 bbls. Flour at 2s. 6d.

The testimony of the President of the Erie Railway Company before the Investigating Committee at Albany, acknowledging the bankrupt condition of the Company, was considered a full justification of the Pennsylvania Legislature in preventing the Fort Wayne Road from being swamped by that concern. The sale of $23,000,000 of convertible bonds at 40, and the statement of the officers of the Company that unless they can continue to issue more they must lose control of the road, fully warrants any solvent road in keeping out of their clutches by any means they can bring to bear.

At the annual meeting of the Stockholders of the Atlantic and Great Western Railway Co., held on Saturday, the following Board was elected: Henry G. Stebbins, Andrew H. Green, Edwards Pierpoint, E. Wesson, T. W. Kennard, E. McDermott, R. L. Cutting, jr., John D. Prince, John Gardner, Mortimer L. Mackenzie, J. P. Fenner, Rush C. Hawkins, W. Archdall O'Doherty, Wentworth Huyshe, New-York; Tatlow Jackson, Philadelphia; Sir William Russell, M. P., John Fildes, M. P., E. L. J. Ridsdale, J. W. Chaytor, Paul Margetson, London, England; F. W. Oswel, Amsterdam, Holland. After organizing, the new Board unanimously elected the Hon. Henry G. Stebbins, President, and W. Archdall O'Doherty, Vice-President.

BANKING AND FINANCIAL.

OFFICE OF FISK & HATCH, Bankers and Dealers in Government Securities, and Financial Agents of the Central Pacific R. R. Co., No. 5 Nassau-st., New-York, Feb. 5, 1869.

The CENTRAL PACIFIC RAILROAD COMPANY have this day withdrawn from the market their FIRST MORTGAGE BONDS. They do this in consequence of negotiations, by which the full amount of Bonds which the Company now deem it necessary to sell to complete their line, have been disposed of.

We shall continue to deal in the Bonds, and whenever they can be obtained, we will fill orders at the current market rates.

The successful negotiation of this Loan, the immense value of the property upon which it is a First Mortgage, the large Earnings of the Road, together with the high credit of the Company, its judicious and honorable management, and the prosperous condition of its affairs, place the FIRST MORTGAGE BONDS OF THE CENTRAL PACIFIC RAILROAD COMPANY among the most popular, safe and desirable Securities in the market.

The Seven Per Cent State Aid Bonds of this Company originally negotiated by us at from 98 to par are now selling at 108 to 110 and accrued interest.

It is expected that the Road will be completed, and the through connection across the Continent formed within a few months, when the through traffic, added to the growing local business, will render it one of the most successful railroad enterprises in the world.

THE MARKETS.

[Carefully reported for The Tribune.]

SATURDAY, Feb. 6, 1869.

ASHES—The market is steady and fairly active at $7 75@$7 87½ for Pots, and $8 12½ for Pearls.

COTTON—The very small receipts at the ports have caused considerable excitement to-day, and spinners and speculators have operated freely. Prices are ¼@¼c. higher and firm, though at the close the feeling is a little quiet. Including 135 to arrive, the sales are 12,359 bales, of which 862 were taken by spinners, 5,293 by speculators, 6,204 by exporters, 2,368 of the latter in transit; sales also of 100 bales for February and March at 29½c., and 100 for April and May at 29½c. We quote as follows:

	Uplands and Fla.	Mobile.	N. Orleans.	Texas.
Ordinary	28	28½	28½	29½
Good Ordinary	29	29½	29½	29½
Low Middling	29½	30	30½	30½
Middling	30½	30½	31	31½

COFFEE—Prices on all grades of Rio are firmer and steady for Prime West Indies, &c., but no demand.

FLOUR AND MEAL—Since our last review we have had rather a quiet and variable market for Western and State Flour; early in the week buyers of most grades had some advantage, but since Tuesday there has been more steadiness in all grades, and in brands under $7 50 some advance has been established, with a more general inquiry, and a better feeling is apparent with holders of all grades. The great falling off in the receipts, as compared with last year, and a very decided increase in our exports, as compared with the corresponding period last year, is attracting the attention of the trade. Our assortment of the high grades is much diminished, and as it is well known that there are but few mills at the West are idle, because Wheat cannot be had, so that Flour can be placed here at anything like the figures current here, hence it seems unreasonable to press sales in view of these facts, and there is evidently far less disposition shown to realize, and more steadiness is apparent since Wednesday in Family grades, and very few holders will sell them at last week's prices. To-day there was a fair demand; the low grades are a shade firmer, and the medium brands steadier and in speculative request; the sales are 7,600 bbls. Canadian Flour is dull and nominal. California Flour is dull and heavy; sales 140 sacks. Southern Flour is also dull, especially the medium brands; the sales are 300 bbls. Rye Flour is offered more freely and is heavy; sales 100 bbls. Corn Meal is steady, but quiet; sales 270 bbls. Buckwheat Flour is firmer and in fair demand. The closing quotations are as follows:

GRAIN—Our Wheat market has been very quiet, and prices of all kinds have favored the buyer, notwithstanding the more favorable news from Europe. The limits of most foreign orders are below the current rates, and the business of the week has been extremely light. At the present prices here there is margin for shipment from Upper Lake ports, and considerable supplies are expected by rail; this has exerted some influence in restricting purchases. Our millers have purchased but little, as prices of Spring are relatively higher than flour, and hence there have been but little reductions in our stock since Saturday. Winter Wheats have sold slowly, and prices are entirely nominal. To-day the market is dull and tame. The demand is chiefly for home use, though in part for export. Winter is neglected, and prices of Amber are quite low. The sales are 36,000 bush. at $1 65 for Mixed Western, $1 68@$1 69 for No. 1 Chicago Spring, and $2 15 for White Michigan. Rye is in reduced supply, and is fairly active, the demand has improved a little, but as the stock is regarded as small, most holders are not disposed to press sales. At the close the market is easier, though fairly active; sales of 17,000 bush. Canada West at $2 13. Barley still has been in moderate demand, and is rather lower; the supply is ample, closing steady, with a fair demand; sales of 2,500 bush. at $2 10@$2 16, five-rowed in moderate request, and the imported, the stock is not large, sold at $2 20@$2 22 for Canada West, and $2 25 for Canada East. Oats have been comparatively quiet, though a fair business has been done at very irregular prices; the receipts have been light, and we have lowered our stock daily. There has been less inclination to purchase for future delivery, but most holders are confident; at the close the market is better and quite active; sales of 28,000 bush. at 70@70½c. for New-Western, in store, and 71@71½c., afloat. Indian Corn has been freely offered, and with less inquiry; prices have fallen, and more lenient to Graphic buyers have had a decided advantage, and prices are much lower and unsettled; low prices current at the West, and the liberal supplies in prospect, have induced many holders to realize. Our stock of Old is much reduced, and there is little doing to call it Than New; the consumption at present prices is large. To-day the market opened lower, but closed quiet. The inquiry is mainly for the home trade, though there is a fair inquiry for export; sales of 80,000 bush. at 74@75c. for Damp and Unsound; New-Western Mixed at nominal, and Extra Western at $1 01@$1 02, and Western White at 82@83c., Western Yellow at 92c.; Southern White at 84c.; Southern Yellow at 83c.; Southern Straw at 81c., and Jersey Yellow at 81@82c. PROVISIONS—We left our Pork market the day week very dull and much depressed, the trade only buying in very limited quantities, having no confidence in present high prices, as their trade is extremely light, but when the month's report of stock was made public there was a decided change in the tone and spirit of the market. Holders became anxious to sell, and offered it more freely, and prices advanced rapidly, and much more decided to-day than at the close of last week, and prices are now improved daily, though since Wednesday the extreme prices asked have greatly receded.
