OFFICE COMMERCIAL PRINTER, WASHINGTON, February 12, 1869.
PROPOSALS for ENGRAVINGS of the ILLUSTRATIONS accompanying the Report of the Commissioner of Patents for the year 1867.—SEALED PROPOSALS will be received at this Office until 3 p. m. on Tuesday, March 16, 1869, at 12 o'clock, for furnishing one set of electrotype copies of the ILLUSTRATIONS OF MACHINERY, &c., accompanying the Report of the Commissioner of Patents for the year 1867, with the same of the patentee and the character of the patent on each illustration, or for otherwise furnishing the illustrations for that report.
The drawings will be furnished on paper to the contractor, who must arrange them into pages in numerical order, in nearly as the number of entries will allow, and in such manner as may be considered with neatness and compactness. The work is to be delivered at this Office free of cost for transportation, and subject to the approval or rejection of the Congressional Printer.
The Joint Committee of Congress on Public Printing would prefer to have the work executed in the Establishment for the Patent Office Reports of 1867, in accordance with the standard heretofore adopted by them, and they invite proposals for that quality of work, but a desire to reduce the expense of this branch of the public printing prompts them to also invite proposals for electrotype plates of as inferior style of workmanship and size for furnishing the illustrations by engraving, lithography, or any other process.
The award will be made "to the lowest and best bidder for the interest of the Government, due regard being paid to the execution of the work," under the direction of the Joint Committee on Printing, who reserve the right to reject any or all of the bids.
Bidders must procure from the Congressional Printer drawings of Illustrations sufficient in number to form a page, and work accurate in their bids with a specimen of that work; or in lieu thereof, satisfy him that they have made in the establishment of that bidder, and that he possesses the necessary facilities for the prompt and proper execution of the work. If the bid is for supplying electrotype plate pages, one of those pages must be furnished, that it may be subject to practical tests.
Bidders are required to propose for the work by the illustration, with the understanding that, when more than one figure is required to illustrate a portion of the subject matter in the same, the whole number of figures will be estimated and paid for as a single illustration.
No proposal will be considered unless accompanied by a bond with security, to the approval of a United States Judge or District Attorney, in the penalty of $10,000, that the bidder or bidders, if his or their proposal shall be accepted, will execute the work in accordance with the proposal.
Proofs of illustrations will be about the same as in the last published volume.
Any further information that may be required will be furnished upon application to this Office, or to the Commissioner of Patents.
Blank forms will be furnished upon application to the undersigned, and no proposal will be considered which does not conform precisely thereunto.
Proposals will be addressed to "The Joint Committee on Printing," Washington, D. C., care of Hon. H. B. Anthony, U. S. Senate; Hon. A. H. Laflin, House of Representatives; or to the undersigned, and endorsed on the envelope, "Proposals for Patent Office Report."
JOHN D. DEFREES, Congressional Printer.
