NEW YORK, Aug. 9.

The steamship Harmonia has arrived. She left Southampton on the 26th ult., and brings London papers of that morning. The second edition of the London *Times*, of Tuesday, gives the preliminaries of the peace of Villa Franca, as follows:

The two Sovereigns of France and Austria will favor the creation of an Italian confederation, but the confederation shall be under the honorary presidency of the Holy Father, the Pope.

The Emperor of Austria cedes to the Emperor of France his rights in Lombardy, excepting the fortresses of Mantua and Peschiera, which rights the Emperor of France will hand over to the King of Sardinia.

Venitia forms a part of the Italian confederation, but remains under the crown of Austria.

The Dukes of Tuscany and Modena return, under condition of granting general amnesty.

Both Emperors will ask the Pope to introduce indispensable reforms.

Full and complete amnesty is granted to all the people.

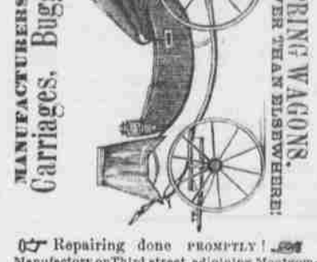
FORSMAN'S Portable grinding & bolting FLOUR MILLS.



HAVING MADE AN ARRANGEMENT with the Patentee, we are now prepared to furnish to order the above Mills, of any size, burrs and bolts. The Mill is simple in its construction, having very little machinery occupying but little space, and warranted to do more work with the same amount of power, and make as good a quality of flour, as any Mill now manufactured. Proprietors of Saw Mills, especially those that use steam, would find it to their advantage to purchase one of these Mills, for the purpose of doing custom grinding—either wheat, corn or other grain. The Mill will be sold with or without the bolt. The principle of the Mill is equally applicable to the construction of large Merchant Mills, and persons about to build, would do well to call and examine.

We will also furnish with the Mills, Bolting Reels of any size and length, Smut Machines, Wheat Cleaners, Flour Packers, etc.

Orders respectfully solicited.

NEW TREATMENT.

PRIVATE

—AND—

CONFIDENTIAL MEDICAL ADVICE!!

AT the Buffalo Private Hospital—Established for the cure of Syphilis, Seminal Weakness and the Secret Infirmities of Youth and Maturity by DR. AMOS & SON, Buffalo, N. Y., office, corner of Main and Quay streets, (up stairs.)

A MOST SCIENTIFIC INVENTION.

An instrument for the cure of genital Debility, or Nocturnal Emissions, more properly known as Seminal Weakness, etc. Can be permanently cured in from fifteen days to two months, by the use of this instrument, when used conjointly with medicines.

YOUNG MEN TAKE PARTICULAR NOTICE.

Dr. AMOS and SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia and New York; it has been declared the only useful instrument which has ever yet been invented, for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth. Price Ten Dollars, by Mail or Express.

A CURE WARRANTED.

Dr. AMOS and SON have devoted their attention exclusively to this peculiar class of maladies, and the relief they have consequently been able to render their fellow-creatures, is fully testified and gratefully acknowledged by convalescent patients and others daily arriving in town, from all parts of the country, for the express purpose only of consultation, while their exertions have been crowned with the most signal advantages; yet, from what they have experienced in inquiring into the causes of these infectious complaints, (from their most simple condition to that of the most dangerous and inveterate,) they have always entertained the possibility of their prevention and removal, and likewise invariably found that the most horrible and malignant forms of disease could almost invariably be traced to one of the following causes—Ignorance, neglect, or the ill effects of unskillful or improper treatment; therefore Dr. AMOS and SON have succeeded in discovering, in the selection of their remedies, a safe, effectual and cautious course; omitting all combination of remedies which bear an equivocal character, as well as those whose premature or injudicious application might be productive of bad consequences in the hands of private individuals. In short, the infallible end of their remedies is the lengthening of a great mass of human misery by the alleviation, relief and prevention of those grievous afflictions that are in reality the secret foe of life, and which, while they so extensively surround us, call aloud for our skill and interference for their extermination.

COUNTRY INVALIDS.

Persons in an part of the world may be successfully treated by forwarding a correct detail of their case, with the remittance for medicines, etc.
