SATURDAY, April 10—P. M.

Gold opened at 133⅛, sold at 133@133¼, closing at 133¼@133⅜. The market was closely cornered to-day by the bulls, and as high as ¼ per cent was paid for gold for delivery. The clearings at the Gold Exchange Bank were $107,966,000, and the balance $3,307,322. The Treasury receipts for duties for the week were $2,730,795, and the prepayments on account of May interest, $437,459.

Government bonds were dull and steady, on the general list; 5-20s of 1862 were higher, and at the close were 120⅝@121. The talk of a corner appears to be without foundation. The bonds were carried over until Monday at 7 per cent coin interest. State and Railway bonds were dull and steady. Tennessee ex-Coupons, 68⅝; New bonds, 65⅝; North Carolina 6 per cent, 60⅞; New bonds, 55⅝; Alabama 8 per cent, 99½. Railway bonds were steady. Bank of Commerce sold at 123; Gallatin National, 109¾; Fourth National, 103¾; Quicksilver, 22⅝; Delaware and Hudson Canal, 126⅝. Express shares were quiet. Wells Fargo sold at 131. Railway shares were dull and steady; the transactions were light, and were not marked with any special activity. New-York Central was quiet, with small transactions. The Western list was generally steady, with a good demand for the low-priced shares. The market was unsettled and from ¼@¾ per cent lower after the one o'clock board, in sympathy with the active demand for money, but rallied at the close and was steady. Erie was dull at 34@34⅜. Reading, 93⅝@93¾. The most active stocks were Michigan Southern, Toledo and Wabash, and the St. Paul shares. Rock Island and Fort Wayne were dull and steady. Western Union Telegraph continued very firm, with a demand for the stock at 41⅛@41⅜. Pacific Mail opened at 93⅝, sold at 91⅞, closing at 92 bid.

The closing quotations for Government bonds were as follows:

Messrs. Fisk & Hatch, No. 5 Nassau-st., have on exhibition a specimen of silver ore weighing 80 pounds, and said to contain 40 pounds of metallic silver. It was taken from the Eberhardt Mine, situated on Treasure Hill, in the White Pine region. Since the opening of the Eberhardt Mine in June last, there has been $2,000,000 worth of silver bullion and ore taken from it; the average yield of each ton of ore has been 774 ℔ of silver. Adjoining the Eberhardt Mine, separated by a cañon, is the Galena Mine, which has produced from $100 to $1,500 per ton, but has not been so fully developed. The White Pine district is about 12 miles square, but the bulk of the silver is found in a space from three to four miles wide and six miles in length. The excitement on the Pacific coast is very great in reference to these mines, and capitalists here have also purchased property, but have no intention of making a stock jobbing operation of it. The business of the Central Pacific road has been largely increased from the excitement, as all supplies for the mines have to be sent on the road. The present population of the mining region is placed at 10,000, and is daily increasing by fresh arrivals from the old mining regions and also from the Western States.

The earnings of the Toledo, Peoria, and Warsaw Railroad Company for the quarter ending April 1, were:

1869.....$285,734 | 1868.....$130,968 | Increase....$154,765

The Miners' Journal of Saturday says of the coal trade:

The quantity sent by railroad this week is 87,115 01; by canal, 26,521 15—for the week, 113,636 16 tuns, against 87,259 for the corresponding week last year. The demand for coal is fair, and prices have advanced a shade this month to correspond with the advance made on the last Scranton sales. At the present rates, we think the demand will continue good throughout the season if the trade is not pushed too much.

THE MARKETS.

[Carefully reported for THE TRIBUNE.]

SATURDAY, April 10, 1869.

ASHES—The market is steady, with a moderate demand; sales of 15 bbls. at $7 75@$8 for Pots; Pearls are nominal.

COTTON—The market has recovered from the depression of yesterday, on a continued good demand and improving foreign news, closing firm. Sales of 3,313 bales, of which 577 were taken by spinners, 375 by speculators, and 2,361 by exporters. 801 of the latter in transit. Sales also of 300 bales Low Middling for May at 27½c., and 200 do. for June at 28c. We quote as follows:

	Uplands.	Mobile.	N. Orleans.	Texas.
Ordinary	25½	25½	26	26½
Good Ordinary	26½	26½	27	27½
Low Middling	27½	27½	28	29½
Middling	29½	29½	29	29½

COFFEE—Rio has been a trifle more active, and is firm, but other styles are neglected at the moment. Sales of 2,318 bags Rio, ex Aeolus, on European account and 150 bags do. ex St. Ursula, on private terms.

FLOUR AND MEAL—We have had a fairly active but variable Flour market, influenced by the changeable news from Europe and the variations in gold and freights. These sudden and unexpected changes in the English markets are unaccountable, and most changes for the better have been of short duration, and it has appeared strange to us that the very low figures current in Liverpool, viz.: $5, gold, for Extra State Flour, has not attracted the attention of buyers for investment, money with them being very abundant. The season is more advanced and the indications are that we shall not put in our Spring seed at the North-west until the latter part of the month—fully a month later than last year, and it is safe to predict a moderate area under Spring Wheat and a limited crop. Hence we think it very improbable that the present low prices continue. We have had a good demand for No. 2 and Superfine at full prices and choice Minnesota Extras have improved under limited present and prospective arrivals and a greatly diminished supply; most other grades have declined and have fluctuated, though toward the close there was a firmer feeling in all grades. We have reduced our stock but slightly, as much of the business of the past week has been confined to city ground Flour. To-day the inquiry is less active, but the low graded are firmer. The inquiry is mainly for home trade. Sales 5,300 bbls. at $5 60@$6 65 for Superfine State, $6 70@$6 80 for Extra do., $6 65@$7 20 for Fancy do., $6 10@$6 35 for the low grades of Western Extra, $6 60@$6 80 for good to choice Spring Wheat Extras, $6 90@$8 25 for Minnesota and Iowa Extras, $6 75@$8 75 for Shipping Ohio, $7 25@$7 60 for Trade brands, and Family do. at $7 65@$8 25, $6 90@$8 25 for Amber Winter Wheat Extra Indiana and Michigan, $7 35@$8 25 for White Wheat do. do., $8 25@$9 00 for Family do., and $7 20@$12 75 for St. Louis Extra and Double Extra. California Flour is steady but very dull; sales of 350 sacks at $7@$9 25. Southern Flour is heavy and in limited demand; sales 330 bbls. at $6 50@$7 for ordinary to good Extra Baltimore and Country, $6 50@$7 10 for Extra Georgia and Virginia; $7 90@$9 70 for Family do.; and $6 50@$13 for Extra and Family Maryland and Delaware. Rye Flour is firmer; sales of 270 bbls. at $4 75@$7. Corn Meal is scarce and wanted; sales of 150 bbls. at $4 25 for Western, Jersey Bag Meal active; Coarse Meal, $4 50@$4 70; Fine Yellow, $4 50@$4 87; White Meal, $4 75@$4 87; Cob Meal, $4 50@$4 75.

GRAIN—Our Wheat market has been fairly active, though we have had much variableness and irregularity in prices, the variable and unsatisfactory news from Europe, and the greater stringency in the money market, have given buyers a-me advantage, and prices of most kinds have declined, though our principal holders are not disposed to sell freely in view of the moderate stock and the certainty that our farmers will not sell to any extent at prices to correspond to the views of millers and exporters—should prices of Spring decline 10@15c. ℔ bush. in June, as many believe—then it is very certain that our farmers' deliveries will fall off rapidly, as the season is more than a month later than last year and the prospect is, that the area under Spring Wheat will be much less than last year, as its prospective value is not calculated to stimulate its production, and even if it were otherwise, the season is too far advanced, and hence it is rendered impossible. From all the information in our possession, we think farmers hold nearly half the last crop of Spring and about one-fifth of the Winter; of the latter very little is White; indeed there is less White in these brands than at the corresponding time last year, and but for the large supplies of White California a very different state of things would prevail. It is very apparent that the productions of White Wheat in the United States is yearly diminishing, it being regarded by farmers as a very unsafe crop; but this deficiency, it is also very evident, can be made up from the Pacific coast, and the character of the trade must in a great measure undergo a decided change. To-day the market is firmer but quiet; the demand is chiefly for Milling; Winter Wheats are held with greater firmness and are wanted; the sales are 28,000 bush. at $1 46@$1 48 for No. 2 Chicago Spring, in lots, afloat; $1 48 for No. 2 Milwaukee, afloat; $1 52 for No. 1 do., in lots, in store; $1 65 for Red Western; $1 66@$1 68 for White California; $1 90@$2 for White Michigan; $1 72½@$1 75 for Amber do., in store, and $1 90 for White Canadian. Barley is lower and unsettled; sales of 3,000 bush. at $1 30 for State, and $2 for Italian. Barley Malt is steady and in limited demand; sales of 1,800 bush. at $2@$2 05. Oats are tame and very quiet at 76½c. for New Ohio and Western in store. Rye is better and in fair request; the sales are 4,000 bush. Western at $1 40 afloat, in lots. Corn is firm but quiet; the demand is chiefly confined to the trade; the sales are 36,000 bush. at 82@83c. for Steam and Unsound; New Western Mixed at 83@86c.; and Old at 87@92c.; Western White at 91@92c.; do. Yellow at 91c.

HAY—The market is steady under a fair demand, at 60@65c. for shipping and 65@91c. for retail lots.

HOPS remain quiet but steady. We quote State at 8@10c. for fair to good, and 12@16c. for choice and fancy.

HEMP—Manila is dull but firm at 12½@12¾c., gold. Jute is selling from 4½@5c., gold.

MOLASSES—Demand still very light, but the market has a little more tone. Sales of 40 bbls. low-grade Cuba at 43c., and recently 377 bbls. Barbadoes on private terms.

OILS—American Linseed is in moderate demand and steady at $1 02@$1 05 for casks and barrels; English do. is nominal. Crude Fish Oils are quiet at $115@$1 20 for Whale, and $1 95@$2 for Sperm. Manufactured Oils are inactive. Lard Oil is firm at $1 40@$1 70. Menhaden Oil at 90c.

PROVISIONS—Our Pork market the past week has been comparatively quiet; prices of most kinds have declined, with much irregularity in prices. The receipts have been moderate, but are in keeping with the limited consumption consequent upon the current high figures. Our present stock is about 55,000 bbls. against 77,000 bbls. for the corresponding week last year, and present indications point to a larger stock on the 1st proximo than many have anticipated. The greatest depression in the money market has contributed mainly to the decline and irregularity in prices, and has served to check any speculative inclination.
