CLARKE & SUTPHEN,
EDITORS AND PROPRIETORS.

☞ The Holmes County Farmer publishes a singular scrap of history from which an exchange condenses the following:

Holmes county in 1816 was the hunting ground of Indians of whom "Seneca," the chief of a tribe of that name, was one. Jacob Ammond, now living in Coshocton county, then lived about a mile from where Millersburg now is, and near the Mile Pond. Seneca became inimical to Ammond, but pretended friendship; yet Mr. Ammond's knowledge of the Indian character enabled him to detect this hostility. Seneca told Ammond that there was a bear near Mile Pond, and wanted him to go to help kill it. Ammond consulted his wife, and she begged him not to go; but A. thinking he ran less risk by going with the Indian than to take the chances of being killed when not on his guard, accompanied Seneca, each taking a gun. The pond being narrow, Seneca took one side and Ammond the other. Ammond kept his eye on Seneca, and saw him get behind a tree, and Ammond also got a tree between him and the Indian, leaving his clothing exposed. Seneca aimed, but his gun snapped; and while fixing the priming, he exposed his head, at which Ammond took deadly aim and put his bullet through it. Then crossing over, A. stripped some elm bark, and with it tied a heavy stone to the Indian's body, and sunk it in the pond. This disappearance of Seneca was an unraveled mystery for forty years, when Mr. Ammond lately divulged the bloody secret to the Auditor of Holmes county.

☞ The New York Post speaking of Mr. Douglas' chances says: "Looking at the States as a whole, it will be seen that his (Douglas') strength at Charleston will be in an inverse proportion to the weakness of his party. He will have the support of numerous Northern delegations; but they represent States which are pretty certain to give Republican majorities. Ten thousand votes from New England would be of little account, and the same is true of New York, Ohio, Michigan, Wisconsin, Iowa, and Minnesota. Indiana may be classed as uncertain between the two great parties, and there Mr. Douglas has some of his most bitter enemies among the Administration leaders. On the other hand, Pennsylvania, which must be the great battle ground, has repudiated him, having cast a heavy majority in favor of the Buchanan wing at the late convention. In the South it is still worse with him. The extreme Southern States, with those on the Pacific, will oppose him in the National Convention as earnestly as they would Mr. Seward; indeed many leading men from the former section have publicly avowed their preferences for the latter. Whatever Southern strength Mr Douglas may have at Charleston must come from delegates Delaware, Maryland, North Carolina, and Missouri; but will they be able to overcome the resistance from their more impetuous neighbors to the Southward?"

TORNADO IN LORAIN.—The tornado of Feb. 22d was very severe in the southern part of Lorain county. In Huntington, buildings were unroofed, chimneys toppled over, and trees and fences prostrated. Several head of cattle were killed, and Mr. Ether Calkins had three ribs broken by a barrel striking him on the side. In Penfield, Mr. Peabody was killed by a falling tree, while feeding his stock.—[Cleveland Leader.

☞ Resignation is an exalted Christian virtue. It is a plant that grows not from nature's soil. It is a grace that must be cultivated like the rose tree, that it may flourish and shed forth its sweet fragrance amid the passing scenes of life.

☞ Sir Peter Lely made it a rule never to look at a bad picture, having found, by experience, that whenever he did so, his pencil took a tint from it. Apply the same rule to bad company.

THE ONLY ARTICLE
UNRIVALL'D MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tone up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; makes it soft, glossy, healthy and beautiful, and if used by the young two or three times a week, it will never fall or become gray; then reader, read the following and judge for yourselves:
NEW YORK, January 8, 1858.
Messrs. O. J. Wood & Co.,—Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons had against all manner of patent medicines and a short time ago I commenced using your article, to test it for myself.
The result has been so satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing Establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking.
I am yours respectfully, HENRY JENKINS,
Corner of Columbia and Carroll streets, Brooklyn.
LIVINGSTON, Alabama, February 14, 1858.
Prof. Wood—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy. You can publish this if you think proper. Yours, &c., S. W. MIDDLETON.
PHILADELPHIA, September 9, 1857.
Prof. Wood—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well stocked with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many other to try it.
Yours, respectfully, D. R. THOMAS, M. D.
No. 464 Vine Street.
The Restorative is put in bottles of 3 sizes, viz: large medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large bottle holds a quart, 40 per cent. more in proportion, and retails for three dollars

New Agricultural Settlement.
TO ALL WANTING FARMS.
A Rare Opportunity in a Delightful and Healthy Climate, 25 miles Southeast of Philadelphia, on the Camden and Atlantic Railroad, New Jersey.
AN old estate consisting of several thousands of acres of productive soil, has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the Middle States and New England, have settled there the past year, improved their places and raised excellent crops. The price of the land is at the low sum of from $15 to $20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgement can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vinyards and peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.
THE MARKET,
as the reader may perceive from its location, is
THE BEST IN THE UNION,
Produce bringing double the price than in locations away from the city, and more than double the price in the west. It is known that the earliest & best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.
In locating here the settler has many advantages.—He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement and comfort is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the west this is reversed,) he has school for his children, divine service, and will enjoy an open winter and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north has generally been to restore them to an excellent state of health.
In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.
The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt meet persons from their own neighborhood; they will witness the improvements, and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.
There are two daily trains to Philadelphia and to all settlers who improve, THE RAILROAD COMPANY GIVES A FREE TICKET FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THREE YEARS.
THE TOWN OF HAMMONTON.
In connection with the agricultural settlement, a new and thriving town has naturely arisen, which presents inducements for any kind of business, particularly stores and manufactories. The shoe business could be carried on in this place and market to good advantage, also coffin business, and manufactories of agricultural implements, or foundries for casting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell smaller ones as it would affect the growth of the place, can be had at from $100 and upwards.
THE HAMMONTON FARMER, a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.
Title indisputable—warranty deeds given clear of all incumbrance when money is paid.—Route to the land: leave Vine street wharf Philadelphia, for Hammonton by Railroad, at 7½ A. M., or 4½ P. M. Fare 99 cents. When there, inquire for MR. BYRNES.—Boarding conveniences on hand. Parties had better stop with Mr. BYRNES, a principal, until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to LANDIS & BYRNES, Hammonton, P. O., Atlantic county, New Jersey, or S. R. COUGLAR, 202 South Fifth Street, Philadelphia. Maps and information cheerfully furnished.

CONSUMPTION
AND
ASTHMA CURED.
DR. H. JAMES, discovered, while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility. The remedy was discovered by him when his only child, a daughter was given up to die. His child was cured, and is now alive and well. Desirous of benefiting his fellow mortals, he will send to those who wish it, the receipe containing full directions for making and successfully using this remedy, free, on receipt of their names with stamp for return postage. There is not a single symptom of consumption that it does not at once take hold of and dissipate. Night sweats, peevishness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles. Address O. P. BROWN & CO. Nos. 22 and 24 John Street, New York.

DR. MORSE'S
INDIAN ROOT PILLS.
DR. MORSE, the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater part of his life in traveling, having visited Europe, Asia and Africa, as well as North America—has spent thee years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.
The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, in the stomach and intestines and by overflowing with the corrupted mass, thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought nearly to the brink of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charging effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use the Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flesh of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.
CAUTION:—Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Dr. Morse's Indian Root Pills, signed A. B. MOORE. All genuine Pills will hereafter have the name and signature of B. LAKE JUDSON, (successor to A. J. White & Co.,) on each box.
