In other Iron there is very little business beyond store lots, and prices are unchanged. Pig Lead and Pig Tin has ruled dull, with prices in favor of buyers. TOBACCO—Kentucky Leaf has been less active, and the general market shows rather a dull tone, with some modification of rates on certain grades. The offerings are ample. We quote Kentucky Leaf as follows: Lugs, 5@9c.; Common, 10@11c.; Medium, 12@14c.; Good, 15@18c.; Fine, 19@24c., and Selections, 25@40c. Seed Leaf remains dull for all grades, and nominally unchanged. We quote as follows: Connecticut and Massachusetts at 10@14c. for Fillers, 20@24c. for Wrapper lots, and 40@70c. for Fine Wrappers; State at 10@12c. for Fillers; 12@25c. for average lots, and 35@45c. for Wrappers; Pennsylvania and Ohio at 10@12c. for Fillers, and 14@25c. for average lots, and 17@45c. for Wrappers. WOOL—The market during the past week has been without material change. The demand for manufactures of light and only for the supply of current wants, and no speculative feeling has been developed. The closing quotations to-day are as follows:

N. Y. WHOLESALE PRICES OF COUNTRY PRODUCE

FOR THE WEEK ENDING DEC. 7, 1869.

[EXPRESSLY for THE N. Y. TRIBUNE by our own Reporter.]

The following are the current rates of articles in good condition, as sold by commission houses by wholesale. Shippers receive 5 to 10 per cent less, deducted for commissions, beside freight and other charges. Boxes or packages should be carefully marked with paint, and the name of the sender should also be painted upon one end. Mail an invoice or list of the articles upon the under side of the cover, and send letter by small containing an invoice and directions, also stating how and when sent. Clean packages and care in putting up will add much to the value of the produce.

BEANS AND PEAS.

Arrivals of Beans 6,443 bush., or 427 less than the previous week. Corresponding week last year, 2,063 bush. As anticipated last week the continued heavy receipts have materially reduced the price of medium beans. While small lots of 10 and 20 bbls. are still being jobbed out at $3 50 it would scarcely be possible to sell a car load at that price. Marrows are not plenty, and suffer less reduction. There is a very heavy feeling in beans, and possibly the bottom is not reached. Canada peas are also lower. We quote:

Beans, Kidney, bush	$2 90@$3 00	Common to fair	$2 25@$2 75
Pea, prime	2 75@ 2 90	Peas, Canada, bush	1 10@ 1 15

BUTTER.

Receipts, 16,487 pkgs. for the week, or 614 less than last week. Corresponding week last year, 11,302. Arrivals for the week ending to-day, 66,103, or 3,177 more than during the same period last year. The receipts of the present week are somewhat cut off by the great storm of yesterday, only 2,002 packages arriving to-day. The deficiency will doubtless be made up during the present week. Farmers are tired of waiting for dealers to buy their butter and are now sending it in for sale by commission dealers. We hear of 35c. paid in the country where 40c. was asked six weeks ago. While receivers are anxious to keep up the price and too many are willing to publicly cut down and thus receive the cream of the trade for "breaking the market," concessions are privately made, and we even hear parties boast of buying good State dairies at 37@38c. There is a growing desire to realize on better, and to respond to the urgent calls for returns on consignments. Some of the dealers think the "blue" color of former weeks is "black" now. The price is not so much complained of as the inability to sell. We drop about 1c. on quotations of State firkins and half tubs. Fresh Welsh sells well. Some very good Western rolls are also selling. Canada continues to arrive in limited quantities, and sells at 32@35c.—a little very good at 36c. The circular published at Montreal, Dec. 3, says no butter was shipped to England the week ending with that date, and represents the market extremely fast at 19@21c., though nominal. Dealers here are generally discouraging shipments to this city, as we have more of that class than we can use. If half butter go direct to England, or pass through here in bond, than pay duty and afterward be shipped, as it would probably have to be sent abroad. We quote:

CHEESE.

Receipts, 35,640; exports, 9,374. Corresponding week last year: Receipts, 27,333, with 16,739 exported. Heavy transactions during the past two days have imparted some life to the trade, though the operations have been confined to two or three purchasers. It is understood that about 14,000 boxes fine factory cheese changed hands yesterday at about 17c.—possibly 17½c. and even 17¾c. for a little. The exact prices do not transpire. In other quarters trade is as dull as ever. The news from abroad is not encouraging, but if a few more such sales can be made here, it will inspire confidence in the future. We quote:

EGGS.

Receipts, 2,573 pkgs. for the week, which are 1,736 more than for the previous week. Corresponding week last year, 3,150. These light arrivals and the sudden setting in of Winter, suggestive of continued light receipts, cause an advance of 2@3c. per dozen, and there is a decidedly firm tone in the market. A lot of Western lined brought 27c. at the mark, but as a general rule they are sold less off. We quote:

FRUITS AND BERRIES.

There is a little firmness in apples, select lots of greenings selling at $4 25, and in some instances $4 50. Cranberries sell best in bbls., and are advanced 50c. Only Catawba grapes are received, and it is hard to impossible to sell them. Quinces are dropped, as they don't sell. Some peaches, taken from a preserving house, sell slowly at $2 per crate. We quote:

FRUITS AND NUTS—DRIED.

Receipts of dried fruit, 1,317 packages. There is a good demand for apples, and some very fine ones are received from the South. Speculators are picking them up, and a few are being shipped. Blackberries are easier. Peaches are scarcely as firm. We quote:

FURS AND SKINS.

HOPS.

Exports for the week ending on Saturday, 1,371 bales. Receipts, 6,210 bales. There is a heavy feeling in the trade, with considerable anxiety to reduce the large stocks upon which advances have been made. Concessions are made to effect sales, though we scarcely change the figures. Sales are noted as follows: 11 bales old Wisconsin, 6c.; 32 bales State, 7½c.; 26 bales State, 8c.; 50 bales new Wisconsin, 20c.; 100 bales Fine, 24½c. According to quotations in Illinois papers, we can almost ship Hops back to Chicago. We quote:

MEATS.

Shipments, 1,432 boxes Bacon; 543 pkgs. Lard; 654 bbls. Pork, and 641 bbls. and tierces Beef. Arrivals of 3,324 Western Dressed Hogs are reported. Hogs are higher and so are Sheep. We quote:

POULTRY AND GAME.

Live poultry is sparingly called for while dressed is in abundance. There is a little relief to the latter for dressed. Arrivals are not as large and the setting in of Winter has been worth thousands of dollars to the poultry interest. The State lots have been pretty well used up, and what are left are stiffened in condition and price. Turkeys are arriving from Tennessee. Some of the Western stock brings just as much as State, though generally quoted lower, not on account of quality, but staleness. While quoting 11c. for venison, a few carcasses are selling, when the keeper of a hotel or restaurant can be induced to purchase, at 12½c. Small lots of very fine grouse are selling at 60@75c. and a few quail have brought $2, while not a few are worthless. We quote:

No changes are reported, but it is likely that sound potatoes will be advanced now that cold weather cuts of further supplies from a distance. We quote:

ALBANY LUMBER MARKET.

For the week ending Dec. 6.

Trade has been very active during the week, it being the last of the season. All the dealers go into "Winter quarters" to-day. A driving snow-storm prevails to-day, and canal navigation has been entirely suspended, the last boat reaching here yesterday. The "clerk of the weather" anticipated the action of the Canal Board, and closed the canals a few days earlier than was expected. The receipts at the Collector's office during the week were light, being as follows: via Erie Canal, 2,636,457 feet of lumber; via Champlain Canal, 1,952,202 feet of lumber. The following have been the total receipts at the Collector's office during the year: via Erie Canal, 238,491,776 feet of lumber, 33,067 M. shingles, 25,000 cubic feet of timber, 8,321,395 pounds of staves; via Champlain Canal, 141,263,849 feet of lumber, 136 M. shingles, and 13,000 pounds of staves.
