Ten Rules to be Observed in Making Butter.

In making good butter there are several nice operations to be gone through with which require an eye to cleanliness, forethought and some little experience.

1. On milking clean, fast, yet gently, regularly twice a day, depends the success of dairy men. Bad milkers should not be tolerated in a herd; better pay double the price for good ones.

2. Straining is quite simple, but it should be borne in mind that two pans about half full each will produce a greater amount of cream than the same milk if in but one pan; the reason of this is the greater surface.

3. Scalding is quite an important feature in the way of making butter in cold weather; the cream rises much quicker, milk keeps sweet much longer, the butter is of a better color, and churns in one-half the time.

4. Skimming should always be done before the milk becomes leppered; otherwise much of the cream turns into whey and is lost.

5. Churning, whether by hand or otherwise, should occupy forty or fifty minutes.

6. Washing in cold soft water is one of its preserving qualities, and should be continued until it shows no color of the milk by the use of the ladle; very hard water is highly charged with lime and must in a measure impart its alkaline properties.

7. Salting is necessarily done with the best kind of ground salt; the quantity varies according to the state in which it is taken from the churn; if soft, more; if hard less; always taking the taste for the surest guide.

8. First working, after about twenty four hours, is for the purpose of giving it greater compactness.

9. Second working takes place at the time of packing, and when the butter has dissolved the salt, that the brine may be worked out.

10. Packing is done with the hands or with a butter maul; and when butter is put in wooden vessels, they should be soaked two or three days in strong brine before using. After each packing cover the butter with a wet cloth, and put a layer of salt upon it; in this way the salt can easily be removed at any time, by simply taking hold of the edges of the cloth.

Butter made in this way will keep any length of time required.—[J. C. Adam in Genesee Farmer.

Change of Seed.

T. E. Willoughby, of Ogle county, Ill., writes to the Genesee Farmer that he obtained some seed corn last year from Joseph Wright, of Waterloo, N. Y., and had large crop. Mr. Wright sends to the West for his seed corn, (Ohio Dent,) and we suppose the object in a Western farmer getting his seed from him is, that after it has been grown in this more Northern latitude, it will be earlier. Corn ripens earlier as we go North, and when taken South, has a tendency for a year or two to ripen at the same time—and is, consequently, earlier. With wheat the case is reversed. Wheat ripens earlier as we go South, and for this reason it is desirable to get seed wheat from a more Southern latitude.

Feeding Poultry.

It has been ascertained that if you mix with their food a sufficient quantity of egg shells or chalk, which they eat greedily, they will lay twice as many eggs as before. A well-fed fowl is disposed to lay a large number of eggs, but cannot do so without the material for the shell, no matter how nourishing in other respects her food may be; indeed a fowl fed on food and water, free from carbonate of lime, and not finding any in the soil, or in the shape of mortar, which they often eat off the walls, would lay no eggs at all with the best possible will.

Farmers' Paint.

Farmers will find the following profitable for house or fence paint: Skim milk, two quarts; fresh slaked lime, two ounces; white Burgundy pitch, two ounces; Spanish white, three pounds. The lime is to be slaked in water, exposed to the air and then mixed with about one-fourth milk; the oil, in which the pitch is dissolved, to be added, a little at a time, then the rest of the milk, and afterwards the Spanish white. This is sufficient for twenty-seven yards, two coats. This is for white paint. It desirable, any color may be produced. Thus, it a cream color is desired, in place of part of the Spanish white, use the ochre alone.

The Best Time to Prune Trees.

At the last meeting of the Farmers' Club there was a long discussion on pruning trees, by Dr. Ward, and Messrs. Ely, Carpenter and Smith, and they agreed in opinion, as the result of their experience, that the best time for pruning trees is the summer, when the trees are growing. Trees pruned at that time heal more readily, and are less likely to be attacked by black blast, or otherwise injured, than if pruned in the winter.

We once heard a woman of the world say, "the state of widowhood is inconvenient, for one must assume all the modesty of a young girl, without being able to feign her ignorance."

It is thought that the United States Senate will refuse a seat to John P. Stockton, assumed to be elected Senator from New Jersey. He had only forty votes, while there were forty-one against him. Such a case has never risen before.

A PINT cup may not be ill-treated for not holding a quart. This is indeed a new measure for moral obligation. The man underrates your argument, project, or improvement, because he cannot contain it.—He does not report you correctly, because he cannot carry all your ideas. He is a pint cup. Your friend betrays your secret. It is your own fault. You put too much in a small vessel, and it slops over. Your neighbor has narrow views, feelings and policies, and they do not enlarge. Be gentle towards him, for small measures cannot afford to be very liberal, and pint cups come to their growth early. They are required to hold but a pint.

DEATH IN THE HOUSE.—When death comes into the dwelling and selects its victim from those who gather at the fireside; when it fastens its relentless grasp upon the form of the loved one, sealing up forever the lips, and changing the countenance to ice paleness, we tremble as in the presence of an invisible and omnipotent power. Voices of mirth are hushed, laughter and revelry are exchanged for sighs, and groans and frantic shrieks. The strongest and dearest ties of nature are severed, the heart strings are broken and hope dies out from the heart, when with mourning tears and inconsolable grief, the doleful lamentation is uttered, "He is gone; forever gone."

MANY a man thinks it is virtue that keeps him from turning a rascal, when it is only a full stomach. One should be careful and not mistake potatoes for principles.

Matters of Interest to Soldiers, their Widows, Children, Fathers, Mothers, Sisters, Brothers, or Legal Representatives.

WHO ARE ENTITLED TO PENSIONS.

Any officer, non-commissioned officer, musician, or private of the army, including regulars, volunteer and militia, or any officer, seaman, musician, pilot or other person in the navy or marine corps, who has been or shall hereafter be, disabled by reason of any wound received or disease contracted while in the service of the United States, and in the line of duty is entitled to a pension.

The pension for a total disability is, for a Lieut.-Col. and all officers of higher rank, thirty dollars per month; Major, twenty-five dollars per month, Captain, twenty dollars per month; 1st Lieutenant, seventeen dollars per month; 2d Lieutenant, fifteen dollars per month; and non-commissioned officers, musicians and privates eight dollars per month. And for an inferior disability, an amount proportionate to the highest disability.

Any person who shall have lost both feet in the military service of the United States, and in the line of duty, shall be entitled to a pension of twenty dollars per month; and these who, under the same conditions have lost both hands or both eyes, shall be entitled to a pension of twenty-five dollars per month.

If any officer or soldier has died or shall hereafter die by reason of any wound received or disease contracted while in the service of the United States, and in the line of his duty, his widow, or if there be no widow, his child or children under sixteen years of age, shall be entitled to receive the same pension as the husband or father would have been entitled to had he been totally disabled. If the soldier left no widow, or child under sixteen, the mother is entitled *if she was dependent on her son*, in whole or in part, for her support.

If the soldier left no widow, child or mother entitled as before stated, orphan sisters are entitled to the pension until they are sixteen years of age.

No person who aids or abets the rebellion is entitled to a pension or anything else from the Government.

PENSIONS COMMENCE.

To invalid or disabled soldiers' pension, from the date of their discharge from the service, if the application be made within one year from the date of discharge; if not made within one year, then from the date of application. If the applicant for an invalid pension die during the pendency of his claim, then the pension of the widow or other person entitled to receive a pension by reason of his service and death, shall commence at the date at which such decedents' invalid pension would have commenced.

DECEASED SOLDIER'S LEGAL HEIRS.

If the soldier left a wife she is his heir, and is entitled to pension, bounty and arrears of pay. If he left no wife, his child or children come next, and are entitled to bounty and arrears of pay, and also pensions, if any are under sixteen years of age. If he left neither wife nor child, his father is his heir to the bounty and arrears of pay, but no pension. If he left neither wife, child nor father, his mother is his heir, and is entitled to bounty, arrears of pay, and also pension, if she can show that she was dependent *in whole or in part* on the deceased for support. If he left neither wife, child, father nor mother, his brothers and sisters are his heirs to the bounty and arrears of pay, jointly. But no pension, except in case of orphan sisters under 16 years of age, who were dependent in whole or in part on the deceased for support. For full information in regard to, and prompt collection of all claims, apply to us in person or by letter.

WAITING FOR PARTICULARS.

We receive letters daily from persons, who, in substance, say: "We have bounty money, back pay, pensions, &c., due us, and we wish you to attend to the case and collect them as soon as we can get the particulars, which we have written to the Captain or Colonel for," &c. You should not delay for the particulars. If you know your husband, son or relative is dead, you know sufficient to enable us to commence the collection of your claim at once; and all particulars as to how much is due you, &c. we will ascertain, as we can do it much easier than you, and without delaying the case. The departments are so far behind, and there are so many scores of cases going in daily that you should embrace the very earliest opportunity to have your application placed on file.

WHAT WIDOWS ARE ENTITLED TO LAND WARRANTS.

The widow of every person who served fourteen days or more in the service of the United States in the Revolutionary war, any Indian war between 1790 and March 3d, 1855, or in the war with Great Britain of 1812, the Patriot war, Aristok war, Mexican war, or any other war between above dates, or if they served an hour at a battle or skirmish where life was in peril, or *en route* towards a battle for the purpose of assisting the United States, in case the husband did not receive it. If the husband received forty or eighty acres while living, the widow is entitled to enough more to make 160 acres in all. Officers, teamsters and all who served with the armed forces of the United States, and were subject to military orders, are entitled to warrants.—In cases of doubt, write us the facts. If the person who served is dead, his widow is first entitled. If no widow, children who were under twenty-one on the 3d of March, 1855, are entitled.

SOLDIERS' PENSIONS.

Every soldier disabled in the present rebellion by wounds or sickness is entitled to an invalid pension.

WIDOWS' PENSIONS.

The widow of any soldier who dies from wounds or sickness contracted in the service is entitled to a pension; also to from $100 to $302 bounty.

DISCHARGED SOLDIERS $100 BOUNTY.

Every soldier who has served two years, or been discharged on account of wounds received in battle, is entitled to $100 bounty, in addition to his pension.

Reader, think over your acquaintance.—If you know an old soldier or widow who has failed to obtain their just dues, send us their address. You may do them a great service, and it costs only three cents postage.

MAGNIFICENT SALE.

GOLD AND SILVER WATCHES, JEWELRY, &c.

ON THE ONE DOLLAR PLAN.

The Entire Stock of

One Gold and Silver Watch Manufactory, Two Immense Jewelry Establishments, One Silver Plating Warehouse, One Gold Pen and Pencil Maker,

To be disposed of with dispatch.

WITHOUT REGARD TO COST!

THE Goods are of fashionable style and most excellent workmanship, and are sacrificed in this manner to relieve the proprietors from embarrassment occasioned by a distracting civil war. It should be promptly stated, also, that they are mostly of

AMERICAN MANUFACTURE

and therefore greatly superior to the goods imported from abroad and hawked about as the cheapest ever sold—The simple DUTY on imported goods, and the GOLD PREMIUM ON GOLD (all foreign bills are payable in gold,) amount to more than the entire cost of many of the articles offered by us to the public. To facilitate the sale

ONLY ONE DOLLAR

will be charged for any article on our list, and this sum the purchaser need not pay until he knows what he is to get. This plan originated with us, the method recently become so popular for disposing of large stocks of Jewelry and similar productions,

THE PLAN IS SIMPLE!

The name of each article offered for sale—as "Gold Hunting Watch," "Gold Oval-Band Bracelet," "Pearl Breastpin and Ear Drops," "Gold Enamelled Ring," "Silver Plated Cake Basket," &c., is written on a card and enclosed in a sealed envelope; these envelopes are then placed in a drawer and well mixed; then as an order is received, with twenty-five cents for return postage and other charges, one of the cards or certificates is taken at random and sent by first mail to the customer, who WILL SEE AT ONCE WHAT HE CAN GET FOR DOLLAR. If he is pleased with his fortune he can forward the money according to directions on the certificate and secure the prize. If the article awarded should be unsuited to the purchaser—as for example, a set of Pearl Ear-Drops and Breastpin to a young man who could not wear them, AND HAD NO ONE TO GIVE THEM TO—we will send any other article on the catalogue of equal price which may be preferred. Or if, for any reason, you choose to venture no further, then you can let the matter drop where it is and spend no more.—Examine carefully our Catalogue!

PROPOSALS FOR LOAN.

TREASURY DEPARTMENT, JULY 25, 1864.

NOTICE is hereby given that subscriptions will be received by the Treasurer of the United States, the several Assistant Treasurers and Designated Depositaries, and by the National Banks designated and qualified as Depositaries and Financial Agents of the Treasury. Notes payable three years from August 15, 1864, bearing interest at the rate of seven and three-tenths per cent. per annum, with semi-annual coupons attached, payable in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, redeemable after five and payable twenty years from August 15, 1867.

The Notes will be issued in the denominations of fifty, one hundred, five hundred, one thousand, and five thousand dollars, and will be issued in blank, or payable to order, as may be directed by the subscribers.

All subscriptions must be for fifty dollars, or some multiple of fifty dollars:

Private certificates will be issued for all deposits.—The party depositing must endorse upon the original certificate the denomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to this Department.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

Interest will be allowed to August 15 on all deposits made prior to that date, and will be paid by the Department upon receipt of the original certificates.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by this Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Officers receiving deposits will see that the proper endorsements are made upon the original certificates.

All officers authorized to receive deposits are requested to give to applicants all desired information, and afford every facility for making subscriptions.

W. P. FESSENDEN,
Secretary of the Treasury.

☞ Subscriptions will be received by the FIRST NATIONAL BANK OF BRIDGEPORT, OHIO; also subscriptions received to
