KNOWLEDGE IS POWER.

The brain being the index of the the heart, according to the science of Phrenology, it has now been rendered easy for any man to ascertain what nature has intended him for—in what business he ought to embark to be successful—what kind of partner would render him happy and in fact every step in life should be guided by a knowledge of himself, and success must follow. Parents would save themselves and children a vast amount of misfortunes—commonly so called, when persons enter into business entirely unsuited to their faculties—by understanding exactly the dispositions and mental capacities of their children and placing them then in the sphere for which they are constituted. This can be done by having their dispositions to them and what they should do to render them an ornament to society and a credit to themselves.

Persons wishing to avail themselves of the advantages afforded by

TERRIBLE DISCLOSURES.

SECRETS FOR THE MILLION—A MOST WONDERFUL AND INVALUABLE PUBLICATION.

DR. HUNTER'S MEDICAL MANUAL!

BEING an original and popular treatise on Man as Woman; their Physiology, Functions and sexual disorders of every kind, with never-failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the laws of Nature and of Nature's God.

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one of the first medical schools in the United States and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a specialty, he has become possessed of most invaluable information in regard to the same, and is able to compress into 72 pages mediumsomprehensive yet plain exposition of medical science on this important subject; as the results of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated by his own highly successful practice in the treatment of secret diseases in many thousands of cases in the city of Philadelphia alone.

The practice of Dr. Hunter has long been and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual and Handbook for the afflicted."

It is a volume that should be in the hands of every family in the land, whether used as a preventative of secret vices, or as a guide for the alleviation of one of the most awful scourges ever visited upon mankind for the sins of sensality and the purity of every kind.

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, faithful, mothers, philanthropists and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical health of multitudes of our people, among the young, volatile, and indiscreet, otherwise the prude and flower of the nation.

The author earnestly warns parents, most strongly against every species of self dallisment, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences consistant of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by precocious development or existing from the vicious and corrupting examples of their schoolmates or otherwise. To those who have already been unnerved to the "pains that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound health, and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrine of Quackery—especially those suffering from Venereal or Syphilitic diseases—strictures, Seminal weakness, Nervous debility, and the numerous mebacies which spring directly or less remotely from the indulgence of casual passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of consumption—a large majority being the victims of the voluptuous indulgences of their progenitors, agreeably to the Scriptural computation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbued with sentiments of enlarged philanthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual

One copy, securely enveloped, will be forwarded free of postage to any part of the United States for 25 cents, or 5 copies for one dollar. Address, post paid COSDEN & Co. Publishers, box 197, Philadelphia.

DANIEL BARNHART, Jr.,

MANUFACTURES and has on hand at all times a fine assortment of Pianos, Melodeons, Guitars, Dulcimers, and every variety of reed and stringed instruments, which he offers for sale at prices lower than they can be sold by the agents of Eastern manufactories.

The pianos manufactured by the subscriber operate upon an entirely new principle, and possess a beauty of finish, a delicacy of touch, a sweetness and power of tone, that is unrivaled East or West. While the keys yield to the most delicate touch, the instrument will not be injured by the strong force necessary in hard music.

An experience of sixteen years in the first piano manufactories in the eastern cities, together with his well known talent in the line of musical mechanism renders the subscriber capable of adding to all the graces and power of his musical instruments, DURABILITY. They will last as long as any instrument, and will also retain their correct tone, without "tuning," as long as any others.

New Principle! No Poison!

Rhodes' Fever & Ague Cure.

OR ANTIDOTE TO MALARIA,

FOR THE PREVENTION AND CURE OF

Fever and Ague, or Chill Fever, Dumb Ague and other Intermittent and Remittent Fevers, also of Bilious Fevers, accompanied by Typhoid Symptoms, Typhoid Fever, Yellow Fever, Ship and Jail Fever, General Debility, Nightsweats, & all other forms of disease

WHICH HAVE A COMMON ORIGIN IN

MALARIA OR MIASMA.

This subtle atmospheric poison, which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—north, south east or west—and will every where yield to the newly discovered ANTIDOTE, which neutralizes the poison, completely purifies the system, and thus entirely removes all the cause of disease.

The proprietor distinctly claims these extraordinary results from its use:

It will protect any resident or traveller, even in the most sickly or swampy localities from any ague or bilious disease whatever, or any injury from constantly inhaling Malarious Miasma.

It will immediately check the ague in persons who have suffered for any length of time, from one DAY TO TWENTY YEARS, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all the distressing results of bilious or ague diseases, such as general debility, night sweats, etc. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected. And we know that this also
