TUESDAY, May 10—P. M.

There has been a very large domestic demand for Government bonds to-day, and orders from savings banks and county banks have been numerous. We give the following comparison of the bids at the First Board on the days named, and the sales at the Second Board to-day:

The gold market to-day has been very dull. There has been no "canards" from Washington, and the gold room has been without any excitement. At 10 a. m. gold was quoted at 114¾; 11:12, 114¾; 11:29, 114¾; 11:59, 114⅝; 12 m., 114¾; 1:04, 114¾; 1:20, 114¾; 1:48, 114⅞; 2:03, 114¾; 2:08, 114¾; 2:12, 114¾; 2:55, 114⅝. The above are all the changes recorded in the gold room to day up to 3:30. At 5:30 it was quoted at 114¾@115.

The transactions of the Gold Exchange Bank were as follows: Clearances, $20,176,000; gold balance, $1,247,062; currency balance, $1,434,154. Holders of gold paid 4@4½@5 per cent for carrying over balances.

The money market continues very easy, with large offers at 4 per cent on call, with Government bonds as collateral, and with 5 per cent as the ruling rate for railroad bonds and stocks and State stocks as collaterals. Commercial paper, A 1, is in good demand at 6@7 per cent, and gold paper is increasing, and is discounted at the banks at 6 per cent. The small amount of commercial paper offered is evidence that country merchants pay cash for goods, and buy with caution.

In State bonds but little has been done, except in Tennessees; the 6s, ex coupon, sold at 60¼@60, and the new bonds at 55, 54¾, 54¼; North Carolina 6s, new, were strong, and sold at 23¾@24; Missouri 6s, H. and St. J. issue, 93; Virginia 6s, new, 69; South Carolina 6s, new, 60@61½; South Carolina pays her interest in gold, and her stocks are from 10 to nearly 60 per cent higher than some of her sister States who seem to be neglectful of their honor. Missouri has also, we believe, provided for paying her interest in gold, and her stocks are up to within 7 per cent of par. If a State would have credit, it must have character for integrity.

In railroad bonds business was small, but prices were firm on the sales made. N. Y. Central 6s, '83, 90; Union Pacific, 86; Milwaukee and St. Paul 8s, 1st mortgage, 105½; Morris and Essex 1st mortgage, 100; do. 2d, 97½; Chicago and North-Western 1st, 85½. Bank shares were dull, with sales of American Exchange at 112; Continental, 80; Park, 166; Tenth National 125; Central, 112.

The stock market was decidedly strong and active, and operations were large, much to the surprise of many who had predicted "dullness" and a "bear" market. The stocks of our leading railways should, under anything like judicious management, increase in price and become more valuable every year, as travel and trade increase. Some of them may be from time to time manipulated by "rings," and the stock be "bulled" up or "beared" by "cliques;" but these operations do not affect the business of the road nor check the improvement of the country—the cultivation of lands—nor hold back the vast tide of emigration going every week to the great North-West to find new homes. We have faith in our railways, if honestly managed, and if the directors make money for themselves, they must do the same for other stockholders.

The aggregate amount of exports (exclusive of specie) from the port of New-York to foreign ports for the week ending May 10, 1870, was $3,419,985.

Mr. Roesing, the North German Consul-General here, authorizes the positive denial of the statement published in *The London Times* to the effect that the "warning" to German capitalists against the American railway bonds emanated from the North German Consul at New-York. He has written nothing on the subject.

We give the following comparison of salys of the stocks named at the dates given:

In 1826 the whole currency was estimated at $110,000,000, mostly irresponsible paper. The value of the currency differed in the several States, being in some 5, some 10, and in others 20 per cent below par. As long as bank notes were received in payment of duties at Boston, New-York, and Baltimore, the required uniformity of the Constitution in regard to duties and excises did not exist, as by reason of the depreciation of bank paper in the two latter cities of 10 and 20 per cent, Baltimore paid one-fifth and New-York one-tenth less than was exacted at Boston, where bank paper was equivalent to specie. To correct these evils, the United States Bank was chartered, with a capital of $35,000,000, and within three years from its opening the currency of the country was reduced from $110,000,000 to $45,000,000, and made equivalent to specie. Now, if it is true that "History is philosophy teaching by example," then all those who would destroy our National Bank currency and go back to the State Bank system can see that we would have 37 different kinds of bank currency, with scarcely any two of them of the same value, and with bank-note brokers or exchange offices more numerous than the banks, where the notes of the different banks of the several States would be bought and sold as they were before 1861. As we have a good currency of uniform value, let us keep it, and try as soon as possible to make it of equal value with coin.

BANKING AND FINANCIAL.

MESSRS. JAMESON, SMITH & COTTING have removed to 14 Broad-st., to the offices recently occupied by the New-York Guaranty and Indemnity Co.

THE MARKETS.

Carefully Reported for THE TRIBUNE.

TUESDAY, May 10, 1870.

COFFEE—The stock of Rio held by importers in the United States as made up this morning was 43,839 bags, including 7,000 at New-Orleans, 500 at Mobile, 2,500 at Savannah, 17,004 at Baltimore, and 25,335 at this port. The ruling coin quotations are as follows: In bond, 10@10¼c. for ordinary cargoes; 10¾@11¼c. for fair do.; 11¾@12¼c. for good do.; 12¾@13¼c. for prime do.; invoice, duty paid, 15c. inc. The market appears to have rather an unsettled tone, but as a rule holders are not willing to concede, and the above rates are supported fairly. The general demand is good to-day. Other kinds quiet; sales of 61 bags Rio to arrive from Havre; 195 Rio per Saxonia, 4,500 per Indix, and 3,500 per Germania at Hampton Roads, and 800 bags Maracaibo on private terms.

CANDLES meet with only a moderate jobbing demand; prices are unchanged; we quote Sperm at 18@20c. for Adamantine; 35@37c. for Sperm, and 47c. for Patent.

FLOUR AND MEAL—There has been considerable activity in our market for Western and State Flour to-day, and under more favorable public and private foreign advices prices for all grades have advanced, and close firm. The inquiry is mainly for export, though the trade buy freely. Rye Flour is steady and in good request. Corn Meal is firm, but quiet; sales, 200 bbls. We quote:

HIDES—The demand for Foreign Hides has been moderate from all sources, and the market has shown a generally dull and somewhat unsatisfactory tone; prices as a rule we quote as before, but there is much irregularity, and buyers have most of the advantage. Domestic Slaughters dull at about former rates, though a large accumulation of supplies is prevented.

HEMP—Manilla continues moderately active at unchanged prices. Other kinds are devoid of activity, and in the absence of sales prices are nominal.

HOPS—The market is dull; we quote New at 12@20c.

HORNS—Ox are selling at $7 for Rio Grande, and $4@$5 for American Selected.

LEATHER—There has been a very good and more general demand for Hemlock Sole, which, though fairly met, has been at full prices, and the market closes with a steady, uniform tone on nearly all grades; stock fair but not large. Oak Sole quiet at former prices, but at the best only steady. Slaughter Upper Rough in better demand and firmer, with choice lots somewhat buoyant.

METALS—American Ingot Copper is without special change; the demand is moderate; sales, 100,000 lb. at 19½c. for Baltimore and 19½c. for Lake. In Pig Lead very little doing; prices are nominal. Pig Iron is dull; sales, 100 tons Glengarnock on private terms, and 100 tons Gartsherrie at $36 from yard. Pig Tin has advanced, and closes firm; sales, 300 slabs Straits at 34¼@34½c., and small lots Banca at 46c. Other articles coming under this heading are without much change.

MOLASSES—Prices are fairly steady, and there is some little business doing on the upper qualities of boiling and refining stock, but inferior sorts are still entirely neglected, and value uncertain. Domestic sugars steady and firm; we quote Cuba Mixed, &c., 20@23c.; do. Clayed at 20@20c.; do. Muscovado, 30@45c.; Porto Rico, 40@45c.; English Island, 30@40c., and New-Orleans, 40@60c.; sales 300 hhds. Porto Rico (Arroyo) on private terms.

NAVAL STORES—Spirits Turpentine is less active and weak; sales 50 bbls. at 41½@42c., merchantable and shipping order, and 42½@43c. for small lots, the latter rate for N. Y. bbls. Rosins are more active, but at lower prices; sales 4,000 bb
