PROVISION—The heaviness and inactivity which prevailed in the Pork market the closing week has since continued, and has been even more noticeable, the jobbing demand having proved extremely light. The stocks of New City inspection have increased, and it has sold very slowly at a concession. The majority in the local trade is one doubtless to the extreme heat of the weather, and the decline in most branches of trade—which will probably only prove temporary, as the indications are that trade in most branches will speedily improve, and that there will be an active trade during the coming Autumn. To-day the market is quiet, and with only a small supply offering, prices have advanced, closing at about $20 00@$20 25, cash and regular, for Mess. The sales, in job lots, are 125 bbls. at $20 75 for Mess, seller's option, August delivery, 200 bbls. at $20 50 for Mess, seller's option, August.
