WEDNESDAY, August 10—P. M.

The features of the day at the Stock Exchange have been a further decline of 2½ per cent in gold, and the development of an upward speculation in railway shares, founded on the reported settlement of all differences between the Western trunk roads in the matter of freight and passenger charges. The dealings in gold have been on a large scale and attended with more than usual excitement. The highest price, 118½, was made before the regular hours in the morning, and the lowest price, 115½, late in the afternoon. During the session of the Board, the extreme range was 118@116¾. The decline was assisted by the advance of Five-Twenties in London to 86¾—the highest quotation since the outbreak of the war—and by reports of a revolution in Paris and further reverses of the French army; all which reports were construed by the speculators as favoring an early termination of the war, as for several days past the Germans have been heavy sellers; but their sales have been exceeded in amount by those of the purely speculative element of the Gold Room. The treasure export to-day amounted to $1,023,000, of which $975,000 were taken by the steamer Russia, and $50,000 by the steamer Minnesota. The Assistant Treasurer to-day sold $1,000,000, the sale having been the second under the August programme. Bids were filed for $2,415,000, the highest having been 117.26, and the lowest 114.05. The awards ranged from 117.06 to 117.30. The following shows the principal quotations during the session of the Gold Room:

In the gold loan market, the rates have been "flat," and for carrying, 1 and 2 per cent.

The following shows the results of to-day's business at the Gold Exchange Bank: Gold balances, $1,313,370; currency balances, $2,188,040; gross clearings, $80,450,000.

The money market is without notable change, the supply being in excess of the demand, and rates on call loans remaining at three to five per cent, with the bulk of the business at four. Commercial paper is dull, and quotations are as follows: Choice acceptances under four months, 6½@8½ per cent; six months, 7½@10 per cent; single names, 7@12, according to the grade. Bankers' paper, 60 days, passes at seven per cent, and for three and four months at 7@10 per cent.

The business in foreign exchange to-day has been light, but the market has been firm, and sterling was advanced by the leading drawers to 109½ for 60 days bills and 110½ for short sight. Commercial exchange continues nominal. The following are the rates:

The day has been a quiet one in the Government bond market, but prices have been firmly maintained. The decline in the gold premium here has neutralized the effect of the advance in the London market. The following shows the quotations at the different Boards to-day:

State bonds have been strong on light but well distributed dealings. We notice sales of Alabama State 8s at 98@99; of Georgia 7s at 91, and of new South Carolinas (January and July) at 71@71½. Railroad mortgages were firm but dull. The following were the closing street quotations of the Union Pacific securities: First mortgages, 92½@92¾; stock, 29½@30; income bonds, 78½@78¾, and land grants, 72½@73¼.

The railway share market has been strong to-day on the general list and buoyant on New-York Central and Hudson, Erie, Lake Shore, and Wabash—the stocks likely to be most directly affected by a settlement of the railroad war concerning passenger and freight charges. Nothing has been definitely given out concerning the proceedings at the meeting at Saratoga to-day of the representatives of the New-York Central and Hudson, the Pennsylvania, and the Erie, although it is said on good authority that a settlement has been made, by which the Western business is to be fairly divided; that a Union depot is to be established at Cleveland for the three roads named, and that another is to be established at Buffalo for the New-York Central and the Erie, and that rates are to be advanced to the old standard. On this information the friends of the managers of the respective roads were to-day large buyers of stocks. After the stocks named, the larger dealings have been in Reading, Ohio and Mississippi, Rock Island, and St. Paul. The miscellaneous list has been firm, with the exception of Pacific Mail, which has been heavy. Express stocks have been dull. Investment shares have been firm. Hannibal and St. Joseph sold at 107, the preferred at 113, Morris and Essex at 89, Illinois Central at 133½, and Chicago and Alton at 117½. The following shows the extreme range of the principal stocks to-day:

The established character of this road, running as it does through the heart of the most thickly-settled portion of the great State of Iowa, together with its present advanced condition and large earnings, warrant us in unhesitatingly recommending these bonds to investors as, in every respect, an undoubted security. THE MARKETS.

Carefully Reported for THE TRIBUNE.

WEDNESDAY, Aug. 10, 1870.

ASHES—There has been a fair demand for Pots since our last, and the market is firm at $6 25@$6 75. Pearls are in fair request and the market is steady at $9@$9 75.

COTTON—The demand has been very fair from spinners, and with the best center in Liverpool strengthening the lower grades, the general market shows a healthier tone at about former rates; sales of 1,024 bales (269 last evening), of which 1,000 were for consumption, and 10c. for speculation. For future delivery there has been some irregularity, but without any decided change in prices; the demand not very active; sales last evening of 100 bales, August, at 17¾c.; to-day—100, August, 17¾c.; 400 at 17¾c.; 500, November, at 16¾c., and 100, December, at 16¾c.—all on basis of Low Middling. FLOUR AND MEAL—The market for State and Western Flour is inactive, lower and unsettled; the unfavorable news from Europe, the decline in Gold, and depression in Exchange gives buyers the advantage; the shipping demand is very light; Family brands are quiet; only fresh ground Family Extras are firm; sales 9,000 bbls. WEDNESDAY, Aug. 10.—SHEEP AND LAMBS.—Receipts to-day, 3,334, after about half that number yesterday. The excess of stock on Monday has barely been closed out. To-day's arrivals were 13 cars at Forty-eighth-st., and 1½ cars each at Weehawken and Communipaw. At the latter place there was quite a full yesterday, not in prices but in stock—both sheep and hogs—the lower floor of one section of the extensive sheep pen and hogs—the lower floor of one section of the extensive sheep both sheep and hogs—the lower floor of one section of the extensive sheep pen and hogs looking giving way on account of a heavy weight of peat and other absorbents stored upon it. Trade is slow, and while sheep are unchanged lambs are lower. We being about the top price. Very few fat sheep are on sale. Among the Forty-eighth-st. sales of to-day were, by Hume & Elliott of State lambs, 97 of 55 lb. 7½c.; 45 of 55½ lb. 8½c.; 100 of 56½ lb. 8¾c.; 56 of 52 lb. 8¼c.;
