THURSDAY, Sept. 22—P. M.

The Secretary of the Treasury accepted to-day, of the $8,741,800 of Government bonds offered, $3,000,000, being $1,000,000 more than the amount advertised for. This makes a currency payment by the Treasury this week of nearly $3,300,000, and will tend to keep the money market steady and very easy, and strengthen the popular belief that Mr. Boutwell will not allow money to be stringent as long as he has so large a surplus of currency on hand. The offerings of bonds ranged in price between 110.08 and 109.32. The following are the awards:

We are pleased to state that the action of Mr. Boutwell to-day in accepting $3,000,000 of bonds has received the approbation of all classes of business men, given a very cheerful aspect to the street, and strength to the securities of the United States. *The London Economist* of Sept. 5 says of American securities:

"The price of United States 5 per cent bonds maintains a steadiness which is not to be found at the moment in any other department. The effect of the present war is expected to benefit American interests, and stimulate certain classes of industry which have for a long time been dormant. Whether this will be so or not to any material extent remains to be seen. With the existing distrust as to foreign securities generally, it is only natural that American bonds should be in more than average request."

We give below the bids for and the highest sales of Government bonds at the dates named:

Government bonds have been firm, and from ¼ to 1 per cent in advance of the quotations yesterday. While the transactions in these securities are not large, the tone of the market is very strong. The increase of purchases by the Secretary of the Treasury and the increasing confidence of capitalists abroad will keep them very firm here.

Operations in railroad bonds continue to be limited. The demand for Central Pacific bonds continues to be active. They are quoted to-day at 90¾@90¾. The sales of Union Pacific bonds are increasing, and the price to-day was 89¾@90. Michigan Southern Sinking Fund bonds, 99¾; Milwaukee and St. Paul 7 3-10 convertible, 92.

The gold market continues without excitement or interest. All the quotations to-day have been between 113¾ and 113¾. The market opened at 113¾ and closed at 113¾. After the close of the Gold Exchange, sales were reported at 113¾, 113¾, and 113¾, closing dull. The transactions of the Gold Exchange Bank were as follows: Gold balance, $1,106,420; currency balance, $1,264,397; clearings, $24,672,000. Paid for carrying, 1, 2, and 3 per cent. Paid for borrowing, 1-64 of 1 per cent, and 1, 2, 3, and 4 per cent and flat.

The money market to-day is easy at 5@6 per cent, with more loans at 5 per cent than yesterday, while some of the large dealers in Government bonds have loans remaining with them at 4 per cent. Commercial paper is more freely offered, and the rates on first-class paper from 7@8@8½ per cent.

The Foreign Exchange market is heavy and the nominal rates are lower, and in second hands prime 60-days bills are reported at 109½, and short sight at 110½. Bankers are disposed to draw freely, with the view of transferring London funds here to make the difference in interest. Commercial bills are in small supply. Cable transfers have been made to-day at 110½. The following are the nominal rates:

The steamer Tripoli to-day took out $169,567 68 in treasure.

State bonds have been almost neglected to-day, there being only one sale of Tennessee 6s, new, at 60½, at the First Board, and at the Second Board, Tennessee 6s, ex coupon, 62½ do. new, 69½, and North Carolina 6s, old bonds, 51½. Bank shares are inactive: Irving Bank, 126; Pacific Mail, 43½; Western Union, 34½.

This has been one of the dullest of days in the stock market, and the interest of the day has been confined in the Ohio and Mississippi stock, which went down on a run from 33½ to 32½ upon the sales and hammering of a leading operator, who is said to be the leader of a new "bear" party recently organized. The stock rallied to 33½, when his transaction ceased, and closed at about that price. The books close on the 24th inst., and the stock to-day was loaned from flat to 1-64 of 1 per cent. Milwaukee and St. Paul stock continues strong. Lake Shore, 93½; N. Y. Central sold at 92½; do. Certificates, 92½; Rock Island, 116; Reading, 90½.

The following are then nominated by a Committee of three, and chosen by the meeting a Committee to examine into the condition of the firm: Henry W. Pickering, Lyman Nichols, Edward Atkinson, P. H. Wentworth, John D. Parker, William Thomas. The Committee are requested to report the assets of the firm, and some plan of action, at a meeting to be held Tuesday, the 27th inst. It should be stated that the banks hold collateral security for the amounts due them.

The customs receipts for the week ending Sept. 17, 1870, were as follows: New-York, $3,248,312; Boston, $505,290; Philadelphia, $183,436; Baltimore, $250,707; San Francisco, for the week ending Aug. 20, $203,895—from Aug. 20 to Aug. 27, $125,191. Total, $4,501,831.

BANKING AND FINANCIAL.

SEVEN PER CENT BOND,

Payable by the State of Illinois, issued by Washington County, Illinois, registered with the Auditor of the State, and principal and interest payable in New-York by Treasurer of the State of Illinois. We have the strongest faith in this small lot of bonds; have examined them with the greatest care. The issue is very small, the County owes nothing else, and, under State Constitution, its debt cannot be increased so as to exceed 5 per cent of assessed value. *They are practically guaranteed by the State of Illinois.* Price 89½ and interest.

GEORGE OPDYKE & Co., Bankers, 25 Nassau-st.

BURLINGTON, CEDAR RAPIDS AND MINNESOTA 1ST MORTGAGE SINKING FUND CONVERTIBLE 7 PER CENT. GOLD BONDS.—The small remaining balance of the Loan for sale, at 90 and accrued interest. These Bonds return about double the rate of interest which U. S. 5-20s pay, while the security is as safe and fully equal to that of any Railroad Bond issued.
