PROVISIONS—Our Pork market the past week has been characterized by much activity and rapid fluctuations; the strong feeling and activity as apparent at the date of our last continued up to Wednesday morning, when the local inquiry abated, and the demand for the future fell of materially; the large movement in Hog products at the West for the week ended and the decided increase in the slaughter as compared with last year have completely changed the features of our market. The export demand has proved light, the absence of freight room preventing the execution of most orders, and hardly enough has been done in Prime Mess to establish its value from day to day; the stock of this has increased, and with lower freights an active export trade seems probable. Our advices from the principal packing points at the West represent the extreme to be number of Hogs over last, so the corresponding time, as large, and one authority makes the increase in weight not less than 3,000,000 lb. thus far; the average weight is 204½ lb. against 200½ lb. gross last year. This increase in weight, of over 24 lb. to the Hog, is greater than the most sanguine have claimed; hence we find less speculative feeling and more desire to realize; to-day the market for Pork is quiet, particularly in a wholesale way; the business is chiefly for the retail trade; the sales are 250 bbls. at $19 50@$20 for Mess. For future delivery the market is dull and nominal, but holders are firmer at $19@$19 25. Beef remains firm with a fair demand; sales of 350 bbls. at $12@$15 for Plain Mess, and $15@$17 50 for Extra Mess. Tierce Beef—There has been a fair demand, and the market is steady; sales of 50 tcs. at $26@$28 50 for Prime Mess, and $28 50@$30 50 for India Mess. Beef Hams are without important change; the demand continues moderate; sales of 50 bbls. Western at $20@$30 50. Cut Meats are without important change; the business dull, and prices irregular. Bacon is in demand, with a small supply here. Prices are irregular. Dressed Hogs are slow, and the market unsettled, closing weak at 7½@8c. for Western, and 8@8½c. for City. Lard is dull and unsettled; good stock is not very plenty, but buyers do not seem inclined to purchase even at reduced prices, and the market closes dull; sales of 100 bbls. and tcs. at 11½c. for No. 1; 11½@12c. for City, and 12½c. for Steam; for future delivery the market is nominal; sales of 550 tcs. spot and January at 12@12½c., and 100 tcs. at 11½c. for spot.
