Speculation in State bonds has been tame, on the whole, attention being devoted to other channels. The features were now January and July South Carolinas, which made another advance to 60@61, owing to some much desired and favorable legislation. New North Carolinas were strong at 28, and the old steady, Georgias being strong and Tennessees weak. Other issues were neglected. The bids were as follows:

A dispatch from Raleigh, N. C., March 1, says: A bill in equity has been filed by certain holders of certain North Carolina old bonds to restrain the payment of a dividend of six per cent lately declared by the North Carolina Railroad Company of $180,000, which is upon stock held by the State, for which she issued her bonds in payment, and have this sum, and all future dividends, applied in the payment of interest due upon the above class of bonds. This application of the dividends, it is claimed under the 41st section of the act incorporating the Company and ordering the issue of these bonds, which, after pledging the public faith of the State to the payment of these bonds, in addition thereto pledged the stock held by her in this railroad, and all dividends of profits from time to time declared, should be applied to the payment of the interest accruing on these bonds. Judge Bond of the United States Circuit Court granted a restraining order, and will hear the motion for injunction on the 28th of March next. There is much consternation here among the members of the Legislature in consequence of the injunction. This is the only fund from which they could get their per diem.

BANKING AND FINANCIAL.

HARVEY FISK. A. S. HATCH

FISK & HATCH,
Bankers and Dealers in Government Securities,
No. 5 Nassau-st., New-York, March 1, 1871.

THE SIX PER CENT GOLD BONDS of the CENTRAL PACIFIC RAILROAD COMPANY have an established character which renders them especially desirable for investments.

They are based on one of the most important and valuable railroad lines in the world, fully completed, amply equipped, and already earning large revenues, which must increase enormously with the growth of the country it traverses and the development of trade with Japan, China, and Australia, a large portion of which must find its way across the American Continent.

Holders of FIVE-TWENTY BONDS (which are liable to be funded at a lower rate of interest within a short time) may exchange them for CENTRAL PACIFIC BONDS, bearing the same rate of interest, and save from 15 to 18 per cent for reinvestment, while their security remains as reliable as before.

They are dealt in at the New-York Stock Exchange and at several of the more important Bourses of Europe. We have introduced them into our regular business upon the same basis as Government Bonds, and buy and sell them as freely at current market rates, and are prepared to furnish them to investors or others at daily quotations.

We buy and sell Government Bonds, Gold, and Coupons, execute orders in Miscellaneous Securities at the New-York Stock Exchange, make collections, receive deposits, subject to check at sight, allow interest on balances, and do a general banking business.

A CHOICE SECURITY.

NEW-YORK AND OSWEGO MIDLAND RAILROAD COMPANY.

FIRST MORTGAGE 7 PER CENT GOLD BONDS.
A very large full paid up stock subscription.
$100, $500, AND $1,000 BONDS,
COUPON AND REGISTERED.

The new trunk line from New-York City to the North and West, between the New-York Central and Erie Railways, and many miles shorter than either from New-York to Buffalo.

Two hundred and twenty miles of finished road already in existence, cost twice the amount of bonds issued; may fairly be called the best character of real estate loan; title perfect and value constantly enhancing; issue of bonds positively limited to $30,000 per mile of finished road; a very small loan per mile, highly thought of by bankers, and, we believe, a security of the highest grade. The road is earning largely; is a better investment than money in a savings bank. For sale by

PETROLEUM—There continued a light inquiry for Crude, in bulk, holders asking 14½@15c., which was above the views of buyers, and we heard of no sales of importance. On the Creek the market was firm at $4 30 on Upper, and $4 40 on Lower. Refined has been inactive, but is steady; Spot is held at 24½c., but can be purchased for a trifle under that price. In Naphtha there was no business doing, and prices were nominal. Refined, in cases, was firm at 31@31½c. For Philadelphia delivery there was rather more inquiry, and the market was firm, sales of 5,000 bbls., for March, at 24½c., and 1,000 bbls., for Apr., at 25c.; we quote Spot 24½@24½c.

RICE—The market is moderately active and a shade firmer; sales 25 tcs. Carolina at 8½@8¾c., and 225 bags Rangoon at 4½c.

SUGARS—There has been no activity in Raw Sugars, still a fair business may be noted, and there is a steadier tone to the market. The call is mostly from refiners with a little demand from the trade; sales, 500 hhds. at 8¼c. for Cuba; 9½c. for Centrifugal do.; 11@11½c. for Demerara, and 1,000 boxes Havana at 9½@10½c. Refined are dull; sales at auction of 288 bbls. N. O. at 9 4-10@9½c. The stock of sugar March 1, Cuba, bbds. 24,543; Porto Rico, 1,697; English Island, 1,543; Martinique, 1,595, and N. O. 2,043, making a total of 31,821 hhds.; also stock of 36,962 boxes, 26,363 bags Manila, and 1,842 bags Brazil.

SEEDS—The market is quiet, but prices are firmer; sales of 150 bags of Linseed at 11½c.; Timothy is dull and prices are nominally unchanged.

STEARIN—The market is dull and prices are nominal at 13½c. for tes.; we hear of no sales of importance.

TALLOW—The market is firm, with a fair demand; sales of 34,000 lb. at 8½@9c.

LIVE STOCK MARKETS.

WEDNESDAY, March 1.—BEEVES—Arrivals, 17 cars, or 292 head; all at Communipaw—13 cars of them over the Erie road, which reached the yards for Coney & McPherson late for selling to-day. The other five car-loads were for S. W. Allerton & Co., of which B. Westner was averaging about 11½c. for 87 head, calling them decent 6½ cwt. Illinois steers. The dead meat markets show not a particle of improvement, being loaded with beef with scarcely any trade. A lot of Chicago-dressed forequarters was sold for packing at 6c. per lb. Sets of ribs are now coming from Chicago boxed up, the low prices generally warranting the sending of the coarser portions. Sides are quoted at 7@8c.

SHEEP—Arrivals, 3,380 head, via: 12 cars at Communipaw, and 5 cars at Weehawken. There is no improvement in prices, and the heavy stocks of mutton in slaughter-houses and about Washington Market indicate a rate any? necessity for a decline on the part of the butchers to secure live stock. And still there was some anxiety, the cattle being pretty well cleared up at early hour. The impression prevails that the run of sheep will be light for some days to come. The Communipaw stock was consigned, 6 car loads to J. N. Pidcock, and 7 cars each to Kane & Co. and Judd & Buckingham. Sales by J. N. Pidcock, who closed out before noon, 361 lb. sheep, 96 lb. at 6c.; 624 at 7½c.; 1,000 lb. Ohio, 65 lb. at 6½c.; 140 lbs., 65 lb. at 6½c. He sold 2 cars, 104 lb. Missouri sheep, yesterday, at 6c. Judd & Buckingham's car, 85 lb. Illinois, at 6c.

The Weehawken sheep were 2 cars for Kane, Haven & Co., and the same for Judd & Buckingham. Kane & Co. sold theirs, viz.: 436 Illinois sheep, 76 lb. at 6½c., while Judd & Co. sold 248 Illinois, 76 lb. at 6½c., and 248 of 77 lb. at 6½c.

HOGS—Arrivals, 2,801 live, with scarcely any dressed; they were landed 12 cars at Communipaw, 6 cars for C. K. Ward, to McBride & Bartlett; 3 cars to S. W. Allerton & Co., 2 cars to Spring & Haynes, and 1 car to M. H. Gillette; no sales of live hogs are reported to-day, but yesterday's prices at Forrisith-st. were 7½c. for 2 cars, 140@145 lb., Ohio, and $7 25 for 4 cars, 120@140 lb.; these would be extreme prices to-day, as dressed were easier, viz.: 9c. for heavy, 9½c. for 200 lb down, 9½c. for 160 lb down and 9½c. for 140 lb grass. Western dressed were uniform at 9c., Ice & Gillespie's 3 cars, 155 lb., and Ford & Westmore's cars at local figure, at the close buyers only offered at 8½c.
