—Lodgers who never pay—Sleepers on a railway bed.

—Brother Hammond is familiarly addressed by the California mines as "Old Pard," and is in sore distress to learn what they mean by it.—*Exchange.*

—Corners in watered stocks are common things, but in New York where the cold weather has cut off the supply of the aqueous element, they have actually been getting up a corner in water.

—A Springfield, (Ill.) man has just heard favorable news from Alaska. He has come into possession of a gold mine near Sitka, which is said to be so rich that "a fortune might readily be pounded out in a hand mortar." This beats the Comstock.—*Quincy Journal.*

—The Toledo Blade, in endeavoring to explain the "Soko" episode, says that Mrs. Tilton must certainly have said "Soko." Now Soko is the African word for "gorilla," and the Blade insists that Elizabeth, in her fondness for pet names, happened to hit upon Soko. This is an unkindness to Mrs. Tilton, who has a very smooth and angelic vocabulary.—*Quincy Journal.*

—"Hi! Samuel, has you moved yet?" inquired one colored man of another whom he met at market yesterday. "No, I'se still in de old place," was the answer. "But I war' told you war' gwine to get out ob de neighborhood," continued the first. "Well, I did make up my mind to, but you see de family next door, and de family on de corner, and de family 'cross de street, have left dare wood piles out doors, and I doesn't desire to change."

—Some people imagine that Mark Twain is exceedingly smart. We know him when he was grinding platitudes for the Virginia *Enterprise*, and he was a notoriously lazy grinder. He would sit at his editorial table for hours, drumming on a cracked guitar, while the compositors were waiting for copy, and when reminded of his duty by the foreman, would say: "This working between meals is killing me!" And he was the healthiest man in the Territory.—*Oakland Tribune.*

THE NEW WALTHAM!

The past twelve months at the Waltham Watch Factory have been the busiest in the Company's history. Several wholly new stem-winding watches have been produced, and great improvements have been effected in the manufacture of all variety of their standard watches, until now they include every size in both key and stem-winding, that can be desired, of every quality and of every price. At the same time new inventions in machinery and other large economies, have cheapened the cost, so that at present it is not too much to claim that the Waltham Watches are the best and cheapest watches in the world. These claims are, in fact, almost everywhere admitted. In this country it is a matter of fact that hardly any fine American watches are sold but those of the Waltham make, while orders are now regularly received from England, Australia, and the British Possessions generally, and foreign countries are abandoning the hand made productions of Switzerland and England, and eagerly adopting American machine made Waltham watches in their place.

Buyers of silver watches should be careful to observe the stamp of the Company on the case, as well as on the movement, as the Waltham Watch movements are frequently put into cases which are inferior both in quality of metal and workmanship.

For sale by all leading jewelers.

Owing to protracted ill health and consequent inability to devote the attention to my real estate business necessary to the faithful protection of the interests of my numerous patrons, I have this day transferred and business to Messrs. J. G. Lynch and M. J. Howley, in the belief that the interests of my patrons will be entirely safe in their hands. Those gentlemen need no commendation from me, as their characters for promptitude and integrity are well known, and the official position of both of them for years past in connection with real estate matters, taxes, assessments and title, is a sufficient guaranty of the safety of all real estate interests committed to them. I therefore, without hesitation, ask my patrons to continue their business in the hands of Messrs. Lynch & Howley. I will settle up the accounts of the old firm.

Respectfully,
CLAIBORNE WINSTON

Cairo, Ill., February 15, 1871.

The undersigned have this day associated themselves in partnership for the purpose of carrying on the real estate business, succeeding Mr. C. Winston, who retires from the business. From Mr. Winston's patrons we would respectfully solicit a continuation of their business, and from the public generally any business in our line. We pledge ourselves to faithfully attend to any business that may be intrusted to us.

HARPER'S MAGAZINE,

NOTICES OF THE PRESS.

The ever increasing circulation of this excellent monthly proves its continued adaption to popular desires and needs. Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudices or depraved tastes.—Boston Globe.

The character which this Magazine possesses for variety, enterprise, artistic wealth, and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The Magazine has done good and not evil all the days of its life.—Brooklyn Eagle.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power, and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. Its challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer trouble-some **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the glossy and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
