MILL ALREADY HAS 400 BUSHELS WHEAT

BURRISS MILLING COMPANY EXPECTS GOOD BUSINESS THIS YEAR

DRY THE WHEAT

R. E. Burris States That Grain Must Be in Proper Condition Before Brought Mill

"Our season is going to open up splendidly," stated Mr. R. E. Burris of the Burris Milling company yesterday. "We already have over 400 bushels of this year's wheat at the mill waiting to be ground into flour."

"We expect to start the mill to running tomorrow," continued Mr. Burris. "There were a few repairs to be made, some parts had to be overhauled, etc. Everything has been put into first class shape and there isn't anything to prevent us from making the very best flour in the country."

"The wheat crop is a great deal better than many people thought it would be. There was a lot of wheat sown, and although the drought hurt it some, there is a good deal of wheat in the country."

"There is one thing that the farmer must learn about bringing their wheat to our mill and that is that it must be perfectly dry or else we can not make it into flour. We have had to turn away several loads already this season just because the wheat was not dry and in proper condition. This is very important."

PARKER MILLS

DEAL HELD UP

(CONTINUED FROM PAGE ONE.)

City mills in Columbia, the Fairfield at Winnsboro, the Wylie at Chester, the Pine Creek at Camden, the Beaver Dam at Edgefield and the cotton seed oil mill at Edgefield, were referred to only one concern, Luckwood, Greene & Co., to whom the sale was authorized at the meeting May 11.

It is further set forth in the complaint that by the use of proxies of shareholders not informed of the financial condition of the company, the sale was effected without regard to the interest of the stockholders.

The complainants declare that the arguments of the defendants, that the sale, even at a sacrifice, was necessary to secure the financial rehabilitation of the company, are fallacious, in that the properties of the Hampton company earned during the first three months of 1916 profits in excess of \$100,000 a month, and that the existing debt of the Parker company standing at about \$3,200,000 after payment on June 1 of \$625,000 from the proceeds of insurance policies on the life of the late Lewis W. Parker and the profits from the operations of the Hampton mills, can be liquidated from the ordinary earnings of the properties under efficient management within three years.

The petition also asserts that owing to the increase in the price of cotton mill machinery, the replacement value of the mills involved in the sale has risen to above \$7,000,000, whereas the proposed purchase price is less than \$3,500,000.

The allegations in the complaint are supported by affidavits by W. H. Rose, H. G. Veltborn, former president and general manager of the Hampton mills, and W. A. Clark.

Justice Watts at chambers here issued the rule, returnable before Judge Mauldin at 10 o'clock Tuesday morning, June 20, meantime restraining the defendants jointly and severally from disposing of any of the properties of the Hampton Cotton mills company or any other assets of the Parker Cotton mills company "except in the usual and customary mode and course of business in the same."

The petitioners are granted the right to submit additional affidavits in support of the allegations of the complaint at the hearing before Judge Mauldin.

Bird Conservation Club.
The Bird Conservation club of Anderson will meet on Friday afternoon at 4:30 o'clock at the Carnegie library. Every person, old and young, male and female, is especially invited to come and join this club and interest themselves in caring for the birds of the city and county.

Vanilla, Tutti Frutti and Peach Ice Cream. We have the best Tooth Brushes in town for 25c each. Owl Drug Co.

Insurance Operation.
The many friends of Miss Frances Anderson will be pleased to learn that she was reported as doing nicely last night, having undergone an operation for appendicitis early yesterday morning.

ASK FOR and GET HORLICK'S THE ORIGINAL MALTED MILK.

MR. BARNES OF ALBANY

William Barnes.

This photograph, leader on the Old Guard, as he appeared at the Chicago convention. Mr. Barnes here seems depressed. He is a very bitter enemy of Theodore Roosevelt.

Re-Opening

Palmetto is to Now Show Seven Reels of Pictures For Five Cents

The Palmetto theatre re-opens this afternoon with seven reels of Keystone pictures, a five reel feature and a two reel comedy. There will positively be no vaudeville but there will be a four piece orchestra furnishing music.

Manager Pinkston stated yesterday that he was going to see if the people of Anderson wanted the best in motion pictures for the small price of five cents, the admission to all. The orchestra will be composed of Mrs. Daisy Wilkey, Piano; P. T. Tollison, cornet; Ernest Drinkell, drums and a violinist; Miss Agnes Pearson, who is well remembered here, will arrive on Monday and will be the regular violinist.

Concerning the five reel feature for today the press notice says:

Spectacular effects that surpass anything ever achieved before in a photo play will be shown in the new Triangle production by Thomas H. Ince, "Krook Oe." There is a storm at sea, where the waves gradually rise higher and higher and finally surge over the ship, dashing men over its sides, and where the terrible blasts of wind tear the sails to shreds and demolish the spars and rigging. How the ship rocks and how the men fight for their lives and how all their attempts are in vain, and the stanch vessel is cast on the rocks and utterly wrecked! It is a masterpiece of reality and makes the audience shudder and almost believe that they are actually in peril of their lives from the treacherous simper of the southern seas.

The press notice has the following to say about "The Village Scandal": Raymond Hitchcock, as a gay and courtly trickster and Roscoe Arbuckle as a village fat boy have some amusing encounters in their attempts to win the affections of Flora Zabelle as Arbuckle's comedy sweetheart in "The Village Scandal," the Triangle-Keystone comedy. Fatty Arbuckle's appearance on a village street begins the laughter.

SALTS IF BACKACHE AND KIDNEYS HURT

Stop Eating Meat For Awhile If Your Bladder is Troubling You

When you wake up with headache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid, which overworks the kidneys in their effort to filter it from the blood as they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste else you have backache, sick headache, dizzy spells, your stomach spurs, tongue is coated, and when the weather is bad you have rheumatic twinges. The uric is cloudy, full of sediment, channels often get sore, water acids and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your chemist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for 3 or 4 days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so as it is no longer irritating, and ending bladder weakness.

Jad Salts is a life saver for regular constipation. It is inexpensive, common sense and makes a delightful after-dinner drink.

DR. KIRKLAND WILL GO TO GREENVILLE TODAY

TO ADDRESS WOMANS' MISSIONARY CONFERENCE TODAY

ALSO TO COLUMBIA

Where He Will Attend Meeting Religious Press Association of This State

Dr. W. C. Kirkland, editor of the Southern Christian Advocate, leaves this morning for Greenville where he addresses the Womens' Missionary conference of the Upper South Carolina Methodist conference. From there Dr. Kirkland will go to Columbia to attend the regular quarterly meeting of the Religious Press association of this state which meets there today.

The first session will be at the Lutheran Board of Publication, when an address will be heard by J. F. Jacobs of Clinton on the subject of "Advertising." At 7 o'clock in the evening the visiting members will be guests of the Lutheran Board of Publication at an informal dinner at the Jefferson hotel, when other subjects relating to the work of the association will be discussed.

Representatives will attend from The Southern Christian Advocate, Anderson; The Associate Reformed Presbyterian, Due West; The Diocese, Cheraw, and The Way of Faith and the Lutheran Board of Publication, Columbia.

Officers of the association are: R. S. Galloway, Due West, president; John W. Horine, Columbia, vice president, and J. C. Keys, Greenville, secretary-treasurer. This association was only formed this year, temporarily organization being made in Greenwood with permanent organization at a later meeting held in Anderson.

They Wear Bamboo Hats On the Equator

Not many years ago they discovered that by splitting the Bamboo into finer fiber and weaving them into smaller shapes they could sell them to the traders from Southern world.

In our stock we call it

BANGKOK

—the lightest hat in the world.

We have only a few shapes left,

\$4.00 and \$5.00

Derailment

On Blue Ridge Yesterday—No One Injured and Small Damage Was Done

A 100,000 pound capacity coal car on freight train No. 8 on the Blue Ridge railway was derailed just west of the Six and Twenty trestle yesterday morning about 9 o'clock. This caused three or four cars to turn crosswise on the high trestle, thus delaying trains until early yesterday afternoon. About 100 cross ties were

torn up. The track was cleared yesterday about 2 o'clock.

Because of the derailment, train No. 8, the one passing Anderson at 11:50 a. m. for Seneca, was delayed for about two and one-half hours. The motor car from Seneca yesterday afternoon arrived about 3 o'clock, or 40 minutes late.

Bar Petty Politics.

Washington, June 14—Efforts to insert a plank in the democratic platform a law to prohibit federal judges resigning to accept elective office will not be countenanced by Wilson, administrative official let it be known. The president sent word to St. Louis that he did not want petty politics played.

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal, poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins, thus cleansing, sweetening and puri-

fying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skin, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

(From The Literary Digest.)
If your radiator leaks, pour in

SE-MENT-OL

The self-acting radiator cement

Finds the Leak and Fixes It

Se-Ment-ol is a powder put up in lithographed tin cans. When poured into your radiator it dissolves in the hot water. At the leak, the cool air congeals it into a cement that repairs it automatically.

Look for the pumpkin colored cans,
