## PARAGRAPHS.

—Dr. Lawson, of the largest British lunatic asylum, has weighed the brains of all the demented patients who have died under his charge within the past five years. He says that the knowledge thus gained shows that the brains of lunatics do not lose in weight by disease, and that they average as large as those of sane persons.

—John Thompson of Farmington, who lost a pair of spectacles while digging potatoes four years ago, and had plowed and harrowed the field three times since, found them, Saturday, embedded in an "Early Rose" potato, which had so grown around them as to hold them in the position in which spectacles are worn.

—"What's all this talk about the courrency and the five-twenties and the sivin-thirties that I hears about, Mike?" "Why, bliss your sowl, don't ye know, Pat? It manes that the government wants to make the laborin' min work from five-twinty in the mornin' till sivin-thirty in the avening." "Och, the spalpeens! May the divil choke thim!"

—At a recent examination for admission to the bar, held at Ottawa, Ill., among the candidates were one woman and a colored man. The latter failed to pass; but Miss Mary Perry, the young lady, is said to have taken the court, the examiners, and the bar by surprise, and to have passed the best examination by far of any member of the class.

# CAIRO,

## ILLINOIS.

The Trustees of the Cairo City Property desire to call public attention to the merits of their property, comprising a considerable portion of the City of Cairo, in Alexander County, in the State of Illinois, and lands immediately adjacent thereto.

This city, as is well known, is situated at the confluence of the Ohio and Mississippi rivers, at the head of uninterrupted navigation on the Mississippi, being below obstructions by ice in the winter and low water in summer, and it has a clear and open river communication at all times over the Mississippi and its tributaries, with all the country south to the Gulf of Mexico and the Atlantic Ocean. Cairo has also the same character of communication with all the country north over the streams flowing by it, when those streams are not innavigable by reason of ice or low water.

Before the era of Railroads, Cairo had a commanding position as a centre of commerce and navigation. This importance of position she still possesses, but has now the additional advantage of being a great railroad centre, a number of the most important railroads in the Valley of the Mississippi converging to and having their termini there. Among these, coming from the north are the great Illinois Central Railroad, which traverses the entire state of Illinois from its extreme northern and north-eastern to its southern limits, and by its connections extends into all the great northwestern grain producing States; the Cairo and Vincennes, extending from Cairo to the City of Vincennes, in the State of Indiana, where its connections afford direct railroad communications with all eastern cities; and the Cairo & St. Louis Railroad, affording a direct railroad communication with the City of St. Louis and all the railroads centering there. The roads coming from the South are the New Orleans, Jackson and Great Northern and the Mobile and Ohio Railroads, which give direct railroad communication with the cities of Mobile and New Orleans, and other Southern Atlantic sea ports, and by connecting roads with all the country south of Cairo; and coming from the southwest is the Cairo, Arkansas and Texas Railroad, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States. This last-named road will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean. These railroads, terminating at Cairo, are now all completed and in successful operation, those in Illinois coming into the city on a bank of each of the rivers, Ohio and Mississippi, and terminating at their confluence, thus encircling the city. The Holly Springs, Brownsville and Ohio River Railroad, and the Cairo and Tennessee River Railroad, which will both terminate at Cairo, are in course of construction and will soon be completed, and other railroads both in Illinois and in States south of the Ohio river, which will also terminate at Cairo, are projected, and arrangements made to build them. The construction of these will greatly increase the railroad communications of Cairo.

Its central location in the great Valley of the Mississippi, and the great results of river and railroad communication gives to Cairo unsurpassed advantages as a commercial point, as it affords to her cheap and cheap access to all the grain producing districts of the North and West, and it gives access to all the agricultural produce consumers of the South, thus presenting the location in the West for an interchange of the respective northern and southern commodities and productions.

As a manufacturing location the position of Cairo is not less important. The crude materials of every description, which constitute the elements of manufactured articles, abound on every side, iron ore, coal, of supe for quality, and timber of every character, more than others, being easily and cheaply accessible, and the rich agricultural region of the immediate neighborhood, as well as the more remote districts rendered tributary to it by river and rail, furnish supplies of the necessaries of life in such abundance as to render living exceptionally cheap. When the manufactured article are produced, the facilities for cheap distribution by river and rail are not equalled.

Cairo has a moral, intelligent, liberal and enterprising population of about 12,000—has a superior system of public schools, which, with others conducted by private enterprise, afford unsurpassed educational advantages—is possessed of well-established churches of nearly every denomination—has public and private buildings of a superior character—has a climate, which for salubrity and healthful influences cannot be surpassed—has a well-regulated and efficient municipal organization, its streets lighted with gas, and other metropolitan advantages, which make it highly desirable and in reality not to be excelled as a place of permanent residence.

Lots and land in Cairo are now offered at very low prices, affording favorable opportunities to purchase, and the owners present the location to the public as offering unrivaled advantages for the successful establishment of commercial or manufacturing enterprises, and the best locality in the country for profitable investment of capital.

EDWIN PARSONS,
Trustees, etc.

NOTICES OF THE PRESS.

The Bazar is edited with a contribution of tact and talent that we seldom find in any journal; and the journal itself is the organ of the great world of fashion.—Boston Traveler.

The Bazar commends itself to every member of the household—to the children by droll and pretty pictures, to the young ladies by its fashion plates in endless variety, to the provident matron by its patterns for the children's clothes, to paterfamilias by its tasteful designs for embroidered slippers and luxurious dressing gowns. But the reading matter of the Bazar is uniformly of great excellence. The paper has acquired a wide popularity for the fireside enjoyment it affords.—N. Y. Evening Post.

THE CAIRO

BULLETIN.

Leading Journal of Southern Illinois.

## The Bulletin

Will steadfastly oppose the policies of the Republican party, and refuse to be trammelled by the dictation of any clique in the Democratic organization.

It believes that the Republican party has fulfilled its mission, and that the Democratic party now organized should be restored to power.

It believes the Radical tyranny that has for several years oppressed the South should be overthrown and the people of the Southern States permitted to control their own affairs.

It believes that railroad corporations should be prohibited by legislative enactments from extorting and unjustly discriminating in their business transactions with the public.

It recognizes the equality of all men before the law.

It advocates free commerce; tariff for revenue only.

It advocates resumption of specie payment, and honest payment of the public debt.

It advocates economy in the administration of public affairs.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action, or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back,** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion, and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

℞ No one remedy is louder called for by the necessities of the American people than a sure and safe cure for **Fever and Ague.** Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. *Prevention* is better than cure; for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of **Fever and Ague** from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

**Fever and Ague** is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are **Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis,** and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail.

A BOOK FOR THE MILLION.

Marriage Guide. A Private Counselor to the Married, or those about to marry, on the physiological mysteries and revelations of the sexual system, with the latest discoveries in the science of reproduction, preserving the complexion, &c.

This is an interesting work of two hundred and sixty pages, with numerous engravings, and contains valuable information for those who are married or contemplate marriage; still it is a book that ought to be kept under lock and key, and not left carelessly about the house.

It contains the experience and advice of a physician whose reputation is world-wide, and should be in the private drawer of every male and female throughout the entire globe. It unfolds every thing on the subject of the generative system that is worth knowing, and much that is not published in any other work.
