trade in bulk was offered at 14½c., and there were no buyers above 14½c. In the Greek, the transactions have been quite small, but prices continue steady the prevailing quotations were: Spot at $4 60 on Upper, $4 90 on Lower, and sellers' options, $4 75@$4 80. Refined has been moderately dealt in at lower figures, the demand chiefly for export; sales of 1,000 bbls. July at 24½c., closing steady. Oases are without change and quiet. In Philadelphia the sales were: 3,500 bbls at 24½c.; 1,000 bbls., 24½c.; 1,000 bbls., 24½c.; closing 24½c. for July.

RICE—The market for Domestic has been somewhat unsettled; inferior grades are irregular and difficult of sale, but choice grades are firmly held and are scarce; sales to-day, 60 tcs. Carolina at 6@7½c. for inferior to Common, and 8@9½c. for Good to Choice; 300 bags Foreign at 6½@7½c. for Rangoon, and 7@7½c. for Patna.

SUGARS—Raw Sugars within a day or two have shown more firmness, but without general activity, closing steady and moderately active; sales, 1,300 hhds. (part yesterday), at 9@9¾c. for Cuba; 10@10½c. for Porto Rico, and 10½c. for Muscovado, all on private terms. Refined firm and in good demand at 12@13½c. for Hards.

SPICES—There has been only a moderate demand, and prices are without material change; we quote at $1 50 for Mace and $1 for Penang Nutmegs; 31@32c. for Cassia, 32c. for Wild Cinnamon, 11c. for Cloves, 16c. Jamaica Pepper, 17c. for Singapore, 35c. for White, 40c. for Race Ginger, and 16c. for African, 40c. for Pimento, and 19½c. for Red Peppers, all gold.

TALLOW is in moderate demand and the market is steady; sales of 70,000 lb at 9½@9¾c.

WOOL—The market is only moderately active but firm; manufacturers looking round, but do not seem anxious to take hold of stock, except such lots as they can pick up at prices a little below the ruling rates. The medium grades of Fleece are in best request, while the fine grades are slow of sale. Pulled Wools are very scarce, and are readily taken at full prices. Texas Wools are selling moderately at previous prices, and holders are not pressing sales. The feeling generally exists that there will not be any material change in Wools during the next few weeks. The sales are 19,000 lb Extra Pulled at 57@60c.; 10,000 lb Scoured Maine Pulled, part XX, 72@73c.; 17,000 lb XX and upwards, 75@80c.; 10,000 lb Medium Unwashed, 41@42c.; 10,000 lb Fleece at 42@43c.; 10,000 lb Combing Delaine at 50@60c.; 40,000 lb Kentucky Combing, 50@52c.; 40,000 lb Texas at 32@40c.; 10,000 lb Pulled at 70@75c.; 40,000 lb Spring Clip California, 40@42c.; 24,000 lb Georgia, 52@55c.; and 20,000 lb Fall do., hairy, at 37½c.

HAY is in good request and firm, sales of 150 bbls. at 95c. for Iron-bound.

WHISKY is strong but dull, sales of 150 bbls. at 91c. for Iron-bound.

N. Y. WHOLESALE PRICES OF COUNTRY PRODUCE.

FOR THE WEEK ENDING JULY 25, 1871.

(Reported for THE N. Y. TRIBUNE by our own Reporter.)

The following are the current rates of articles in good condition, as sold by commission houses by wholesale. Shippers receive 5 to 10 per cent less deducted for commissions, bottle frieght, and other charges. Boxes or packages should be carefully marked with paint, and the initials or private mark of the sender should also be painted upon one end, with the month paint of inspecting the contents. Nail an invoice or list of the articles upon the under side of the cover, and send letter by mail containing an invoice and directions, also stating how and where sent. Clean packages and care in putting up will add much to the value of the produce.

BEANS AND PEAS.

Receipts of beans, 322 bbls. for the week, or 196 more than the previous week; corresponding week last year, 35 bbls. As state beans usually come to market in barrels, we give the receipts in that form. The market continues very firm, with a scarcity of stock. Were several car-loads offered on sale at once, present quotations could not be realized. We quote: Pea, $2 50@$2 60; Medium, $2 40@$2 45; Yellow Eyes, $2 60@$2 75; Red Kidneys, $2 75@$3 00; Marrowfat, $2 75@$3 00; Canada Peas, $1 75@$1 80.

BUTTER.

Receipts, 6,224 pkgs. for the week, or 1,739 less than the previous week; corresponding week last year, 6,311 pkgs. aggregate, 1,000 firkins. The arrivals, though gradually falling off, are in advance of what they were one year ago. With less than 1,000 packages to-day, the weather being cool and favorable, there is a stronger tone on fresh lots, be they State or Western. There was some talk of putting the price up 2c. this morning, and, from the present look, there are quite likely to be there before the week is ended. Already some of the dealers are getting 22c. for their best creameries, and a few State firkins have been sold at 20c. Grocers complain that Western is not coming good, and that they must turn to State butter. We find an occasional lot of fresh Michigan in Iowa butter which is right in color and brings clean and solid selling above 20c. There is just at present a scarcity of the Western butter, which is in demand for such as has been good for two days past. Of common and medium there is ample, and not a portable of improvement; in fact, prices are shaded to meet the receding views of shippers, for if such butter is not sent abroad eventually must go to grease. Evidences constantly accumulate that the mass of butter is largely in excess of any former year, and as there is something going to California, at present England appears to be our only hope. Shippers want a pretty fair butter at 13@18½c., but have paid 19½c. for a fine lot of 50 tubs, 17c. for a fine lot of Michigan and 17c. for lots at 16c. and 16½c. for a fine lot of Iowa at 16c. and 16½c. for a fine lot of Iowa at 16c. and 16½c. for a fine lot of Iowa
